	Market Report and Statements	511-525
	Return of Street Accidents	526-528
5. AUDITORS' REPORT		529-571

Review by the Standing Committee of the Administration Report of the Municipal Commissioner for the City of Bombay for the year 1889-90.

DURING the year under review, the Corporation had the privilege of offering a hearty welcome to India, to H. R. H. Prince Albert Victor of Wales, the future Heir to the throne. In like manner, they joined in wishing His Royal Highness God-speed after the completion of his prolonged tour through India. During his stay in this city, His Royal Highness took part in several public ceremonies, including the laying of the foundation-stone of the new Leper Asylum at Trombay. It also fell to the lot of the Corporation to bid farewell to their Royal Highnesses the Duke and Duchess of Connaught, on his Royal Highness relinquishing the command of the Bombay Army. Their Royal Highnesses had so endeared themselves to all classes, that their final departure from Bombay was a matter of extreme regret to every class of the community.

2. Mr. E. C. K. Ollivant, C.I.E., after holding the office of Municipal Commissioner for nine years, finally handed over charge to Mr. H. A. Acworth on the 30th April last, after receiving hearty votes of thanks from the Corporation and this Committee, appreciative of his many and eminent services to Bombay. Among the more important matters referred to in Mr. Acworth's report, are (1) the steps taken by the Corporation in memorialising the Secretary of State against the proposal to change the day of departure of the English Mail to Sunday, the action taken by the Corporation meeting with the entire concurrence of Government; (2) the appointment of Mr. Baldwin Latham to report on the whole question of drainage; (3) the sanctioning of the construction of the Pawai Water Works; (4) the re-organization and re-equipment of the Fire Brigade, and the selection, from the London Brigade, of Mr. Nicholls as Chief of the Bombay Brigade; (5) the enlargement and improvement of the Victoria Gardens, in connection with which work the thanks of the Corporation are due to Mr. H. M. Phipson for the valuable aid rendered by him to the Commissioner; (6) undertaking the maintenance, with the

assistance of Government, of a Leper Asylum, which owes its existence to the liberal philanthropy of Sir Dinshaw M. Petit, Bart.; (7) the strike in July 1889 among the scavengers of the Health Department, causing most serious inconvenience to the public, and threatening the gravest danger to the health of the city.

3. The financial position of the Municipality was satisfactory. The income proper was Rs. 53,42,169-10-9 or Rs. 4,21,969-10-9, better than the estimate, whilst, with the opening balance, the total sum available for expenditure was Rs. 64,68,225-13-0. The yield from property taxes was Rs. 2,50,364-2-3 over the estimate, owing to the levy of the ½ per cent. additional tax for the Fire Brigade, and the levy of water and halalkhor taxes on all properties throughout the city except those which by law are specially exempted. Owing to disputes, considerable sums are still outstanding on these two heads, pending the settlement of certain questions which, the Commissioner hopes, will be disposed of in a month or two. There was a falling off of over Rs. 18,000 in the wheel tax, owing to the reduction of the tax on labour carts, hack victorias and shigrams, as likewise a small falling off in town duties, due to the omission of petroleum from taxable articles under the schedule. The expenditure proper was Rs. 50,42,404-13-2, or Rs. 7,77,416-5-11 less than the estimate, of which last mentioned, however, nearly five lakhs were on account of unpaid liabilities. The expenditure from income proper, was Rs. 1,58,853 less than in the previous year.

4. Regarding the large excesses on the charges for the Love Grove Pumping Station, the attention of the Corporation is directed to para. 16 of the Commissioner's report and pages 59 and 60 of the Chief Accountant's, for, if excesses of these very large amounts are to be incurred without the previous knowledge or sanction of the Committee or that of the Corporation, the Municipality may again be involved in the most serious financial difficulties. The Commissioner admits the necessity there is for some revision of the account branch of the Executive Engineer's office, concerning which, he says, there are frequent complaints from the Chief Accountant; there was a very large and increasing amount of outstandings on account of private and departmental works, and the workshops; and the Committee, under the provisions of Section 123 of the Act, has asked the

Commissioner to make a special enquiry on these points as soon as he has time available. The expenditure from loan funds was Rs. 43,97,328, of which Rs. 34,43,597 was on account of Tansa. During the last 5 years the outlay from these funds was Rs. 1,31,57,926.

5. The Committee cannot too strongly commend to the attention of the Corporation, Mr. Acworth's very valuable remarks concerning the desirability of early action being taken to again urge upon the attention of the Government of India and the Secretary of State, the absolute necessity of the Municipality being allowed to raise loans to run for the period of 60 years instead of being limited to 40 years. For, whilst works of great magnitude require to be provided for out of loans, the Corporation are already so heavily handicapped in regard to the provision of ways and means, that, without the relief sought for, it will be impossible to arrange for the carrying out of many much-needed improvements. The repeated, but unavailing, efforts of the Corporation towards this object having hitherto failed, the form which any future action on their part should take, will be a matter for consideration.

6. On 31st March the total liabilities were taken at Rs. 2,82,28,829, and the assets at Rs. 4,26,10,096, or a balance of Rs. 1,43,81,267, over the liabilities. The total assessment was considerably increased, but there was a large amount uncollected at the close of the year, attributed to disputes as before referred to. The valuation of property chargeable with Property Taxes was Rs. 2,19,43,611, showing an increase of Rs. 34,13,316 over the closing valuation of the previous year.

7. Under the head of Public Works, reference is made to the condition of Love Grove Pumping Station—a subject alluded to in para. 4 of this "Review." Plans and estimates for the sewerage of Parel, Mazagon, Umerkhadi and Colaba were prepared, but, urgent as those works are, they cannot be proceeded with until Government has decided on the question of outfall, to consider which Government has appointed a Committee consisting of Colonel Merewether, R.E., Chairman, Mr. T. D. Little, Deputy Surgeon-General Cates, Colonel Twemlow, R. E., Mr. H. A. Acworth, Surgeon-Major MacRury, Captain Sir Henry Morland, Mr. Thomas Blaney, Mr. G. E. Ormiston. The rain-fall at Vehar and Tulsi was fairly good, but, consequent on the reported "almost certain deficiency in the water supply during the hot weather of 1892, and a possible deficiency

during the hot weather of 1891," the Pawai Works were undertaken, and have been completed by Mr. Tomlinson with persistent energy. An additional 8,000,000 gallons daily was added for some months to the supply of the city during the present year (1890). Steady progress was made with the Tansa Works.

8. The important question of over-bridges across railways, immediately and prospectively required, has been decided, and estimates for those at Marine Lines, Arthur and Clerk Roads, and Carroll Road, are being prepared, whilst that for Falkland Road has finally been sanctioned. Estimates for three foot-bridges between Marine Lines Station and Churni Road level-crossing are being prepared.

9. The report of the Auditors, accompanied by an index appended thereto, contains a mass of useful information and testifies to the care and industry bestowed on their important and ever-increasing work which, as a reference to para. 6 will show, demands a large amount of their undivided attention in order that the concurrent and daily Audit may be regularly kept up.

10. The Health Officer's returns, made up to 31st December last, show that the public health of the city was not so satisfactory as usual. The total number of deaths from all causes was 23,378, being 957 in excess of the previous year, and equal to a death-rate of 25·71 per 1,000. The ratio was the same in 1888, as compared with an average during the five previous years of 24·97. There was a serious increase in the number of lepers, who, from 430 in 1881, are estimated to have increased to over 1,000. Lepers wander through the streets, associate with, and even live in rooms with, other people who are not lepers. Lepers propagate their dreadful disease in the city,and Surgeon-Major Weir mentions that one evening, whilst inspecting a bakery, he found a leper inside the place " leaning, with ulcerated fingers, on the table where the bread was lying." He has no doubt that the disease can be communicated, cites two instances thereof, and is of opinion that lepers should be removed from the city and segregated. The deaths from different causes were: cholera, 462; small-pox, 304; measles, 638; fevers, 7,266 ; phthisis, 2,805; nervous system, 2,122 ; respiratory system, 3,942 ; diarrhœa, 1,099 ; dysentery, 625 ; accidents, 379; and other causes, 3,736. The mortality from cholera was above the average, but those who succumbed to the disease were, to a great extent, of the

indigent and vagrant classes. It was found that, of forty cases, the patients were those who drank well-water and the mortality amongst these persons was eighty per cent. higher than among those who used Vehar or Tulsi water. From fevers the deaths were 956 above the average, and, out of the total, 5,527 were of the remittent type, 405 were due to ague, 1,259 to simple continued fever, and 25 to enteric fever. As in the previous twelve months, so in 1889 the highest rate of mortality was in the Parel Ward, the adjoining Ward, Byculla, being next highest on the list, with Mahalukhsmi as third. Byculla has some drainage, but Parel none; and with the expansion of population in both, the nuisances are increasing, from houses being without drainage, and in too many instances surrounded, in consequence, by sewage. The increase in the deaths from small-pox was attributable to the immigration of unvaccinated people from Goa. For the treatment of cases of this kind a small hospital was maintained by the Corporation from 8th March to 21st August 1889, during which time 102 patients were treated. Regarding this point, the Commissioner remarks that it may perhaps hereafter be found necessary to guard the approaches to the city, so that persons found to be suffering from a dangerous or infectious disease, or leprosy, may be intercepted and taken to a dharamshala, or to a leper asylum, by which arrangement sickly vagrants and lepers would probably find Bombay less attractive than at present, but, unless the existing legislation is greatly modified, it would be found very difficult to protect the health of the city by such drastic measures, however advantageous such protection might be.

11. The Health Officer has much to state regarding nuisances of different natures, and, with reference to those in public streets, makes a suggestion which, the Committee imagine, will hardly commend itself, namely, that "until the Municipal Commissioner or the chief officers or the members of the Standing Committee have power to deal with small offences against public health, there will be no improvement in the sanitation of streets and no practical prevention of nuisances." Regarding the serious nuisances on the Flats towards the close of the year, from the reservoir, the Health Officer observes, with great truth, that so serious a one had not been known for years, for the water in the reservoir was nearly as foul as the sewage in the open main drain. On this point the Committee need only remark that the filling in of the reservoir being one of the recommendations most strongly urged

by Mr. Baldwin Latham for the improvement of the sanitation of the city, the question will doubtless receive the early and most careful attention of the Corporation. As an instance of the evils arising from any neglect of the removal of filth from the inhabited parts of the Island, the Health Officer observes that the nuisance caused by the cessation of work for even one day was demonstrated to the public during the strike of the Municipal bigarries. Until that strike, few people realised even the effect of the dust-bins being left unemptied. In connection with the general question of the disposal of town-sweepings, he remarks that the Flats are being so rapidly built over, that it is doubtful whether the deposit of refuse there can be continued much longer, and the future place of disposal becomes an urgent question.

12. Para. 18 of the Health Officer's report is satisfactory, as indicating that the sanitary condition of Mills in Bombay, generally, is good.

13. According to the Registration Department, 15,493 living, and 1,224 still-born, children were born, showing a birth-rate of 20·03 per 1,000 only. Of the living births, 8,064 were males and 7,429 females, the proportion of males to females being 108 to 100.

14. Vaccinations, primary, numbered 20,337 and re-vaccinations 4,498, figures which, compared with the birth returns, must be considered very satisfactory.

15. The total expenditure on the department was Rs. 10,71,251; its earnings being Rs. 5,84,553. The net cost to the Municipality was only Rs. 4,86,698. The results of the work of the Health Department can be thus summarised: On an average, 4,011 men and women, 704 scavengering and drain carts and 155 night-soil and cesspool carts were at work each day. The collection of garbage or *kutchra* was greater than in the previous year, by 12 tons a day. 304,662 tons, equal to 834 tons a day, were collected and disposed of against 300,249 tons in 1888. 128,986 tons of night-soil, equal to 353 tons a day, were collected and removed against 127,287 tons in 1888. 198 miles of covered drains were opened and cleaned against 207 in 1888. 3,255 notices and 4,607 summonses were issued, against 4,240 notices and 6,887 summonses in 1888. The number of convictions as against summonses is not shown; the amount of fines recovered amounted to Rs. 1,824-8-0 against Rs. 2,107-4-0 in 1888. The number of licenses granted from 1st April to 31st

December 1889, amounted to 1,684. For the use of the public *dhobiwada*, or place for washing clothes, Rs. 11,638-8-9 were recovered against Rs. 11,840-0-0 in 1888.

16. From markets and slaughter houses, the income was Rs. 3,29,170, a net increase of Rs. 6,652 over the previous year, though the total was Rs. 8,775 less than the estimate. The supply of vegetables and fruit, both European and Native, were plentiful, good and cheap. These supplies are now received from nearly all parts of India reached by the Railways, whilst apples from Verona in Italy, Tunis, Mangalore, and Cashmere, and pomegranates and moosoombees or sweet limes from Muscat are brought in considerable quantities. Trade in fruit and vegetables is stated to have been very slack. The mutton was well and largely supplied, but the beef was, as usual of late years, poor and small.

HENRY MORLAND,

Chairman, Standing Committee.

Memorandum regarding the Meetings held by, the Changes in, the Corporation and Standing Committee, &c.

1. Mr. Grattan Geary was elected President of the Corporation at the meeting held on the 4th April 1889, and he held the appointment until the 31st March 1890.

2. Sixty-three meetings of the Corporation were held, and one more was convened but not held for want of a quorum. Besides these, thirty-two Committee meetings were held, and four others convened but not held for the same reason.

3. The changes in the personnel of the Corporation were as follows :—Mr. J. S. Alston resigned on the 18th March 1890, and his seat remained vacant to the end of the year. Surgeon-Major J. Arnott, M.D., proceeded to Europe on the 13th August 1889, and was succeeded by Surgeon-Major G. A. Maconachie, M.D., who was elected by the Justices of the Peace on the 30th September last. Mr. H. C. Burder resigned on the 6th November, and was succeeded by Mr. J. P. Cornforth, who was appointed by Government on the 17th January 1890. Mr. P. C. DeSouza and Rao Saheb V. N. Mandlik, C.S.I., died on the 9th May 1889. Colonel A. B. Portman resigned on the 30th April 1889. Those three gentlemen were succeeded by Mr. Eknath R. Khote, Mr. Anandrao N. Vasudev and Captain W. P. Walshe, who were elected by the Justices on the 3rd June following. Mr. Hormusjee Dadabhoy resigned on the 16th August, and was succeeded by Mr. Darashah R. Chichgar, who was elected by the Justices on the 10th September. Mr. Jalbhoy Ardaser Set vacated his seat by absence from Bombay, and was succeeded by Mr. Govardhandas G. Tejpal who was elected by Rate-payers on the 27th September. Mr. Jiwanji Jamsedji Mody resigned on the 27th June, and was succeeded by Mr. Manekshah J. Taliyarkhan, who was elected by the University of Bombay on the 6th September. Mr. Mahomed Hussein Hakim resigned, and was succeeded by Mr. Amirudin Tyabji who was appointed by Government on the 6th May 1889. Mr. Nanabhoy B. Jeejeebhoy resigned on the 9th December, and was succeeded by Mr. Elappa Balaram who was elected by Rate-

payers on the 13th January last. Mr. Narottamdas Govardhandas resigned on the 11th February, and was succeeded by Mr. Govardhandas K. Mukanji, who also was elected by Ratepayers on the 4th March.

4. During the same period the Standing Committee held 56 meetings. Mr. Dosabhai Framji, C.S.I., continued in the office of Chairman up to 22nd October 1889, when he resigned and was succeeded by Mr. Thomas Blaney, whose election by the Committee was unanimous. He held this office up to 31st March 1890. Captain Sir Henry Morland, Kt., resigned his seat on the Committee on proceeding to Europe on the 8th May 1889, and was succeeded by Major H. O. Selby, R.E., who was elected by the Corporation on the 16th idem.

5. There were four Sub-Committee meetings, and one more was convened but not held for want of a quorum. Besides these meetings, there were one hundred and seventy-two attendances for cheque-signing and for the audit of the weekly statement of accounts.

6. The members of the Corporation had the pleasure, during the year, of presenting addresses to H. R. H. Prince Albert Victor of Wales, on the occasion of his arrival from England and on his departure from India. The Corporation also presented a farewell address to H. R. H. the Duke of Connaught and Strathearn.

7. Other details connected with some of the principal questions which engaged the attention of the Corporation are given in paras. 1 and 2 of the foregoing "Review."

H. WYNFORD BARROW,
Municipal Secretary.

ADMINISTRATION REPORT

OF THE

MUNICIPAL COMMISSIONER.

Annual Administration Report of the Municipal Commissioner for the City of Bombay for the year 1889-90.

I.—Introductory.

1. Mr. E. C. K. Ollivant, C.S., C.I.E., held his appointment of Municipal Commissioner throughout the year. In the closing month of the official year, I held the appointment of Deputy Commissioner, preliminary to taking over the duties of Commissioner on Mr. Ollivant's relinquishment of the office.

2. Mr. Ollivant left before the preparation of the Annual Report was begun. It is a matter of regret that we cannot have Mr. Ollivant's own report on the closing year of his administration. His report, which would probably have given a brief review of the last decade, showing the progress made by the Municipality, would have been of much interest.

3. A summary of the principal events of the year may be given here. Mr. Ollivant made certain proposals in the early part of 1889 for the levy of fees at the Victoria Gardens and for their general improvement, which were accepted by the Corporation in the month of June, and steps have been since taken to carry them out. Substantial improvements have also been effected. The prospective visit of H. R. H. Prince Albert Victor in March of this year gave a great impetus to the work of enlarging and improving the gardens. We are under obligations to Mr. H. M. Phipson for his valuable and disinterested services and suggestions.

4. In the month of July the scavengering bigaries of the Health Department struck work, the strike caused serious inconvenience, and threatened great danger to the health of the city. The Corporation have already acknowledged the services of the executive officers, whose energy overcame the crisis. The Acting Commissioner of Police (the late Colonel Wise) and his officers gave very valuable assistance. The halalkhors in Municipal employ rendered good service by cheerfully doing as much of the scavengers' work, in addition to their own halalkhor work, as they possibly could.

5. A proposal to make Sunday the day of departure for the English Mails from Bombay was met by a strong feeling of opposition on the part of all classes of the community. The Municipality took part in lodging a strong protest against the proposal.

6. Serious complaints were frequently made regarding the alleged defective sewerage arrangements, and the general insanitary condition of the Marine Lines. Government appointed a committee to investigate and report, but, owing to the conflict of opinion on this, and on every sewerage and drainage question in Bombay, and to the urgency of drainage arrangements being provided for Colaba and the northern districts of the Island, it was deemed to be essential that some eminent authority on sewerage should be consulted. Accordingly, with the approval of the Standing Committee and under a general sanction from the Corporation, the Commissioner invited Mr. Baldwin Latham to Bombay. This gentleman, who is one of the first Sanitary Engineers in Europe, arrived in Bombay in January of this year, and at once began a most thorough and exhaustive enquiry. He has submitted a most valuable report, which, however, was not printed and published until after the official year had closed.

7. The possibility of a deficient rainfall in 1890 and consequently of a deficient water-supply in the hot weather of 1891 and 1892, led to the adoption of Mr. Tomlinson's Pawai Valley Water Works Scheme. It was approved as a most urgent measure, and the works were commenced in November and carried on so nearly to completion before the rains of 1890, that it has been possible to supply the city with Pawai water, to the saving of Vehar water, since about the middle of July. Mr. Tomlinson is entitled to great credit for the energy and ability he has shown.

8. Mr. Tomlinson's report on the Fire Brigade for the first year of its work as a branch of the Municipality being of much value to the general public, a brief review of it may here be given. The number of fires in the city is the largest on record. The value of property destroyed amounts to the large sum of Rs. 22,62,121 as against Rs. 7,65,766 of the previous year. The next greatest loss in any one of the last 30 years was Rs. 10,46,931 in 1887-88. The destructive fires of the year now under report form a subject for careful consideration. We have in Bombay all the elements of an extensive conflagration: Houses, sheds, and huts constructed of tatty walls, bamboos, mats, cadjan roofs—all inflammable materials—stacks of hay, coal and firewood in large quantities; matches, kerosine and other oils; gunpowder, fireworks and explosives, &c., all of which in and around the city are sufficient, on an outbreak of fire, with a high wind, to reduce in a few hours or in a very few days the whole of the native

town to ashes. Orders for the removal of inflammable structures have been given, and will be rigidly enforced after the rains; all proper precautions are being taken in respect of licensing dangerous trades. Measures have been adopted, or are in course of adoption for the improvement and general equipment of the Fire Brigade, its stations and places of residence for officers and firemen.

9. Sir Dinshaw Maneckjee Petit, Bart., C.I.E., in honour of His Royal Highness Prince Albert Victor's visit to Bombay, has given the munificent sum of one lakh of rupees for the erection of a Leper Asylum, and a site has been chosen at Trombay, where the foundation-stone was laid by H. R. H. on the 25th March last.

10. His Royal Highness Prince Albert Victor landed in Bombay on the 9th November. No demonstration of welcome on any large scale was then possible, owing to H. R. H.'s short stay, which lasted only a few hours. On H. R. H.'s return, however, in March, he was welcomed with great enthusiasm. All classes of the community joined the Municipality in devising means to honour him, and Bombay was *en fête* for several days.

II.—Heads of Departments.

11. Mr. Rienzi Walton, Executive Engineer, was on leave up to the 3rd January 1889, in continuation of the leave granted him on account of ill-health. Mr. James W. Smith, Deputy Executive Engineer, continued to act for him.

12. Mr. R. P. Brunton, Assessor and Collector, was on leave from 7th July to 8th September. Rao Bahadur Virprasad Tapiprasad acted for him.

III.—Financial.

13. The Income and Expenditure of the year were as follows:—

	Rs.	a.	p.
Opening balance	11,26,056	2	3
Revenue from all sources.....	53,42,169	10	9
Total available for expenditure.....	64,68,225	13	0
Spent during the year	50,42,404	13	2
Difference.....	14,25,820	15	10
Actual closing balance after making allowance for adjustments, advances recoverable, &c., as detailed at pages 64 to 66 of Chief Accountant's Report.....	13,31,321	8	3

The opening balance was greater by Rs. 6,76,056-2-3 than that given in the Budget Estimate. Of this amount, the sum of Rs. 4,05,083-10-1 represents the unexpended balance of lapsed grants for 1888-89 renewed in 1889-90. The remainder, Rs. 2,70,972-8-2, not having been appropriated during the year now under report, formed part of the opening balance of 1890-91.

The revenue fell short of the estimates under certain heads by Rs. 51,890-14-0, and under other heads it was better than the estimates by Rs. 3,72,916-10-6, excluding the nominal profit of Rs. 1,00,943-14-3 on stores. The total revenue in excess of the estimates, exclusive of the above book profit, was, therefore, Rs. 3,21,025-12-6 principally under the heads Property Taxes, Tobacco Duty and Licenses, and Interest on our Invested Funds. Of the above excess revenue, Rs. 2,25,000 have already been taken credit for in the current year's Budget.

The total grants, sanctioned for expenditure during the year amounted to Rs. 58,19,821-3-1 as shewn below:—

	Rs.	a.	p.
Originally sanctioned in the Budget... ...	52,43,156	0	0
Lapsed grants renewed	4,05,083	10	1
Additional grants sanctioned	1,71,581	9	0
Total sanctioned ...	58,19,821	3	1
Deduct—Spent ...	50,42,404	15	2
Balance (expenditure less than sanctions) ...Rs.	7,77,416	5	11

This balance includes the sum of Rs. 4,77,876-1-5 on account of unpaid liabilities of the year.

The amount actually available for further requirements is as shown below :—

	Rs.	a.	p.	Rs.	a.	p.
Actual closing balance...				13,31,321	8	3
Deduct—						
For renewal of lapsed grants ...	4,77,876	1	5			
Appropriated in Budget, 1890-91 (including the 1 lakh required by law)	5,00,000	0	0			
				9,77,876	1	5
Actually available ... ... Rs.				*3,53,445	6	10

14. The following tables **A** and **B** shew the main heads of Revenue and Expenditure, as compared with the Budget Estimates for 1889-90, and the Actuals for 1888-89 :—

* Of this amount, Rs. 64,018-9-10 have been utilized up to date for extra grants.

* Exclusive of Rs. 12,000 shown under Fire Brigade on account of debt.

15. From Statement **A**—Revenue—it will be observed that the Property Taxes (General Tax, Halalkhor Tax and Water Tax, including miscellaneous Water Works Revenue) yielded Rs. 2,50,364-2-3 more than our Budget Estimates and Rs. 4,06,402-1-0 more than the receipts of the previous year, owing to the levy of the additional ½ per cent. for Fire Brigade charges under Section 140 (*c*) of the Municipal Act, to the Halalkhor and Water Taxes having been levied under Sections 141 and 142 of the Act on all properties throughout the City, irrespective of actual service rendered and to erection of new buildings, &c. Considerable sums are still outstanding under Water and Halalkhor Taxes, pending settlement of certain questions affecting the principles of levy. It is hoped that they will be all disposed of in a month or two. Wheel Tax and Toll Fees yielded Rs. 18,284-7-2 less than our estimate. The falling off was entirely on public conveyances owing to the reduction made on the tax on labour carts, shigrams, and victorias. The receipts on account of this item were, however, Rs. 11,044-12-10 more than those of the previous year.

Town Duties realized Rs. 2,934-9-4 less than our expectation and Rs. 58,831-12-4 less than the realizations of the previous year, chiefly owing to the omission of petroleum from the taxable articles.

The increase of Rs. 7,922-1-1 on Tobacco Duty and Licenses was due to an under-estimate of the revenue under that item, the last year's realization being nearly equal to that of the previous year.

Markets Receipts were Rs. 8,775-0-7 less than the estimate owing to the receipts on account of Bandora Fair Ground and Feeding Fees by auction sale being less than usual and to the enhanced cost of feeding animals brought for slaughter in consequence of higher contract rates.

The receipts from returns from Property and Miscellaneous were higher than the estimate by Rs. 1,49,170-6-8, partly owing to interest having been realized on our invested funds considerably in excess of the estimate, in consequence of our having made advances from our current cash balance to meet expenditure on Loan Works, thereby avoiding the sale of the invested funds or the early withdrawal of the interest-bearing loan funds deposits, and partly to a large book profit resulting on the adjustment and valuation of stock. The receipts from this source were, however, less by Rs. 13,746-12-7 than those of the previous year.

16. On referring to statement **B**—Expenditure—it will be observed that the actuals have in all cases been less than the estimates, leaving an unexpended balance of Rs. 7,77,416-5-11 at the end of the year. Out of this sum, Rs. 4,77,876-1-5, representing the cost of unpaid liabilities and of works deferred, will be required during the current year. The actual saving on the estimates will, therefore, be Rs. 2,99,540-4-6 which was principally caused on the following items :—Rs. 74,000 in the Health Department, chiefly owing to the full strength of labourers, halalkhores and carts not having been entertained, to lower contract rates for fodder, and to the grant for covering cutchra deposits not being wholly required during the year; Rs. 1,07,000 in the Engineer's Department, owing to the full number of lamps not having been put up and lit during the year, to lower contract rates for kerosine oil lighting, supply of carts and bullocks and road-metal, and to full establishment, labour, &c., charges not having been incurred ; Rs. 67,000 on debt charges, owing to certain loans not having been raised during the year or not raised as soon as was anticipated. As compared with the previous year's actuals, the expenditure during the year under report on General Superintendence, Public Health Department, Public Gardens, Pensions, Gratuities and Compassionate Allowances and Education was greater by Rs. 83,337-3-5, and that under Assessment and Collection Department, Public Works, Ordinary and New Works, Fire Brigade, Municipal Debt, Hospitals and Dispensaries, Police and Miscellaneous was less by Rs. 2,42,190-4-8. Thus, the expenditure during 1889-90 was less than in 1888-89 by Rs. 1,58,853-1-3.

I may add, with reference to the Chief Accountant's comments on the excess incurred on repairs to machinery, &c., at the Love Grove Pumping Station, that I await a report as to certain details from the Executive Engineer, but that he is not responsible for the expenditure, which was incurred under the Commissioner's personal orders and was rendered absolutely necessary by the failure of the pumps at Love Grove, which endangered the sewerage system of the whole City and required urgent and immediate amendment. The other excesses in the Engineer's Department point to the necessity for some revision in the account branch of that department, concerning which I receive frequent complaints from the Chief Accountant as well as on the subject of outstandings in the same department.

17. The following statement exhibits the expenditure during the last five years on the principal loan works in progress :—

	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.	TOTAL.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Tanas	76,490 9 0	7,99,001 4 7	22,80,891 14 4	24,96,787 13 5	34,43,597 7 1	90,95,769 0 5
Other Water Works	8,69,503 10 0	5,41,244 4 8	90,488 10 6	1,13,955 15 8	1,70,378 14 10	17,85,571 7 3
Sewerage Works	3,46,112 7 5	3,80,117 14 8	27,126 10 4	3,08,036 13 11	3,12,052 2 5	13,79,346 0 0
Markets	.....	.....	45,385 13 0	2,41,186 2 4	2,14,053 14 0	5,01,223 13 4
Roads	61,238 12 3	48,086 0 9	*Cr.* 76,722 6 0	4,165 11 8	46,021 6 3	1,03,084 8 6
Minor Sanitary and other Works ..	16,872 4 1	36,084 5 1	1,676 15 10	28,004 4 8	2,10,635 4 4	2,92,332 1 7
Total.. ..	13,88,212 10 9	18,11,433 13 4	23,68,846 10 0	31,92,095 12 10	43,97,338 0 11	1,31,57,926 15 10

I cannot conclude this review of the Finances of the year under report without an expression of regret that the powerful appeal which Mr. Ollivant addressed to the Government of India on the last day of his connection with the Municipality with reference to the extension from 40 to the statutory term of 60 years of the maximum period for which a loan is to run, should have been, as we have recently learned, fruitless. I cannot suppose that the Corporation will rest content with this settlement of so important a question, nor, in view of the heavy additional liabilities which they will have to incur in connection with pending public improvements and particularly with the drainage and sewerage of the city could I advise them to do so. The form which any future action on their part is to take will be a matter for their early consideration.

18. The following statement shows the total Assets and Liabilities at the end of the year :—

ASSETS.

Remarks.

* The balance of these Loans on 1st April 1889 was Rs. 21,500, out of which Rs. 17,000 have been repaid during 1889-90, leaving an unpaid balance of Rs. 4,500 (not carrying interest) at the close of the year owing to the bond-holders not having applied for the repayment of the debentures. The latter sum has been deposited with the Bank of Bombay at interest and will be repaid when the parties apply for payment. The arrears interest on these Loans paid during 1889-90 amounted to Rs. 115-4-2.

† The amount of bonds stipulated to be paid off on 1st January 1890 on account of this Loan, was Rs. 36,000, out of which Rs. 500 remain unpaid owing to one bond of Rs. 500 not having been presented for repayment on the due date. The bond in question does not carry interest from and after the above date.

‡ As under the terms of these Loans the bonds could not be repaid to the holders before the dates stipulated in the debentures, the Sinking Fund has been invested as under :—

	Amount of Sinking Fund invested up to 1888-89.	Balance of Debt Instalments for 1889-90.	Interest accumulations for 1889-90.	Total.	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	
44 Lakhs Sanitary Works Loan	1,82,804 12 6	39,500 0 0	5,144 3 9	1,97,449 0 3	} Deposited with the Bank of Bombay in 5 per cent. Municipal Debentures for Rs. 2,39,500 and Rs. 205-9-7 in cash.
12 do. Drainage and W. W. Loan.	10,000 0 0	11,000 0 0	355 2 3	21,355 2 3	
7 do. Sanitary Works Loan	6,000 0 0	6,000 0 0	105 0 11	12,105 0 11	
Loan of 10,08,500 for Drainage and Water Works, Markets & Roads..	....	8,600 0 0	106 6 2	8,706 6 2	
	1,48,804 12 6	85,100 0 0	5,800 13 1	2,39,705 0 7	

** This Loan having been raised at the close of 1888-89, no interest and Sinking Fund Instalments became payable during the year.

¶ The Sinking Fund for this Loan will be set apart from 1893, *i.e.*, after the completion of the works as per conditions of the Loan.

§ If from this sum the interest, amounting to Rs. 52,204-6-3, received on the Tansa Loan investments during 1889-90 and credited against the payment of interest, were deducted, the net payment would amount to Rs. 3,00,116-6-6.

‖ In addition to this sum the balance of Rs. 67,810-0-3 remaining out of the provision of Rs. 3,70,000 for the Tansa Loan Interest for 1889-90, together with Rs. 33,868-1-6 received as interest on the Tansa Loan Interest Invested Fund, has been invested to meet interest payments in future years in excess of the annual provision of Rs. 3,70,000.

a Exclusive of Rs. 1,15,341-13-4 received as net premia on these Loans.

b This amount, together with Rs. 90,900-13-1, set apart as Sinking Fund during 1889-90, brings up the total disbursements for that year on account of repayment of Capital to Rs. 3,24,677-1-8.

c If to this sum the amount of Rs. 3,03,002-5-10 received on account of net premia during 1888-89 and 1889-90 were added, the total balance would amount to Rs. 2,69,21,866-8-10.

d If to this sum the amount of Rs. 1,01,658-1-9 paid on account of Tansa Loan Interest Investment (*vide* note ‖), Rs. 115-4-2 paid on account of interest on the Local Loans (*vide* note *), and Rs. 5,623-5-7 paid on account of Bank's Commission and Advertisement, &c., charges on the different Loans were added and the sum of Rs. 52,204-6-3 received on account of interest on the Tansa Loan Investment (*vide* note §) were deducted, the total payments would aggregate Rs. 11,73,034-0-2.

to the various Loans raised from the public and borrowed from Government :—

20. The revenue, expenditure and balances of the past five years have been contrasted in the following table :—

	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.
	Rs.	Rs.	Rs.	Rs.	Rs.
Revenue	44,73,973	49,01,815	51,66,530	49,66,192	53,42,170
Expenditure	40,66,940	41,76,362	58,12,690	52,01,258	50,42,405
Closing balance (including advances to loan works, &c., and minor deposits)	15,62,410	20,58,938	13,64,599	11,26,056	13,31,322
Add—Recoverable Revenue outstanding	90,000	90,000	1,10,000	1,60,000	2,90,000
	16,52,410	21,48,938	14,74,599	12,86,056	16,21,322
Deduct— Uncompleted works, &c., for which grants had to be renewed in the following year	9,84,524	11,42,824	5,25,941	4,05,084	4,77,876
Net Balance available for requirements of the following year ...	6,67,886	10,06,114	9,48,658	8,80,972	11,43,446

IV.—Assessment and Collection of Revenue.

Registration of Properties.

21. The number of properties on the Assessment Book at close of 1889-90 was 50,425 against 49,884 in 1888-89, showing a net increase of 541. The details are contrasted in the following table :—

	Classification of properties according to description.					Classification of properties according to liability to pay General Tax.			
Years.	Buildings.	Salt pans.	Cocoanut plantation.	Vacant lands including tanks, &c.	Total.	Number assessed to General Tax.	Number exempt or compounded for on special terms.	Small plots of unproductive land for which no bills are issued.	Total.
1	2	3	4	5	6	7	8	9	10
1888-89..	32,639	199	1,278	15,773	49,884	36,833	5,331	7,720	49,884
1889-90..	33,106	199	1,278	15,847	50,425	37,365	5,318	7,742	50,425

In the year under report 354 buildings were demolished, while 821 new buildings were erected, and 373 existing buildings were enlarged. The remaining difference is due to the sub-division or re-adjustment of assessment numbers.

Valuation.

22. The gross recorded value of these properties for the year under report is shown in the following table in contrast with that of the preceding year :—

Closing valuation of 1888-89.	Opening valuation for 1889-90.	Valuation after complaint.		Subsequent amendments.		Closing valuation of 1889-90.				Increase.
		Number of complaints.	Amount after disposal of complaints.	Reductions.	Enhancements.	Valuation chargeable with General Tax.	Valuation exempt from General Tax.	Valuation for which no General Tax bills issued.	Total.	
1	2	3	4	5	6	7	8	9	10	11
Rs. 2,39,51,043	Rs. 2,68,90,888	1,986	Rs. 2,67,33,861	Rs. 2,72,575	Rs. 9,03,073	Rs. 2,19,43,611	Rs. *54,02,381	Rs. 18,367	Rs. 2,73,64,359	Rs. 34,13,316

The increase in column 11 is thus accounted for :—

		Rs.
1.	Rise in rents and correction of under-assessments, including Rs. 19,83,427 on account of Government properties not previously valued	26,30,585
2.	Erection of new buildings	5,65,360
3.	Enlargements	2,17,371
	Rs....	34,13,316

Property Taxes.

23. The following comparative tables show the increase in Property Taxes :—

GENERAL TAX.

1888-89.			1889-90.			Increase.		
8 per cent. on value.	Compounded sum payable by Government and Port Trustees.	Total.	8½ per cent. on value.	Compounded sum payable by Government and Port Trustees.	Total.	Due to the extra ½ per cent.	Ordinary increase.	Total.
Rs. a. p. 13,09,305 7 8	Rs. a. p. 2,12,990 0 0	Rs. a. p. 15,22,795 7 8	Rs. a. p. 14,56,345 3 0	Rs. a. p. 2,23,177 0 0	Rs. a. p. 16,79,522 3 0	Rs. a. p. 95,854 5 10	Rs. a. p. 60,872 5 6	Rs. a. p. 1,56,726 11 4

* These figures include the Assessor's value of Government properties. The valuation which Mr. Stevens is now engaged in making, under section 144 of the new Act, has not yet been completed. When completed, it will take effect from the 1st April of the year under report, in supersession of the Assessor's value now on the books.

24. The value of the exemption from payment of General Tax in virtue of section 143 of the Act does not appear in the above table. It amounts to Rs. 4,13,282-2-9. The amount for 1888-89 was Rs. 2,01,174-4-10. The large increase this year is due to the fact that a number of Government properties were valued this year for the first time.

WATER TAX.

1888-89.				1889-90.				Increase.
On Value.	Compounded.	On Meter measurement.	Total.	On Value.	Compounded.	On Meter measurement.	Total.	
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
4,26,500 12 7	5,728 9 6	4,80,695 8 8	9,10,924 14 4	5,66,877 13 9	15,992 4 11	5,21,451 1 1	11,04,321 3 9	1,93,396 5 5

HALALKHOR TAX.

1888-89.			1889-90.			Increase.
On Value.	Special Service.	Total.	On Value.	Special Service.	Total.	
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
3,23,887 2 11	68,369 5 9	3,92,256 8 8	4,48,280 13 9	69,292 14 4	5,17,573 12 1	1,25,317 3 5

The total demand on account of Property Taxes for 1889-90 amounted to Rs. 33,01,417-2-10, as against Rs. 28,25,976-14-8 in 1888-89. To this sum must be added Rs. 95,081-0-11, demands on account of previous years brought to account for the first time in the year under report, making a total demand of Rs. 33,96,498-3-9.

Collection.

25. Of the above total demand, Rs. 2,979-4-5 were allowed as drawback under section 158 (2) of the Act, and Rs. 2,23,177, being the amounts payable by Government and the Port Trust, according to former arrangements now under revision under sections 144 and 145 of the new Act, are paid direct into the Commissioner's office. For the recovery of the remainder, *viz.*, Rs. 31,70,341-15-4, bills were issued by the Assessment Department as under :—

Years.	Bills to be issued.		Bills issued.		Bills remaining to be issued.	
	No.	Amount.	No.	Amount.	No.	Amount.
		Rs. a. p.		Rs. a. p.		Rs. a. p.
1883-84	2	1 0 0	2	1 0 0	..	....

1885-86	4	2 9 8	4	2 9 8	..	....
1886-87	8	5,858 7 8	8	5,858 7 8	..	....
1887-88	34	40,352 6 10	34	40,352 6 10	..	....
1888-89	167	48,789 8 9	167	48,789 8 9	..	....
Total....	219	95,081 0 11	219	95,081 0 11	..	....
1889-90	78,078	30,75,260 14 5	78,078	30,75,260 14 5	..	....
Total....	78,297	31,70,341 15 4	78,297	31,70,341 15 4	..	....

As at the end of the preceding years commencing from 1883-84, in which the scheme of re-organization first took effect, so at the end of the year under report no bills remained to be issued at the close of the year.

26. The outstanding balance, on account of Property Taxes at the end of 1888-89, as shown in the report for that year, was Rs. 1,70,097-7-1, which with the total demand for 1889-90 and former years, as ascertained in the year under report, less the amount of drawback, under section 158 (2) of the Act, *viz.*, Rs. 2,979-4-5, makes a total of Rs. 35,63,616-6-5 for collection, as against Rs. 29,59,313-1-5 in 1888-89.

27. The details of the amount for 1889-90, and the progress made in collecting it, are as follows :—

Taxes.	To be collected.			Collected.			Uncollected.	Deduct Irrecoverable Bills					Balance outstanding at the end of 1889-90.		
								On account of former years.				On account of 1889-90.			
	Opening Balance out-standing.	Total of Bills issued during 1889-90.	Amount payable by Government and Port Trust without Bills.	On account of former years.	On account of 1889-90.	Total.		Time-barred Bills.	Bills cancelled as erroneous.	Bills re-called and placed on the Irrecoverable Bills File.	Total.			On account of former years.	On account of 1889-90.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
General Tax..	1,17,747 8 6	15,38,716 10 2	2,23,177 0 0	1,06,266 3 5	16,59,137 4 2	18,79,841 2 8	72,14,257 11 1	....	89,825 15 2	....	89,825 15 2	..	89,825 15 2	7,016 1 6	1,17,415 10 5	1,24,431 11 11
Water Tax ..	41,182 2 0	11,13,290 6 7	....	38,512 4 9	9,92,110 15 6	10,28,632 4 3	1,26,840 3 4	....	5,378 3 10	....	5,378 3 10	..	5,378 3 10	8,200 11 3	1,12,201 4 3	1,20,401 15 6
Halalkhor Tax.....	11,167 12 7	5,13,324 15 7	....	8,351 12 10	4,67,097 10 3	4,75,449 7 1	54,053 5 1	....	1,669 3 9	....	1,669 3 9	..	1,669 3 9	1,907 15 6	50,476 1 10	52,384 1 4
Total	1,70,097 7 1	31,70,341 15 4	2,23,177 0 0	1,53,130 5 6	30,18,344 13 11	34,01,472 2 11	3,94,151 8 0	....	96,873 6 9	....	96,873 6 9	..	96,873 6 9	17,124 13 8	2,80,093 0 6	2,97,217 12 9

The above large balance at the end of the year under report was mainly due to the fact that the provisions of the new Act, regarding the Water and Halalkhor Taxes having taken effect in it for the first time; the liability was disputed in every case, and the result was heavy correspondence, which the department was scarcely able to go through. Out of the above balance of Rs. 2,97,277-12-9, Rs. 1,28,534-7-8 have since been collected up to the end of July 1890, leaving a balance to be collected of Rs. 1,68,743-5-1, which includes a sum of Rs. 10,187 due by the Port Trustees, who have paid Rs. 1,62,990 on account, pending the settlement of the question of the assessment of the Port Trust Properties.

Taxes on Vehicles and Animals.

28. The opening outstanding balance on account of this tax was Rs. 4,731-12-0. The demand for the year under report was Rs. 1,68,504-8-0, as against Rs. 1,79,478-12-0 in the preceding year, showing a decrease of Rs. 10,974-4-0, which is mainly due to reduced rates introduced for the first time in

the year under report by Schedule G of the new Act. The details of the decrease are as under:—

For 1888-89.		For 1889-90.		Increase.		Decrease.	
Number at the end of 1888-89.		Number at the end of 1889-90.					
4-wheeled Carriages.	3,109	4-wheeled Carriages.	3,275	4-wheeled Carriages.	166	4-wheeled Carriages.	
2-wheeled Carriages, Labour Carts and Hackeries.	875	2-wheeled Carriages.	856	2-wheeled Carriages.	...	2-wheeled Carriages.

Amount.	Rs. 1,79,478 12 0	Donkeys.	12	Donkeys.	12	Donkeys.	...
		Amount.	Rs. 1,68,504 8 0			4-wheeled Carriages.	19
						2-wheeled Carriages.	
						Vehicles drawn or impelled otherwise than by horses, &c.	...
						Horses.	
						Ponies.	
						Bullocks.	
						Donkeys.	
						Amount decreased.	Rs. 10,974 4 0

To the amount given above must be added Rs. 249 ascertained in the year under report to be due for previous years. The total number of bills issued during the year for the demand thus arrived at, *viz.*, Rs. 1,68,753-8-0 was 11,170, and the process of recovery was attended with the following results:—

To be Collected.			Collected.			Uncollected.	Deduct Irrecoverable Bills.						Balance outstanding at the end of 1889-90.		
							On account of former years.				On account of 1889-90.				
Opening Balance outstanding.	Total of Bills issued in 1889-90.	Total to be collected.	On account of former years.	On account of 1889-90.	Total.		Time-barred Bills.	Bills cancelled as erroneous.	Bills recalled and placed on the Irrecoverable File.	Total.		Total.	On account of former years.	On account of 1889-90.	Total.
Rs. a. p. 4,731 12 0	Rs. a. p. 1,68,753 8 0	Rs. a. p. 1,73,485 4 0	Rs. a. p. 2,829 3 10	Rs. a. p. 1,59,850 9 0	Rs. a. p. 1,62,679 12 10	Rs. a. p. 10,805 7 2	....	Rs. a. p. 372 14 0	Rs. a. p.	Rs. a. p. 372 14 0	....	Rs. a. p. 372 14 0	Rs. a. p. 1,778 10 2	Rs. a. p. 8,653 15 0	Rs. a. p. 10,432 9 2

Since the close of the year Rs. 4,719 have been collected up to the end of July 1890, leaving a balance to be collected of Rs. 5,713-9-2. The amount recovered on account of licensed public conveyances was Rs. 1,50,289-10-0, as against Rs. 1,21,633-2-0 for 1888-89. Rs. 3,934-2-0 were realized on account of license fees and Rs. 6,505-6-0 on account of fees for badges. Rs. 12,835-14-0 were realized from the tolls at Mahim and Sion Causeways.

Property Taxes and Taxes on Vehicles and Animals.

29. The following tables show the total assessment collections and outstanding balances under these heads for the year under report, as compared with those of the preceding six

I.—Total Assessments on account of Property Taxes and Taxes on Vehicles and Animals.

Year.	No. of properties.	Gross annual value at the end of the year, including value represented by Government and Port Trust payments.			ASSESSED DEMAND.												REMARKS.

Miscellaneous Revenue.

30. The receipts from notice and other process and inspection fees amounted, in the year under report, to Rs. 5,324-4-6 against Rs. 5,621-9-7 for 1888-89. Rs. 4,738-8-0 were collected on account of the hire of water meters against Rs. 5,902-9-5 in the preceding year.

Refunds.

31. The total of refunds allowed on account of vacancies and over-collections under all heads amounts to Rs. 7,296-9-9, the details of which are as follows:—

Rates, &c.	For 1881.	For 1882.	For 1883 1st quarter.	For 1883-84.	For 1884-85.	For 1885-86.	For 1886-87.	For 1887-88.	For 1888-89.	For 1889-90.	Total.

Town Duties.

33. THE following table shows that the total collections for the year amounted to Rs. 12,61,316-12-11, as against Rs. 15,60,916-11-6 in the previous year—a decrease of Rs. 2,99,599-14-7. This decrease is mostly due to the abolition of the duty on petroleum and smaller importations of grain.

The net revenue derived from the duties during the year was Rs. 6,86,435-6-11, as against Rs. 6,83,356-9-6 in the previous year—an increase of Rs. 3,078-13-5.

STATEMENT contrasting the Collections, Refunds and Net Revenue from Town Duties for the years 1888-89 and 1889-90.

(a) In this year, 1888-89, refund had to be granted also at the higher rates paid on imports which occurred in 1887-88.

V.—Public Works.

34. The Executive Engineer's report gives details of works completed, works in progress and works to be undertaken.

DRAINAGE.

The unsatisfactory condition of the pumping engines at the Love Grove Pumping station, referred to in the last annual report, continued, and at last a complete break-down was threatened. The engines had to be taken down and put in proper working order. Auxiliary engines had to be procured. The cost of these arrangements was heavy ; but the case was one of great urgency.

The improved arrangements had a most marked effect in keeping down the depth of sewage. The sewers can now be flushed and cleansed with much less difficulty and much greater efficiency than formerly.

A reference is made in the introductory remarks to the circumstances that led Government to appoint a committee to report on the sewerage and general insanitary condition of the Marine Lines. Reference is also made to Mr. Baldwin Latham's visit to Bombay to report on the whole question of sewerage.

Plans and estimates for the sewerage of Parel, Mazagon, Umerkhadi, and Colaba were prepared, but these works, though of great importance and urgency, cannot be undertaken until the preliminary question of an outfall is settled.

WATER WORKS.

35. Satisfactory progress has been made in several divisions of the Tansa Work during the year. The outturn of masonry work was 3,103,689 c. ft., nearly 50 per cent. in excess of the previous year. The excavation, for the foundations were not completed at the close of the year ; but it is believed that the most serious difficulties have been overcome.

Tansa.

At the commencement of the year works, to the value of Rs. 16,40,000, had been executed, and at the end of the year the value of work done was Rs. 32,60,000. The total length of tunnelling executed to the end of the year was 13,070 l. ft. The whole of the land for the Lake, and the greater part of that for the Duct, has been acquired.

The rainfall of the year at the dam site was 97·37 inches. The average of the previous four years was 103·33 inches.

There was no serious out-break of cholera, but there was a good deal of malarious fever. The Municipal staff, the contractor's staff, and the work people suffered a good deal from it. The influenza epidemic appeared on the works, and while it lasted very appreciably diminished the numbers of hands.

Vehar.

36. The rainfall for the year at Vehar was 85·24 inches, 4 per cent. above the average. The increase in quantity stored on the 31st October over that of the 31st May was 3,186 millions of gallons. This, however, was less by 470 millions than the quantity stored at the corresponding date of the previous year. The water-level on the 31st October 1889 was 1·75 feet lower than it was on the 31st October 1888. The gradual fall of the water-level of the Vehar Lake and a consideration of the serious consequences that might follow, led to the adoption of the Pawai scheme referred to in the introductory remarks, and fully explained in the report.

Pawai.

37. The works consist of two masonry dams, one across the Pawai nullah, and one across the Goper river, about one mile below the Vehar Lake. Arrangements are made to pump eight millions of gallons in the twenty-four hours through the Vehar mains. The works were well advanced at the close of the year.

Tulsi.

38. The rainfall at Tulsi for the year was 92·92 inches, being about the average quantity. The supply to the City was restricted to four fifths of the usual supply from the close of the monsoon until the close of the official year. The catch water-channel on the western side of the Lake was available in the rains of 1889. The completion of the concrete trench on each side of the waste weir has stopped the leakage through the wings.

Bhundarwada Reservoir.

39. Provision was made in the budget for the cost of works to reduce the leakage from the Bhundarwada reservoir ; but the works were not undertaken during the year.

40. The work of improving the floor of the settling basin of the Malabar Hill reservoir was commenced during the year, and a portion of the walls was protected by the injection of Portland cement under pressure. The result was satisfactory.

Malabar Hill.

41. The total number of new water-connections made during the year was 978. There were 178 disconnections—net increase 800. The total number of connections is now 16,898. The increase demand on account of these new connections is about $\frac{3}{4}$ million gallons per day, or about 1,000 gallons for each connection.

Dipping wells in the City are being gradually superseded by taps and fountains.

Dials are being substituted for clocks and drums. It is anticipated that this change will secure economy without loss of efficiency.

There were a few bursts in the mains, but no serious inconvenience was caused in the supply of water to the City.

BUILDINGS.

42. 1,378 applications to build or re-build houses were received, 1,291 were passed. 5,492 notices regarding building matters were served on house-owners. 454 summonses were issued for various offences ; in 358 of these cases the parties complied with the requirements of the notices before service, or return of the summonses, in the remaining 96 cases convictions were obtained.

50 buildings, or part of buildings, fell. Of these, 6 were of a serious nature, resulting in the death of 4 persons, and injury to 12 others. Particular attention has been recently directed to this subject, and draft Building By-laws have been submitted to the Corporation.

43. For the summary removal of ruinous houses, huts and objectionable constructions, 2,232 orders were issued; of these the owners themselves removed 1,193.

The amount spent on acquiring ground for street improvement was Rs 73,369.

44. Municipal buildings and works completed or under construction during the year :—

Completed.	*Under construction.*
Chinchpoogly Fire Brigade Station.	Extension of Mahalaxmi Dhobiwada.
Extension of Erskine Road Markets.	Cross Road at Mahalaxmi Station from Clerk Road to Haines Road.
Additional Story over the porch of Bandora Slaughter House.	Retaining wall extension work at Walkeshwar Road.
Metalling the yard of the Health Department Stables, B Ward.	

Amongst works sanctioned but not commenced at the close of the year are Engineer's chowkey, Assessment office at B Ward, H. D. stable and stables for F and G Wards.

ROADS.

45. Four steam-rollers have been purchased, and considerable additions have been made to the stock of water-tanks and watering carts. 110,000 sq. ft., of foot-paths were paved with blue stone.

46. Negotiations for the purchase of properties on the proposed new road through Nowrojee Hill were not successful. The ground and properties standing thereon will have to be acquired under the Land Acquisition Act.

47. A loan has been raised for the construction of new roads and streets in the Agripada districts and elsewhere. It is futile to expect that the City can be properly provided with means of intercommunication in the existing state of the law, without a very large increase of expenditure.

LIGHTING.

48. The illuminating power of gas was up to the contract standard ; but falls short of the standard of modern requirements. The contract entered into with the Bombay Gas Company in August 1875 expired on the 30th June 1890. A fresh contract has been entered into for a period of three years, under the terms of which the illuminating power will be increased from 12 to 14 candles.

NEW MUNICIPAL OFFICES.

49. The new Municipal Offices building work, under the supervision of the Architect, Mr. F. W. Stevens, C.E., C.I.E., is making satisfactory progress.

OVERBRIDGES.

50. The proposal to construct an overbridge at Falkland Road has finally been sanctioned. Plans and estimates are being prepared by the Railway Company.

Government appointed a Committee to consider and report on the question of overbridges immediately and prospectively required. The following were recommened by the Committee, and approved of by Government. Estimates of the cost of their construction are being prepared.

1. At the Marine Lines, B. B. & C. I. Railway.
2. At Arthur Road and Clerk Road, G. I. P. Railway.
3. At Carroll Road, B. B. & C. I. Railway.

Also foot overbridges :—

1. Near the Hindu Burning Ghat.
2. North of the Marine Lines Station.
3. South of Charni Road Level-crossing.

The overbridges prospectively required are :—

1. Dadur Station.
2. Frere Road.

FIRE BRIGADE.

51. The Fire Brigade was transferred to the Municipality. This is the first annual report under the new arrangement. The Brigade has been reorganised and the staff increased. The proposal to engage a competent officer of the London Fire Brigade as Chief Officer of the Bombay Fire Brigade was approved, and measures have been taken to carry it out, with the assistance of Captain Eyre Shaw of the London Fire Brigade, which has been cordially rendered. Much yet remains to be done to put the Bombay Brigade on a proper footing, and the provision of fire stations is essentially necessary. I have separately reported on the whole subject.

At the close of the year there were seven steam fire engines and seven manual engines. (See Introductory Remarks.)

There were 88 fires during the year as against 86 in the previous year, but the amount of property destroyed in the year was three times as much as that of the previous year. The following list of the most serious of the fires that occurred shows the amount of property destroyed at these eight fires:—

Date.	Locality.	Nature of property destroyed.	Estimated loss of property.
			Rs.
6 June 1889	Don Tar Street, Chakla	House	57,950
21 September 1889	Dabboo Street	Chawl	9,000
25 Do. 1889	Tardeo	Cotton and building	1,20,000
11 November 1889	Apollo Street	House and general goods	16,84,100
31 January 1890	New Kazi Mohlla	Chawl and stable	25,000
12 February 1890	Nagdevi Street	15 buildings	2,82,600
22 Do. 1890	Kazi Syed Street	House and bags of sugar	41,000
18 March 1890	Argyll Road	Bales of wool and cotton	14,000

The following is a statement of the number of fires which took place, and the approximate amount of damage done in each of the last five years:—

Year.	Number of fires.	Value of property destroyed.
		Rs.
1885-86	57	6,47,506
1886-87	76	45,870
1887-88	70	10,46,931
1888-89	86	7,65,766
1889-90	88	22,62,121

PUBLIC GARDENS.

52. The public gardens have been well maintained during the year; special attention was given to the Victoria Gardens. The Superintendent in his report says the year has been an eventful one in the history of these gardens. Extensive alterations have been made, improvements effected, and in some places a complete transformation is being wrought. There are new ornamental houses, or cages, for wild animals, a deer-park, aviaries, either constructed or under construction, rendering the gardens much more attractive than they have ever been before. Attention has also been given to improvements in the botanical divisions of the gardens. Mr. Carstensen deserves credit for his taste, skill and keen interest he takes in the work entrusted to him.

The levy of fees for admission to the gardens on certain days of the week had been in force, at the close of the official year, for three months only. When the levy of fees began there was, as might be expected a falling off in the number of visitors, on the other hand there was a large increase in the number of visitors in the month of March, owing to the visit of H. R. H. Prince Albert Victor, and to the horse, cattle, fruit, flower and vegetable shows. These three months could not therefore be taken as a basis for calculating the number of visitors in ordinary months. The Corporation have determined to levy the existing fees for a whole year, after which the matter will again be considered.

THE VICTORIA AND ALBERT MUSEUM.

53. Considerable additions were made during the year to several of the divisions of the museum, particularly in the Natural History and in the Art-ware departments, details of which are given in the report.

The museum was open to the public for 313 days. The total number of visitors was 563,908—an average of 1,801 daily. The total for the previous year was 586,228—a daily average of 1873.

VI.—Public Health.

54. The Health Officer's report is for the calendar (not the official) year from 1st January to 31st December 1889. The report is a valuable one. The total number of deaths from all causes during the year is 23,378, being 957 in excess of the previous year ; the death-rate was 25·16 per 1,000. The increased mortality is due to a continual flow of indigent and vagrant persons into the city from surrounding districts and distant provinces. The mortality amongst persons born in Bombay was 26 less than in 1888, and amongst persons not born in Bombay, 983 in excess of that year.

In attacks of cholera also a large proportion is amongst strangers. Of 603 persons attacked with cholera during the year, 509 were strangers, of whom 223 were under six months in Bombay and 152 under three months. These strangers, who are mostly of the labouring classes, include vagrants, lepers, diseased and sickly persons, who, from depraved habits, exposure and privation, readily succumb to any disease with which they may be attacked. It may perhaps hereafter be found necessary to guard the approaches to the city, so that persons found to be suffering from a dangerous or infectious disease, or leprosy, may be intercepted and taken to a dhurmsalla, or to a leper asylum for treatment, or disposal. Sickly vagrants and lepers would then probably find Bombay less attractive than it is now.

55. The number and causes of deaths in the city during the last five years are shown in the following return :—

RETURN showing the number of Deaths and the Death-rate per 1,000 of population from different causes during the last five years.

YEAR.	Total number of deaths.	Per 1,000 of population.	Cholera.	Per 1,000 of population.	Small-pox.	Per 1,000 of population.	Measles.	Per 1,000 of population.	Fevers.	Per 1,000 of population.	Phthisis.	Per 1,000 of population.	Nervous system.	Per 1,000 of population.	Respiratory system.	Per 1,000 of population.	Diarrhœa.	Per 1,000 of population.	Dysentery.	Per 1,000 of population.	Accidents.	Per 1,000 of population.	Other causes.	Per 1,000 of population.
1885	21,860	25·88	598	·71	55	·06	423	·51	6,645	7·87	2,905	3·44	2,242	2·65	3,787	4·49	937	1·11	608	·72	330	·39	3,317	3·93

Average of 5 years ..	21,647	24·65	345	·39	194	·21	480	·55	6,398	7·28	2,762	3·15	2,059	2·35	3,907	4·45	1,029	1·17	599	·68	369	·42	3,504	4·00

56. The Health Officer draws attention to the fact that the use of well-water is becoming more common of late, owing, he thinks, to increase of population and the comparatively diminished sufficiency of the Vehar and Tulsi water-supply. He also shows how this bears on the question of mortality from cholera. Attacks of cholera are more fatal amongst the well-water drinkers than amongst the users of Vehar and Tulsi waters.

57. The number of deaths from small-pox was 304, being 178 less than in 1888. There were no deaths from small-pox in any part of Colaba, or in the southern division of the Fort, or in Sewree section.

58. The deaths from fever were 7,266, being 624 more than in 1888; the mortality was greatest in the first five months of the year. The highest mortality was in Parel, Sewree, Mahaluksmi, Byculla and Kamatipura.

59. There were 608 deaths from measles, being 417 more than in 1888. The greatest mortality was in March, April and May.

60. The number of births (exclusive of still-born) were 15,493 or 1,267 less than in 1888. The number of deaths (23,378) are out of proportion to the number of births, showing that the arrangements made for the registration of births are still defective.

61. The following table shows the number of persons vaccinated compared with the two preceding years, the number of persons under one year primarily vaccinated and the number of persons re-vaccinated :—

Year.	No. of persons primarily vaccinated.	Primarily vaccinated under one year.		Re-vaccinated.
		No. of persons.	Successful vaccination.	
1887	17,063	13,866	16,571	833
1888	18,144	14,815	16,875	3,499
1889	20,337	15,355	18,841	4,498

62. The Health Officer invites attention to the fact of houses being re-built on their old foundations without sufficient space being left around them for lighting and ventilation ; some rooms of the houses not being open to the external air. The sanitary defects of the old buildings being reproduced in the new ones.

63. The Health Officer draws attention to the serious nuisance from the reservoir on the Flats. It is described as being, at certain seasons of the year, a pond of sewage nearly as foul as the sewage of the open main drain, and smelling most offensively. The smell has been perceived at times as far off as the Fort ; nothing but the completion of the sewerage and drainage of the city can altogether cure this.

64. The Health Officer is of opinion that the nuisances, so common on the public streets, will not be prevented until the Chief Officers or the Standing Committee of the Municipality have power to punish offenders by inflicting small fines. I am afraid the suggestion is an impracticable one.

65. The enormous quantities of garbage, filth and night-soil removed from the city are noticeable. 4,011 men and women, 704 scavengering and drain carts, and 155 night-soil and cesspool carts are employed daily in collecting and removing filth, carts making from two to five trips a day. 3,04,662 tons of garbage, &c., collected in the year, as against 3,00,249 in 1888, 1,28,986 tons of night-soil (353 tons a day) as against 1,27,287 in 1888.

66. The Health Officer renews his appeal for the speedy adoption of some system of drainage for the outlying districts. New towns are springing up ; houses being built in every direction ; no drainage provided ; houses standing in pools of foul sewage.

MARKETS.

67. The total revenue from the Markets and Slaughter Houses for the year was Rs. 3,29,170-3-9 against Rs. 3,22,517-6-8 of the previous year, a net increase of Rs. 6,652-13-1.

68. The supply of fruit and vegetables during the year was plentiful and good, and prices were moderate. Apples were imported from Tunis, Verona and Cashmere.

69. The supply of mutton was of fairly good quality and quantity. The supply of beef was poor in quality and there was no great demand for it.

70. The following is a comparative statement of the consumption of meat for the past three years:—

Animals slaughtered at the Municipal Slaughter Houses at Bandora for Public and Commissariat consumption (exclusive of the local supply to Bandora).

	1887-88.	1888-89.	1889-90.
Horned cattle	27,491	29,959	33,785
Sheep and goats	457,126	465,807	507,892
Pigs	846	939	1,043

Animals taken from the Municipal Slaughter Houses for private slaughter.

	1887-88.	1888-89.	1889-90.
Horned cattle	1,253	932	1,111
Sheep and goats	45,754	51,358	45,217

71. Over 18 tons of food (chiefly beef and mutton), unfit for consumption, were destroyed during the year.

72. There were 58 convictions for Market offences against 23 in the previous year, that is an increase of 35, and the amount of fines is Rs. 442 against Rs. 269 in the previous year.

73. The duty of verifying weights and measures formerly conducted in the office of the Commissioner of Police is now conducted by the Superintendent of Markets, at the A. C. Markets office.

STREET ACCIDENTS.

74. The number of street accidents in each of the past five years is shown in the following table :—

Year.	Number injured.	Number killed.	Total.
1885-86	409	23	432
1886-87	366	28	394
1887-88	364	31	395
1888-89	466	24	466
1889-90	391	30	421

The number of accidents was less than in the previous year, but the number killed was greater. The number of accidents in the Prince's and Victoria Docks was 10, as against 17 of the previous year.

There is room for improvement in the regulation of street traffic, and in regard of careless and rash driving. The humbler class of native pedestrians show a remarkable preference for walking in the central roadway, where danger exists, rather than on the paved footpath, where there is no danger.

VII.—Education.

75. THE Corporation at their meeting, held on the 28th November 1889, authorised the Joint Schools' Committee (with the sanction of Government) to take over the existing Primary Schools in Bombay, together with their furniture, all appurtenances, and current budget, and also the balance of the Presidency Fund. The Corporation further agreed to accept the possible liability for any future deficit in the Presidency Local Fund Pension Fund as a charge upon the balance taken over, on the distinct understanding that such liability be limited to the amount of the balance. The transfer to the Municipality of the Primary Schools have been effected from the 1st February 1890. The number of schools transferred being 27 Guzerati and 28 Maharathi, making a total of 55 schools in all.

76. During the year, an application was made to the Corporation by the Joint Schools' Committee for a supplementary

grant towards Primary Education. The request for the extra grant was not sanctioned at the expiry of the year, (sanction has since been given). The grant for Primary Education for the year 1890-91 was—

	Rs.
Budget grant.....	31,374

77. It will be interesting to know the various grants sanctioned by the Corporation for the past several years towards Primary Education, as compared with the grant sanctioned for the ensuing year. I therefore tabulate below the amounts sanctioned for the several years mentioned, *viz* :—

PRIMARY EDUCATION.

Contribution paid by the Municipality.

		Rs.
1872...	... ...	8,500
1874...	... ...	10,000
1878...	... ...	15,000
1879...	... ...	17,000
1880...	... ...	17,500
1882...	... ...	*22,500
1886-87	... ...	† ‡31,374
1890-91	... ... Rs. 31,374	
Supplementary grant sanctioned by the Corporation, as per their Resolution No. 1477, dated 22nd May 1890 ...	Rs. 8,126	
		§39,500

* Increased by Rs. 5,000 as a special contribution towards Mahummedan Schools started by the Anjuman-i-Islam.

† Increase for Primary Education, Rs. 8,874.

‡ Exclusive of Rs. 4,823-9-8 for School Fund Committee Establishment, &c.

§ Exclusive of Rs. 5,880-0-0 for School Fund Committee Establishment, &c.

78. The following contributions were sanctioned by the Corporation towards other Educational Institutions during 1889-90, *viz.* :—

	Rs.
Medical Female Scholarships	1,000
School for Deaf and Dumb Mutes	1,800
Veterinary College.....	2,500
Technical College	10,000

79. The following statements show the receipts and expenditure on Primary Schools, towards the support of which the Municipality contributes :—

Receipts.

H. A. ACWORTH,
Municipal Commissioner
for the City of Bombay.

FINANCIAL.

REPORT OF MR. SORABJI NAVAROJI COOPER, Chief Accountant, as forwarded with his letter No. 1446, dated *18th August* 1890.

THE following Statement A shows that the revenue yielded under certain heads Rs. 3,72,916-10-6 more than the estimate, excluding the nominal profit of Rs. 1,00,943-14-3 on general and water works stores, whereas under others it fell short of our expectations by Rs. 51,890-14-0. The net gain in revenue was thus Rs. 3,21,025-12-6. An excess revenue of Rs. 2,25,000 only having been anticipated to be realized in 1889-90 while framing the Budget of the current year, that sum has been appropriated in the opening balance for 1890-91, leaving a sum of Rs. 96,025-12-6 still available for further appropriations.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

A.

STATEMENT showing the Net Receipts during the Financial year 1889-90 *from all Sources contrasted with the Budget Estimate.*

Grand Total...Rs.	49,66,192 6 10	49,20,200 0 0	53,42,169 10 9	4,21,969 10 9	.....

	Rs.	a.	p.
General Tax	46,696	8	8
Halalkhor Tax	80,919	1	3
	1,27,615	9	11
Water Tax and other Miscellaneous Water Works Revenue.....	1,22,748	8	4
Rs.	2,50,364	2	3

The yield under Property Taxes was over 2½ lakhs more than the Budget estimate, chiefly on account of Halalkhore and Water Taxes being levied under sections 141 and 142 of the Act on all properties throughout the city, irrespective of actual service.

Of the increase under General Tax, Rs. 40,000 were due to the disputed bills due for 1888-89 by the G. I. P. Railway Co. having been paid in July 1889, as already explained at page 42 of my last report. The balance of Rs. 6,696-8-8, as also a larger outstanding of Rs. 3,000 at the close of the past year than that of the preceding year, represent the true increase from valuations on account of improvements, new buildings, mills, &c.

Besides the large increases under Halalkhore and Water Taxes actually realized for the reasons mentioned above, Rs. 40,000 and Rs. 80,000, respectively, have remained uncollected in excess of the outstandings of the preceding year, owing to disputes regarding the levy of these rates in respect of buildings not supplied with the respective services.

The falling off of Rs. 17,420-5-2 under Wheel Tax and of Rs. 864-2-0 on Toll fees was entirely on public conveyances. The former realized about Rs. 20,000 less than the estimate, owing partly to the reduction made in the past year on the tax on labour carts and shigrams and victorias from Rs. 20 and 68 to Rs. 15 and 60 respectively, and partly to the tax having been collected on about 500 carts less than in the preceding year. This loss was, however, reduced to Rs. 17,420-5-2 quoted above by an increase in the yield from private conveyances, &c., notwithstanding the reduction in the rates of the tax, as per Schedule G of the Act.

The increase of Rs. 1,824-13-8 under Land Conveyance Licenses was simply due to the Police Commissioner having paid the net collections for 1888-89, amounting to Rs. 4,577-3-8 during the past year. Thus the revenue for the past year was really less than the estimate by nearly Rs. 3,000. This result was, I presume, partly due to Licenses having been issued for about 500 labour carts less than in the preceding year. I believe cartmen are plying for hire in the city without licenses, and as this practice involves a loss to the Municipality from this source of revenue, as also under Wheel Tax, I think it would be well if steps were taken to prosecute them, as required by the provisions of the Public Land Conveyance Act.

The decrease of Rs. 2,934-9-4 under Town Duties has been explained in detail at page 68 of this report.

Tobacco Duty and Licenses produced Rs. 7,922-1-1 more than our anticipation, owing to an under-estimate of the revenue; the actuals were equal to those of the preceding year.

Market receipts fell short of the estimate by Rs. 8,775-0-7, owing to the Bandora Fair ground and feeding fees having realized at the usual auction Rs. 3,700 less, and to the cost of feed of the animals brought for slaughter being enhanced by higher contract rates.

Pension Contributions recovered from Municipal employés and the rent for Tram lines received from the Tramway Company were Rs. 1,534-4-2 and Rs. 192-3-10 in excess of the respective Budget estimates.

The decrease of Rs. 1,929-0-7 under Miscellaneous Fines was entirely due to almost no fines having been inflicted on the Health Department labourers and halalkhores in July, August and September last, and very light ones having been enforced for the subsequent period, as a palliating measure after the strike of the scavengers.

The realizations of Miscellaneous Fees were Rs. 16,915-10-10 below the estimates under the following chief heads :—

Through the Health Officer (Licences for carrying on dangerous and offensive trades)	Rs.	3,000
Through Engineer (Fees for projecting Galleries, Rewas, Weather-frames and Scaffoldings)	„	11,000
Through Police Commissioner (Fees for Music, Blasting, &c., Licenses)	„	1,800
Through Assessor and Collector (Notice and Buttakee Fees).....	„	1,115
	Rs.	16,915

Miscellaneous savings were Rs. 1,374-6-6 less than the estimate, owing to the transfer of Rs. 3,897-0-11 (the amount of unclaimed salaries of Establishments for the past three years and unpaid wages of halalkhores and biggaries for the past year not barred by the statute of limitation) to Deposit Account, under which head the sum has to be shown in the accounts to be submitted to Government; otherwise there would have been an increase of Rs. 2,522-10-5 under this head.

Rs. 4,000 of the excess revenue of Rs. 8,133-2-1 from Miscellaneous Receipts were gained by the sale of land at Hornby Row, Fergusson, Churney and Haines Roads, and the balance was obtained on account of rent of telephone lines and vacant land, hire of rollers, carts, &c., and by the sale of various rights, such as cutting grass, drawing toddy, catching fish, &c.

The Victoria Gardens receipts for sale of plants, flowers, fruits, &c., were Rs. 1,677-11-0 less than the estimated yield of Rs. 8,000, which, the Superintendent explains, was partly due to a very large number of plants and the full attention of the staff being utilized for altering and improving the gardens, and partly, as referred to in my last report, to the want of printed catalogues and the non-compliance of up-country orders unaccompanied by remittances.

Rs. 1,17,290-7-2 were realized against the Budget estimate of Rs. 26,000 on account of interest on our Invested Loan and Surplus Cash deposits as detailed below. The excess realizations of Rs. 91,290-7-2 were principally due to advances being made from current cash balances to meet expenditure on Loan Works, which would otherwise have necessitated either the sale of Invested Loan Funds or the early withdrawal of the respective loan deposits bearing interest :—

	Budget Estimate.	Actual.	Net Excess.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
10 Lakhs and 8,500 Miscellaneous Works Loan.....	....	2,421 11 4	
44 „ Sanitary Works Loan	....	66,054 4 11	
7 „ „ „	4,000 0 0	3,488 11 10	
12 „ Drainage and Water Works Loan	12,000 0 0	5,876 8 2	
Surplus Cash Deposit	10,000 0 0	38,986 8 6	
6 per cent. Loans unclaimed balance	....	462 10 5	
	26,000 0 0	1,17,290 7 2	91,290 7 2

The sums of Rs. 25,083-10-7 (Budget estimate Rs. 24,000) and Rs. 5,800-13-1 received on account of interest on the Building and Sinking Fund investments have been, with the exception of Rs. 625, added to the respective funds, as will be seen from Expenditure Statement C, page 54.

Owing to an uniform rate of 25 per cent having been added to the actual charges of labour and stores for all works executed in the Municipal workshops, there remained a net profit of Rs. 4,771-0-7 after meeting from such percentage the cost of shop and supervision establishments and repairs to tools, machinery, &c., as explained at page 82 of this report.

By the adjustment of surplus stores in hand, and taking as surplus stores, live-stock, &c., purchased and charged to Budget or Loan grants after allowing for loss by sale, death, &c., we derived a net profit of Rs. 44,507-1-10 on the Water Works Stock, and Rs. 56,436-12-5 on other stock accounts, or in all Rs. 1,00,943-14-3. This sum must as usual be treated as a book or nominal receipt.

From the following Statement B it will be observed that the Corporation originally sanctioned the Budget expenditure for the past year

at Rs. 52,43,156. The amount of supplementary grants allotted from time to time during the past year aggregated Rs. 5,76,665-3-1. This sum is composed of (1) Rs. 4,05,083-10-1 renewed during the past year by the Standing Committee under the provisions of section 132 of the Municipal Act to meet unpaid liabilities of the previous year, (2) Rs. 40,732-9-2, the amount of interest realized on Building and Sinking Fund, &c., invested funds in excess of Budget estimates to be added to the respective invested funds, and (3) Rs. 1,30,848-15-10 sanctioned by the Corporation, principally for remuneration to Mr. Baldwin Latham for advising and reporting on the drainage of Bombay, illuminated address and casket to be presented to H. R. H. Prince Albert Victor of Wales on his arrival and entertainment on the occasion of his return visit, final payment to the G. I. P. Railway Company for the construction of the Nesbit Road overbridge, Land Conveyance License Establishment, Joint Schools Committee Establishment, and to meet excesses on the pensions and other grants.

Under the provisions of section 131 of the Act, transfers amounting to Rs. 33,436-10-8 were sanctioned by the Standing Committee from savings in certain heads to meet excesses under others, which according to law did not in any way enhance the aggregate sum sanctioned by the Corporation for Municipal expenditure. Thus the total amended grant for the past year's expenditure amounted to Rs. 58,19,821-3-1.

B.

The preceding Statement C shows that against the aggregate sanctioned grant of Rs. 58,19,821-3-1 the actual disbursements of the past year amounted to Rs. 50,42,404-13-2, leaving an available balance of Rs. 7,77,416-5-11. Of this large sum, the actual savings on expenditure were only Rs. 2,99,540-4-6, as explained in detail below, the remaining sum, Rs. 4,77,876-1-5, being required during the current year to meet unpaid liablities of the year under report.

Owing to Dr. Blaney declining entirely, and Major Selby declining from a certain date, to receive any fees during the past year and to the full number of members not attending at all the meetings of the Standing Committee, there accrued a saving of Rs. 4,019-3-6 in the aggregate amount payable to the members of the Committee, which, with the unpaid balances of Rs. 2,659-1-7 and Rs. 28-4-10 of the Contingent and Establishment grants, gave a total saving of Rs. 6,706-9-11 under Corporation and Standing Committee Establishment. Rs. 350 will, however, have to be renewed during the current year to defray unpaid advertisement, printing and contingent charges for the past year.

Of the sum of Rs. 864-14-7 saved on the General and Personal Establishments and Contingencies of the Commissioner's Department, Rs. 456-7-6 will be required for payment of past year's bills for winding up Municipal clocks and contingencies.

In the Chief Accountant's Office Establishment and Contingent grants, there was a saving of Rs. 623-10-7. This sum includes Rs. 126-9-5, the amount of printing and workshop bills for work done in last year that remained unpaid, as the bills were received after the close of 1889-90.

Rs. 2,648-13-4 were saved, chiefly, on the Contingent and Office and Ward Establishment grants of the Assessor and Collector. Rs. 293-15-6 will, however, have to be renewed during the current year to meet unpaid Establishment and Contingent charges.

Only Rs. 62-8-9 will be required in the current year for payment of Town Duty Refund Office Contingent charges out of the total saving of Rs. 2,792-1-11 effected on Commission and contingencies, owing to the gross Town Duties Collection being below the estimated amount and on Town Duty Refund Establishment, chiefly in consequence of the personal allowance budgetted for the late Refund Officer, Mr. Nosherwanjee Coyajee, who retired on pension from 1st March 1889, not being required to be paid to his successor, Mr. Douglas Bennett.

The saving of Rs. 2,070-7-2 under Tobacco Duty Department was entirely due to the extra provision for an Inspector, 3 peons, and increase in the pay of peons already in employ, included in last year's Budget, not having been authorized by the Government of Bombay to be spent as proposed by the Collector of Customs, until the beginning of the current year.

The Health Department Licensing Establishment's cost was Rs. 573-4-1 less than the estimate. Rs. 199-10-0 were saved on contingencies of the Music License Department. The unexpended balance of the grant for Land Conveyance License Establishment amounted to Rs. 5,611-6-0, partly owing to the Establishment for March and April 1889, and bills for brass badges and tin plates for the whole year, amounting to Rs. 3,049-5-0, having been paid by the Police Commissioner out of the net collections of the previous year in his hand, and partly to the assignments for stationery and contingencies not having been fully spent. Out of the aggregate saving of Rs. 6,384-4-1 in the different Licensing Establishments referred to above, Rs. 218-8-0 will be required during the current year for stores and stationery supplied in 1889-90.

The provision of Rs. 2,500 for remuneration payable to Mr. Stevens for revising the assessment of buildings and lands vesting in Her Majesty will have to be renewed during the current year.

The saving of Rs. 1,498-4-5 under General Supervision was derived from Establishment, Contingent and Summons and Warrant fees grants.

Owing principally to the full strength of the Inspection staff and of labourers, halalkhores and carts not being entertained, and to the full budgetted salaries and wages not having been paid in several cases for the whole of the year, to the extra 5 per cent. of reserve bullocks, and about more than half of the earth grant of Rs. 25,000 for covering cutchra deposits not being required during the past year, and to contract rates for fodder being Rs. 23-15-5, instead of Rs. 25 per pair per month as estimated, we derived under the following sections of Conservancy Branch the large saving of Rs. 74,568-13-11, of which Rs. 7,936-6-11 will be required during the current year to meet unpaid liabilities on account of cartage, repairs and gas charges, &c. :—

					Rs.	a.	p.
I.	Superintendence				8,793	15	6
II.	Labour (including feed of bullocks)—						
	A. Scavengering	Rs.	14,570	8 6

					19,625	1	9
				Rs....	74,568	13	11

There were small savings aggregating Rs. 6,900-13-5 under registration of births and deaths, cemeteries, laboratory, vaccination, dhobi lines, conveyance of infected persons and disinfection, milch-cattle stables and tank conservancy. These do not call for any special explanation except that the saving under cemeteries was chiefly due to more than half of the grant for firewood not being spent, and that the sums required to be renewed for unpaid liabilities will be Rs. 2-2-3 for cemeteries and Rs. 91-12-11 for milch-cattle stables (Government ground-rent and repairs).

Thus out of the gross saving of Rs. 82,967-15-9 in the Public Health Department, Rs. 8,030-6-1 will have to be paid for liabilities not included in the past year's accounts.

Of the sum of Rs. 14,970-11-6 chiefly saved on meat carriage, repairs, water-supply and weights and measures grants, markets and slaughter houses, Rs. 3,900 and Rs. 4,793-13-9 (or Rs 8,693-13-9 in all) will have to be renewed during the current year for weights and measures sanctioned to be purchased and for markets, &c., repairs directed to be executed, but the bills for which were not paid before the close of the past year.

On the salaries of the Executive, Deputy and Assistant Engineers, Office, Survey and Outdoor Establishments and contingencies, there resulted a saving of Rs. 4,554-4-5. The saving on the former heads was due to Mr. Walton's absence on furlough up to 2nd January 1890 and to Surveyors, Inspectors, &c., proceeding on leave on lower allowances than the pay of their respective appointments.

A saving of Rs. 11,795-8-8 was effected under lighting, owing to the full number of 124 new lamps for Prince's and Victoria Docks, and other places not having been put up, and to the arrangement for lighting the Wellington Fountain not having been completed till the middle of the year, and to lower contract rates for kerosine oil lights.

There remained Rs, 25,495-3-9 unspent under road watering, of which Rs. 13,703-5-2 will have to be renewed during this year for the completion of water carts and tanks and for payment of unpaid carts and bullock pairs bills. The remaining sum was a real saving due to lower contract rates.

Of the large saving of Rs. 62,867-2-10 in road repairs, obtained under the sub-heads purchase of materials, cart hire and labour, paving footpaths, maintenance and purchase of steam rollers, tree-guards for roadside trees and repairs to bridges, culverts and road retaining walls, Rs. 47,923-6-7 will have to be renewed this year to meet unpaid pavement, cartage and other charges.

The available balances of Rs. 314-12-4 and Rs. 1,24,894-3-3 under repairs to Municipal buildings and improvement of streets will have to be renewed during 1890-91. The latter balance is required to

meet the cost of Bhuleshwar and 2nd Bhoiwada Road improvements referred to at page 58 (para. 4) of my last Annual Report, and the completion of other large important improvements already commenced.

Under miscellaneous drainage, Rs. 6,348-13-0 remained unexpended, owing chiefly to the full strength of Establishment not having been employed during the whole of the past year, and to Rs. 3,877-10-0 of the renewed lapsed balance of Rs. 7,080-13-7 for cleaning, repairing and altering miscellaneous drains for 1888-89 not having been spent during the past year. A sum of Rs. 2,707-4-0 will again have to be renewed during the current year for the completion of works sanctioned to be executed out of the grant for 1888-89. The grant of Rs. 15,000 for 1889-90 was fully expended, and an excess of Rs.12,384 has been incurred, as stated in the Engineer's letter No. 688, dated 18th April 1890, in which he requested you to obtain Standing Committee's sanction to a transfer. On my representations you have already referred the question of this, as well as the excesses on the Love Grove Pumping Station described in succeeding paragraphs, for the Engineer's explanation.

There was an unexpended balance of Rs. 6,949-6-8 under Love Grove Pumping Station, of which Rs. 4,264-1-10 will have to be renewed to meet unpaid liabilities on account of ordinary and special repairs to machinery and for the supplemental machinery temporarily required for the Love Grove Pumping Station. The balance was saved chiefly on Establishment, owing to the Engineer and the Assistant Engineer not being paid the budgetted salaries. I must, however, mention here that very large excesses under different sub-heads have been incurred by the Engineer's Department. The Executive Engineer in his No. 529, dated 16th April 1890, brought to your notice that an excess of Rs.3,200 was incurred on the Contingencies and Stores grant, Love Grove Pumping Station, and requested you to obtain the Standing Committee's sanction to a transfer to meet the same. I pointed out in my report on this application, as well as that for the excess of Rs. 12,384 referred to in the preceding paragraph, that transfers could not be obtained, as the applications were made after the close of the year, and that in consequence of an excess of about Rs. 20,000 having also been incurred on repairs to machinery without sanction, an additional grant of Rs. 35,500 would be required. You have already called upon the Executive Engineer to submit a full report on the causes of the above excesses. I had informed the Engineer, and reported to you that that officer had been incurring large excesses on the grant of Rs. 5,000 for the supplemental machinery which have now aggregated to upwards of Rs. 7,500. Thus the total excesses on Drainage amount to Rs. 43,000, most of which has been incurred prior to end of March 1890, and the required sanction of the Corporation has not yet been applied for, notwithstanding repeated requests of this office and reminders from yours. Owing to urgency, the Municipal Commissioner did authorize the

execution of special and other repairs to machinery at Love Grove and supplemental machinery, &c., so far back as 25th February 1890, subject of course to reporting the result and cost forthwith. No report has yet been submitted regarding the excesses of Rs. 27,500 already incurred on machinery, and what further sums will have to be spent to complete the work; but the Executive Engineer appears to have incurred the other excesses, amounting to Rs. 15,500 on miscellaneous Drainage and Love Grove stores, &c., without any authority, notwithstanding repeated protests of this Department, in contravention of the orders of successive Commissioners, the former Town Council and the Corporation. The former body, while sanctioning in November 1883 a transfer to meet excess in the grant for materials, repairs and contingencies, Love Grove, Worli and Dharavi, &c., sluices, resolved "The "Council request that the Acting Municipal Commissioner will issue "peremptory orders to heads of Departments to conform strictly with "the terms of the Resolutions passed by the Town Council, on the "11th December 1877, and by the Corporation on the 7th September "1883." This resolution was circulated to all Heads of Departments by the then Acting Municipal Commissioner. Under these circumstances I think the existing practice of applying for necessary sanctions long after incurring excesses, even after timely and repeated warnings, if not checked in time, is likely to involve the Municipality into serious financial difficulties.

The savings of Rs. 5,056-12-8 under maintenance of sluices are nominal, as the whole of the grant of Rs. 4,500 for the renewal of Worli sluice gates, which remained entirely unspent, will have to be disbursed during the current year.

Under cleaning, lighting and repairing Port Trust wharves, there remained a small saving of Rs. 720.

The saving of Rs. 5,104-14-8 on Victoria Gardens was entirely due to Rs. 4,562-4-9 of the new works and feeding grants remaining unspent, and which will have to be paid in the current year. The balance Rs. 542-9-11, which was the actual saving, will after renewal have to be carried to the credit of the Garden Fund.

The small savings effected principally on the stores and contingent grants of the other public gardens aggregated Rs. 2,194-12-5, of which Rs. 240-11-6 will have to be renewed for unpaid bills for sand and carts supplied to Elphinstone Circle Garden, and for stores supplied to the Falkland Road and Bazaar Gate Street Gardens.

Exclusive of Rs. 2,03,110-1-5 required to be renewed for unpaid liabilities of the past year, the aggregate savings of the Engineer's Department amounted to Rs. 53,185-13-3.

The respective savings on charges, and interest on loans were Rs. 6,161-5-7, and Rs. 94,237-15-4, the latter including Rs. 38,979-5-3 to be renewed on account of unpaid interest.

The following statement gives the actual savings accrued and their causes, the amount required to meet unpaid interest and principal in connection with the total Municipal Debt Grant, including Water Works Loans :—

	Rs.	a.	p.	Rs.	a.	p.
Savings on charges on loans, due to the grant being overestimated by Rs. 4,900, and to the full provision for Bank's commission not having been required in consequence of our not raising the full estimated amount				6,161	5	7
Savings on interest on Loans :—						
6 per cent. Local Loans due to interest not being claimed for the 1st half year of 1879 on 18 debentures of the value of Rs. 10,000	300	0	0			
5 per cent. Miscellaneous Works Loan owing to Government having sanctioned a loan of only Rs. 10,08,500 against Rs. 11,82,000 included in the Budget and to the raising of the former amount having been completed only on 1st July 1889 (Municipal Fund Rs. 34,958-10-1 + Water Works Rs. 562-8-0)	35,521	2	1			
5 per cent. House Sullage Water Connections, Agripada and Bhuleshwar Market extension (4 lakhs.) loan not having been raised, the Budget provision was not required)	20,000	0	0			
Short paid by the Bank to Tansa (Water Works) Bondholders	1	11	3			
(Municipal Fund, Rs. 55,258-10-1 + Water Works Rs. 564-3-3)				55,822	13	4
Savings on repayment of Capital :—						
Miscellaneous Works Loan Sinking Fund Instalment was smaller than the estimate owing the amount of the loan being reduced by Government from Rs. 11,82,000 to Rs. 10,08,500	1,500	0	0			
House Sullage Water Connections Agripada and Bhuleshwar Market extension Loan (the Sinking Fund Instalment on this 4 lakhs loan was not required as it was not raised)	4,000	0	0	5,500	0	0
				67,484	2	11
Unpaid interest (to be renewed) :—

	45,898	4	0			
Unpaid Capital (to be renewed) :—						
Amount of one Debenture of the Drainage Loan of 1878, payable on 1st January 1890, not claimed up to the end of the past year	500	0	0	46,398	4	0
				Rs...1,13,882	6	11

The Corporation's grant of Rs. 1,000 for medical female scholarships remained undrawn.

Victoria and Albert Museum expenditure was Rs. 1,526-6-10 less than the estimate, chiefly on account of the extra grant of Rs. 1,000 sanctioned by the Corporation remaining entirely unexpended. Rs. 430 will, however, have to be renewed for books, and an umbrella-rack ordered out during the past year.

The full grant of Rs. 6,150 on account of Joint Schools Committee establishment having been handed over to the Chairman, as per Standing Committee's Resolution No. 1023, dated 22nd May 1889, the unexpended balance of Rs. 1,326-6-4 was refunded before the close of the year. This result was due to the Secretary taking charge of his duties from 26th April 1889 and to establishment having been entertained and office room rented only from 6th June 1889.

Famine relief camp expenses were Rs. 66-12-0, less than the Budget provision.

The saving of Rs. 6,786-13-11, appearing under the Gokuldas Tejpal Hospital, was due to Government having refunded to the Municipality during the past year Rs. 7,318-4-11, being the unexpended balance of the Annual Municipal contribution towards the expenses of the hospital for 1888-89. The difference was expended on instruments and other medical necessaries for the comfort of the patients under the terms of the former Town Council's Resolution No. 1498A, dated 10th October 1879.

The provision of Rs. 3,108 for the cholera and small-pox hospital establishments was not required to be spent during the past year.

Of the available balance of Rs. 1,049-1-10 of the pensions, gratuities and compassionate allowances grant, Rs. 254-6-4 will have to be renewed during this year on account of unpaid claims.

The unexpended balance of the Commissioner's discretional allowance at the close of the year was Rs. 2,202-14-10, but it included Rs. 1,986-14-3 for sanctioned liabilities not paid for within the year.

The saving of Rs. 750 in the Auditors' allowance was due to their having been paid for the last quarter of 1888-89 in the beginning of the past year at the old rate of Rs. 5,000 per annum.

Rs. 1,56,194-11-2 remained available out of the new works grant on account of the following causes :—

		Rs.	a.	p.
1.	Amount required for completed and incomplete works...	61,753	4	9
2.	Do. do. for completion of works not commenced	92,662	11	2
		Rs. 1,54,415	15	11
3.	Savings on completed works or works not required.	„ 1,778	11	3
		Rs. 1,56,194	11	2

The unspent balances of the grants under the various sub-heads of the Fire Brigade Budget aggregated Rs. 27,511-0-9. The actual savings were only Rs. 5,373-4-6 accrued on establishment, repairs, &c.; the remainder (Rs. 22,137-12-3) will be required in the current year for unpaid buggy-hire, stores, rent, &c., charges and for cost of the completion of the Parel Fire Station and other works.

The very small savings under general police, election expenses, cost of address with case presented to H. R. H. Prince Albert Victor, and Nesbit Road Bridge amounted to Rs. 422-4-3. The balance of Rs. 35 of the address grant has after renewal been spent during the current year.

The whole unexpended balance of Rs. 7,500, reserved for illumination and decoration expenses out of the Corporation's contribution of Rs. 30,000 towards the cost of the entertainment on the return visit of H. R. H. Prince Albert Victor of Wales, has after renewal been spent during the current year.

Rs. 625, through a clerical error in a letter addressed to the Bank of Bombay on 31st March 1890, remained unadded to the Invested Building Fund; the necessary addition will have to be made in the current year by renewing the lapsed balance.

The following statement shows the actual saving and the sum required to be renewed for payment of liabilities incurred during the past year in connection with the Water Works Account:—

Maintenance—		Rs. a. p.	
Actual savings on establishment, labour and contingencies		10,801 1 4	
Actual savings on materials &c.		26,127 9 5	
		36,928 10 9

Miscellaneous	„	16,402 2 1
	Rs.	7,77,416 5 11

The marginal statement gives the principal heads under which the gross saving of Rs. 7,77,416-5-11 as detailed in statement C had accrued.

I have contrasted below the actuals with the estimates of the opening balance, income and expenditure of the past year :—

	Estimate.			Actuals.			Better than Estimate.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Opening Balance	4,50,000	0	0	11,26,056	2	3	6,76,056	2	3
Revenue	49,20,200	0	0	53,42,169	10	9	4,21,969	10	9
	53,70,200	0	0						
Expenditure { Original Estimate	52,43,156	0	0						
Expenditure { Subsequent as per Statement B	58,19,821	3	1	50,42,404	13	2	7,77,416	5	11
							18,75,442	2	11

The large opening balance included Rs. 4,05,083-10-1 of lapsed grants for 1888-89 renewed during the past year. The net surplus balance, *viz.* Rs. 2,70,972, as also Rs. 2,25,000 of the abovementioned excess revenue of nearly 4¼ lakhs were taken credit for in the current year's Budget.

The unexpended balances of the expenditure grants were considerably swollen as in previous years by sums aggregating Rs. 4,77,876-1-5 required during the current year to meet liabilities contracted in and the cost of completion of works &c., commenced or not taken in hand during the past official year.

I have shown in detail below how the above large surplus excluding adjustments &c., has been utilized, and what amount remains available for our future requirements after allowing for the sums already appropriated in the current year's Budget.

	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.

Commission on Private Works							3,183	11	5		
Government of Bombay on account of Income-tax							1,203	3	2		
Loan Works Establishment							34,140	15	4		
									2,83,562	8	2
									12,31,321	8	3
Less—already appropriated in the Budget for 1890-91									4,00,000	0	0
Net available Surplus.....Rs.									8,31,321	8	3

Reserving from the above surplus Rs. 4,77,876-1-5 required during the current year for unpaid liabilities and incomplete works, &c., as explained in detail before, we will have Rs. 3,53,445-6-10 available for future appropriations. Against this surplus Rs. 64,018-9-10 have already been sanctioned during the current year for extra grants required on account of Pawai Pumping Station, Census, Primary Education &c., leaving nearly 3 lakhs still unappropriated. This sum can very well be utilized for the Victoria Garden improvements and extensions, which are likely to cost about 2½ lakhs without having recourse to raise the sum by extra taxation or by a loan. The balance will be just sufficient to cover the excesses of upwards of half a lakh of rupees incurred under drainage as stated at page 59 of this report. I think this result will be considered highly satisfactory.

APPENDICES.

Nos. 1 A & B.—The former shows that only Rs. 1,000 and Rs. 3,500 of the 6 per cent. debentures, amounting in the aggregate to Rs. 17,38,000, are held in Bombay and London, respectively, and the latter gives the outstanding interest at the close of the past year in respect of the above bonds at Rs. 204-5-3. The unpaid interest on 31st March 1889 was Rs. 319-9-5.

Nos. 1 C & D.—From these statements it will be observed that the sum outstanding at the end of last year on account of the 5 per cent

loan of Rs. 26,94,000 of 1878, was Rs. 23,78,000, and that the interest due to the bond-holders on 31st March 1890, was Rs. 11,575 against Rs. 6,425 at the beginning of the year.

Nos. 1 E & F.—It will be seen from the former statement that debentures of Rs. 4½ lakhs of the 44 lakhs 5 per cent. Sanitary Works Loan were paid off, and Rs. 1,97,449-0-3 were invested on account of this loan in the General Sinking Fund ; and from the latter that the unpaid interest at the end of last year was Rs. 1,300 less than at the close of 1888-89.

Nos. 1 G & H show the respective amounts outstanding on account of interest on the 12 lakhs Drainage and Water Works and the 7 lakhs Sanitary Works Loans on 31st March 1890, as contrasted with that at the close of the previous year, and that the necessary sums have been invested as Sinking Fund to provide for the repayment of the loans at the end of the sanctioned period of 40 years.

No. 1 I.—This statement gives the details of interest paid by the Municipality and the Bank on the various instalments of the Tansa Loan raised up to the end of the year, showing that the outstanding interest at the end of last year, was Rs. 2,071-14-0 more than at the close of the preceding year.

No. 1 J shows that all the interest due on the different instalments of the Miscellaneous Works Loan of Rs. 10,08,500 raised between 1st November 1888 and 1st July 1889, was paid within the year.

No. 2.—This is the usual Town Duty statement, showing the gross collections and refunds of the duty levied on the different articles under the provisions of section 192 (1) of the Municipal Act.

I have shown in the following statement the contrast between the balances, revenue and refunds of the past year with those of the previous year :—

	1888-89. Rs.		1889-90. Rs.	
Opening Balance	48,636		5,325	
Revenue	15,60,917		12,61,317	
		16,09,553		12,66,642
Deduct—				
Refunds	8,78,331		5,85,701	
Closing Balance	5,525		13,876	
		8,83,656		5,99,577
Net Revenue		7,25,897		6,67,065
Less—Cost of Collections, &c.		58,197		48,338
Net Receipts after payment of Collection Charges	Rs.	6,67,700		6,18,727

In the Budget for the past year, a net revenue of Rs. 6,70,000 was anticipated, taking the gross receipts at Rs. 13,68,000, owing to the omission of petroleum from the list of taxable articles, and the refunds at Rs. 6,98,000, including Rs. 3,000 on flour and Rs. 48,000 on petroleum imported in 1888-89.

The actual collections were, however, Rs. 1,06,683 less than the estimate, and the closing balance was Rs. 8,551 larger than that at the beginning of the year. The refunds chiefly on grain and sugar being Rs. 1,12,299 less than the forecast, the net revenue fell short of the estimate by Rs. 2,935 only as stated at page 44 of this report.

The marginal contrast between the gross revenue of the past year with that of 1888-89 shows that there was a net decrease of Rs. 2,99 600, chiefly on account of the Town Duty schedule of the new Municipal Act not authorizing the levy of duty on petroleum. The other decreases were under grain, wines and timber. The principal increases were under sugar, ghee and firewood on account of heavy imports.

Articles.	Actuals for 1888-89.	Actuals for 1889-90.	Increase	Decrease.
	Rs.	Rs.	Rs.	Rs.
Grain	3,44,535	2,41,378	...	1,03,157
Flour	...	7	7	...
Wines & Spirits	2,18,678	2,04,537	...	14,141
Beer	12,392	14,412	2,020	...
Sugar	4,41,980	4,79,547	37,567	...
Ghee	1.31,294	1,38,840	7,546	...
Timber	1,16,184	1,08,166	...	8,018
Firewood	65,583	74,430	8,847	...
Petroleum	2,30,271	...	...	2,30,271
	15.60,917	12,61.317	55,987	3,55,587
			Net Decrease... Rs.	2,99,600

No. 3 is the detailed Cash Account showing the gross transactions of the year, including adjustments.

It will be seen from the margin that the ordinary income of the year was Rs. 4,85,778-6-9 more than the expenditure, not taking into account the Water Works Fund. This surplus was over 3 times the payments (as per Statement C) of Rs. 1,27,355-15-5 made on account of reduction of debt, of Rs. 24,458-10-7 for investment of the interest realized on the invested Building Fund, and of Rs. 3,000 for investments as Fire Insurance Fund of Municipal buildings.

Income (exclusive of Water Works and the nominal item of profit on Stores)	Rs.	41,62,727	4	2
Less—Expenditure (exclusive of Water Works)	„	36,76,948	13	5
Surplus...	Rs.	4,85,778	6	9

The Water Works Fund owed the Municipal Fund at the close of last year Rs. 8,62,245-5-4 against Rs. 14,64,653-2-8 at the end of the preceding year.

Loan Works.—The aggregate expenditure on surface drainage works amounted to Rs. 13,15,773-9-8 at the end of last year as under, Rs. 2,995-5-9 having been expended during the year on the storage reservoir and contingencies :—

Rs. 16,492-11-0 were expended during the past year on house connections, shaft ventilators and closing storm-water openings in Frere Road sewer. The credit of Rs. 6,933-10-8 on account of the transfer of the excess on the Queen's Road sewerage, sanctioned to be paid out of the 7 lakhs Sanitary Works Loan, reduced the expenditure to Rs. 9,559-0-4. Thus the total cost of the drainage works sanctioned to be executed out of the 15 lakhs Sanitary Works Loan of 1883-84 amounted to Rs. 5,04,784-5-4 as detailed below :—

			Sanctioned Grant.		Amount expended up to 31st March 1889.		Amount expended during 1889-90.		Total.

The cost of the drainage works sanctioned to be met out of the 7 lakhs Sanitary Works Loan aggregated Rs. 4,34,199-0-8 as under, including Rs. 15,420-11-8 spent during 1889-90 on Fort drainage and Rs. 6,933-10-8 transferred on account of the excess on the Queen's Road intercepting sewer :—

	Sanctioned Grant.	Amount expended up to 31st March 1889.	Amount expended during 1889-90.	Total.
	Rs.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total..Rs.	5,21,933	4,11,844 10 4	22,354 6 4	4,34,199 0 8

The following statement shows that with the expenditure of Rs. 2,26,335-4-5 incurred on pipe sewers and house connections, the cost of the works sanctioned out of the 12 lakhs Drainage and Water Works Loans reached Rs. 3,17,542-7-4 :—

	Sanctioned Grant.	Amount expended up to 31st March 1889.	Amount expended during 1889-90.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Queen's Road Pipe Sewers...	2,87,598 0 0	91,207 2 11	1,87,136 12 11	2,78,343 15 10
Do. House Connections	8,27,331 0 0	.....	39,198 7 6	39,198 7 6
Total...Rs.	11,14,929 0 0	91,207 2 11	2,26,335 4 5	3,17,542 7 4

In addition to Rs. 775-4-5 spent in 1888-89, Rs. 46,979-11-11 were expended in the past year on the drainage works sanctioned to be carried out of the Miscellaneous Works (drainage and water works, markets, roads, &c.) Loan of Rs. 10,08,500. Thus their total value amounted to Rs. 47,755-0-4, as per following details :—

	Sanctioned Grant.	Amount expended up to 31st March 1889.	Amount expended during 1889-90.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Extension of Parel Road, Storm-water Drain to Shepherd Road	33,749 0 0	451 14 1	32,189 12 11	32,641 11 0
Storm-water Drain from Bellasis Road to two-thirds the length of Ripon Road	23,436 0 0			
9" Pipe Sewer along Bellasis Road, Foras Road and Gilder Street	29,822 0 0	323 6 4	14,789 15 0	15,113 5 4
Total... Rs	87,007 0 0	775 4 5	46,979 11 11	47,755 0 4

Only Rs. 470 were expended out of the sum of Rs. 94,000 raised during the past year on account of the loan of Rs. 2,48,000 sanctioned for the Agripada house sullage water connections.

Cartage charges amounting to Rs. 63-5-9 were paid in last year on account of the Ripon Road. But owing to a recovery of Rs. 2,241-6-4 on account of certain frontages, the net cost of the road stood at Rs. 1,39,033-7-2 on 31st March 1890 against Rs. 1,41,211-7-9 at the close of 1888-89.

Rs. 10,460-11-2 were spent on the cross road at Mahaluxmi from Clerk Road to Haines Road in the past year, which, with Rs. 71 expended in the previous year, gave Rs. 10,531-11-2 as the total cost of the Road up to 31st March 1890.

Pending the sanction of the Government of India to the raising of a loan of 35 lakhs, in which Rs. 15 lakhs have been included for new roads at Matunga, Agripada and other districts, Rs. 37,738-11-8 were advanced from surplus cash balance for the Matunga Road.

The expenditure in the past year of Rs. 18,968-15-6 on the enlargement of Dhobies' lines at Mahaluxmi enhanced the cost of the miscellaneous works directed to be executed out of the Rs. 20,88,000 Sanitary Works Loan to Rs. 79,278-8-11 as detailed below :—

	Sanctioned Grant.	Amount expended up to 31st March 1889.	Amount expended during 1889-90.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Establishment Charges	8,803 2 6	8,803 2 6	....	8,803 2 6
Total..Rs	1,05,807 14 7	60,309 9 3	18,968 15 8	79,278 8 11

Rs. 1,98,913-8-8 and Rs. 2,13,638-0-2 were respectively advanced from surplus balances for the purchase of land on the Flats required for the disposal of town sweepings and for extension of the Bhuleshwar Market, pending the sanction of Government to the proposed loan of 35 lakhs referred to above, which includes a provision of 2 lakhs for the purchase of the land in question and of 4½ lakhs for the market extension.

The expenditure on the Erskine Road, and Arthur Crawford Markets Extensions sanctioned out of the Rs. 10,08,500 loan

amounted to Rs. 2,87,585-13-2 with the payments of Rs. 1,014-13-10 made for these extensions in last year.

The advance of Rs. 3,358-5-8 during the past year in addition to Rs. 8,263-0-5 advanced in 1888-89 raised the entire cost of Survey for pipe sewers in Omercarry and other districts to Rs. 11,621-6-1.

The sum of Rs. 96,299-15-10 expended on foundations and superstructure during the past year, in addition to the cost of the site paid in 1888-89, made the total payments on account of the Municipal Office &c., out of the Building Fund investments reach Rs. 1,86,387-15-10.

Pending final decision, Rs. 93,200 were advanced from surplus cash balance for improvements and extension of the Victoria Gardens as per Corporation's Resolution No. 6242, dated the 23rd January 1890.

The advance to Municipal officers were enhanced in the past year from Rs. 53,289-10-3 on 31st March 1889, to Rs. 3,42,883-6-4 entirely on account of the sums advanced for the purchase of bills for £21,500 for Tansa pipe remittances not having been adjusted before the close of the year.

The stock accounts of the various Municipal Departments stood on 31st March 1890 at Rs. 17,74,273-12-3 against Rs. 16,77,522-8-6 at the close of 1888-89, partly on account of the pipes &c., in Water Works stock being valued by the Deputy Engineer at the ruling high rates of iron, and partly to the additions made in our stock of bullocks, horses, carts, steam-rollers, water tanks, hoses &c.

I must state here that this report, which was otherwise ready in the beginning of this month, had to be delayed in consequence of the Water Works Stock Account not agreeing with my books. It took fully two months to tally only the receipts, and the issues were also checked with considerable labour. This difficulty will not arise in future years as the Deputy Engineer has now agreed to keep the stock books in the forms suggested by me. The adoption of the store rules referred to at page 80 of this report will also facilitate the checking of the stock return. I shall address you separately on the mode adopted by the Deputy Engineer, Water Works, in valuing his stock at the beginning of each year. The present mode is not quite satisfactory, inasmuch as fictitious profits as in 1889-90 can be arrived at in one year, owing to a rise in the price of iron and unfavourable rate of exchange, and in another year the accounts might show unnecessary losses when iron may be cheaper and when exchange has improved.

The private and departmental works and workshop outstandings were again increased during the past year as in 1888-89. They amounted to Rs. 1,64,762-2-6 on 31st March 1890 against Rs. 1,24,036-2-2 on 31st March 1889, and Rs. 96,096-6-2 on 31st March 1888. As already referred to in my last report, there should be no outstandings except on private works, as was the case from 1865 to 1878. But I

regret to observe that the private works outstandings of the Engineer's Department date as far back as 1876, and those of departmental works of the Workshops and the Engineer's Department are respectively so old as 1881 and 1883-84.

As regards private works recoveries, I must state that they should be put on some satisfactory basis, and that at the end of each year the uncollected bills in the hands of the Inspectors, &c., should be produced before the Auditors at least (if not periodically checked by some officer of the Engineer's Department), as is done in the case of outstanding bills of rates and taxes. I had presumed, while reporting in July 1887 on a case of misappropriation of private works recoveries by a watering Muccadum, that "some one in the Engineer's Department counted the "actual number of outstanding bills in charge of Inspectors to prevent "sums of collected bills being misappropriated by Muccadums or "others entrusted with their recovery."

I had urged the utility of such examination so recently as the 9th ultimo, while pointing out that a deceased contractor's partners were allowed to obtain their contract deposit without recovering from them an outstanding private work bill, which the Engineer had recommended to be charged to the work, but which I suggested should be recovered from the bills due by the Municipality to one of the partners of the deceased contractor.

The Corporation having sanctioned Rs. 1,20,000 to be advanced to the Tansa Duct contractors on the security of their plant and in consequence of other large sums having been advanced to these and the Dam contractors on account of materials &c., under the terms of their contracts, the advances to contractors &c., aggregated Rs. 2,30,316-4-10 on 31st March 1890 against Rs. 94,043-4-9 at the end of 1888-89.

No. 4 Liabilities.—The debt due to Government on account of the consolidated loan was reduced from Rs. 49,48,149-12-2 on 31st March 1889, to Rs. 48,12,656-13-9 at the close of last year, of which Rs. 15,36,999-7-11 remained due on account of the 6 lakhs Surface Drainage Loan and the balance of 2nd 15 lakhs loan, and Rs. 32,75,657-5-10 on account of the 40 lakhs Tulsi Loan as shown in Statement No. 7.

Out of Rs. 21,500 remaining unpaid on 31st March 1889, on account of the 6 per cent loans, Rs. 17,000 were paid off during the past year, leaving only nine bonds of the value of Rs. 4,500 unpaid, seven of these held in London have not yet been presented for repayment. Of the remaining two held in Bombay one has been lost by the holder, and the

other has, on examination, been found not properly endorsed to the present holder.

Rs. 36,000 of the 27 lakhs loan of 1878, became repayable under the terms of the loan on 1st January 1890. Bonds for Rs. 35,500 only having been presented for repayment, were paid off up to the close of the year. (Rs. 22,136-15-6 from Municipal Fund, and Rs. 13,363-0-6 out of the Water Works Fund.)

The balance of Rs. 6,38,000 of the Miscellaneous Works Loan of Rs. 10,08,500 was raised during the past year at Rs. 107 per cent.

Rs. 94,000 of the Agripada House Sullage Water Connections Loan of Rs. 2,48, 000 were allotted at par for the Sinking Fund investment of Rs. 91,000, as detailed at page 76 of this report, and the Building Insurance Fund investment of Rs. 3,000. The balance was raised during the current year.

As sanctioned in the Corporation's Resolution No. 5294, dated 19th November 1888, Rs. 1,15,341-13-4 (Rs. 40,616-14-0 Municipal Fund and Rs. 74,724-15-4 Water Works Fund, being the net premia on loans raised during the past year) were credited to the respective loans.

The cash deposits from contractors, &c., were reduced from Rs. 2,50,766-4-0 on 31st March 1889 to Rs. 1,30,834-10-3, in consequence of the deposit of Rs. 70,000 paid by the G. I. P. Railway Company in 1888-89, on account of disputed bills for taxes due by them having been adjusted during the past year and the large cash deposits deducted in the previous year from the Tansa Duct Contractors' bills having been refunded to them on their replacing the same by Government or Municipal paper in last year.

At the close of the year we owed Government Rs. 1,203-3-2 on account of Income Tax collected by us on salaries &c., for February 1890. This sum has been paid to them during the current year.

The unexpended balance of the Loan Works Establishment account was Rs. 34,140-15-4.

The total liabilities of the Municipal Fund (not including those contracted in connection with the water works of the city) were enhanced from Rs. 85,60,677-12-3 on 31st March 1889 to Rs. 92,47,127 at the end of last year.

No. 5 Assets.—The recoverable advances &c., amounted to Rs. 7,37,961-13-8 at the close of the year against Rs. 2,71,369-1-2 on 31st March 1889.

The invested funds aggregated Rs. 48,51,734-13-8 at the end of last year against Rs. 48,05,055-2-8 on 31st March 1889. These sums included Sinking Fund investments as detailed below :—

	For 1888-89.	For 1889-90.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
44 Lakhs Sanitary Works Loan	1,32,804 12 6	64,644 3 9	1,97,449 0 3

In 5 per cent Municipal Bonds at par (lodged at the Bank of Bombay)...	1,48,500 0 0	+ 91,000 0 0	=2,39,500 0 0
Cash deposited at Interest with the Bank of Bombay.....	304 12 6	— 99 2 11	= 205 9 7

The plant, stock &c., in hand of the Municipality on the last day of the year was of the value of Rs. 17,74,273-12-3.

For the reasons already explained in my last report, properties of the value of over 50½ lakhs (Rs. 45,37,835-11-11, as per valuation lists of 1883-84, and Rs. 5¼ lakhs on account of properties, &c., since acquired) have remained unbooked. I think these lists, which were framed in 1883 and revised in 1887, will again require to be revised. It is very desirable that this should be done as soon as practicable, settling the basis of the revision at a meeting of all the Heads of Departments.

The value of overbridges, roads, drainage and other works executed out of Loan &c., Funds, was Rs. 66,27,976-14-2.

ASSETS.			
Advances, Investments and Cash Balance	Rs. 58,98,971	11	0
Stock	17,74,273	12	3
Buildings &c.	63,32,241	4	0
	Rs. 1,40,05,486	11	3
Overbridges, Roads, Drainage and other works executed out of Loan and invested Reserve Funds	66,27,976	14	2
	Rs. 2,06,33,463	9	5
Water Works..Rs. 2,09,85,677 3 9			
Invested Unexpended Loan and Interest Funds &c. .. „ 10,10,955 8 4	2,19,76,632	12	1
Total Assets..Rs.	4,26,10,096	5	6
LIABILITIES.			
Municipal Fund .....Rs.	92,47,127	0	0
Water Works Fund ..... „	1,89,81,702	1	0
Total Liabilities ..Rs.	2,82,28,829	1	0

You will observe from the figures given in the margin that, exclusive of over 7¾ lakhs spent from current revenue in acquiring property &c., since 1883-84, the gross assets of the Municipality exceeded the entire liabilities by nearly one crore and 44 lakhs, *i.e.*, by over 50 per cent.

Pending the decision of the Standing Committee as required by Section 123 of the Municipal Act, regarding the suggestion made in my last report, page 75 (first para.); I have continued to give statements Nos. 6 and 7 in the usual forms.

From the former statement it will be seen that the excess of Rs. 87,635-11-7 of Water Works expenditure, including debt repayments and Sinking Fund investments, over the revenue was met from Municipal Fund general revenues. The latter shows that the four instalments of the Tansa Loan aggregated Rs. 97,00,000. The fourth instalment of 25 lakhs was raised in the past year at rates of premia varying from 104½ per cent to 103½ per cent, the average rate being 103-10-6 per cent. The net premia so realized during the past year was Rs.74,724-15-4, which like the premia realized during 1888-89 on Tansa and Water Works portions of other loans, was credited to the former loan, as required by the resolution of the Corporation on the subject. The aggregate liabilities of the Water Works Branch were Rs. 1,89,81,702-1-0. Exclusive of the value of mains and other works paid out of current revenue since 1883-84, amounting in all to over 2½ lakhs, the total cost of the Water Works of the city was Rs. 2,19,76,632-12-1, including investments. The assets were thus 30 lakhs in excess of the liabilities.

STORES.

There was a further reduction during the past year of over five thousand rupees in the balance of stock in charge of the Stores Clerk. The reduction in the past seven years amounted to little less than 2 lakhs as will be seen from the following figures :—

		Rs.	a.	p.
Balance on 1st March	1884	2,72,834	12	0
Do.	1885	2,34,288	10	0
Do.	1886	2,17,364	4	4
Do.	1887	2,11,446	9	0
Do.	1888	1,47,060	4	4
Do.	1889	93,632	11	10
Do.	1890	88,192	8	11

The principal items of stock at the end of last year, as compared with the preceding six years, are given below :—

Contrasted Statement of the principal items of balances of articles in stock at the Municipal Stores at the end of each of the past seven years.

| | | |

The reductions above referred to were due to the sale of all unserviceable and surplus stores as directed by the Corporation and to the rules introduced by Mr. Ollivant in 1883-84, being strictly observed by the late Store Clerk, whose services in this respect, as described in my last and previous reports have, I am glad to observe, been appreciated by his transfer on promotion to the Engineer's Department, where I have no doubt he will be able to effect the expected improvements, as he has done in the Stores, where he served during the past 7 years.

On the basis of the rules above referred to in force at the Workshop and Stores, others have been framed for observance at the Bellasis Road and Chinchpoogly Stores and have been submitted for your sanction after their being approved by the Deputy Engineers, Drainage and Water Works. I trust their introduction will effect the same results in the Drainage and Water Works stock balances as those referred to above in connection with the Workshop and General Stores.

The sales of Stores, &c. to private parties realized Rs. 213-10-0. The proceeds of unserviceable and surplus stores (not useful for Municipal purposes) sold by public auction amounted to Rs. 699-12-3. These sales, together with the cost of stores issued to the Workshops, &c., and the difference of Rs. 1,311-10-7 in the book-value of the stores sold by auction, caused a reduction of Rs. 5,440-2-11 in the Stock balance at the end of last year as compared with that at the close of the preceding year.

Items marked A, amounting to Rs. 11,682-4-6 have, as recommended in my last report (page 78, para. 5) been with your approval transferred during the current year to the Water Works Stock. If my suggestions in the same para. regarding the other items marked B and C are approved, and the articles utilized or disposed of as proposed, the balance in our hands would be reduced to the minimum actually required for the efficiency of the Municipal Workshops.

WORKSHOPS.

In the following statement the Workshop transactions of the past year have been contrasted with those of 1888-89 :—

	1888-89.		1889-90.	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
To Balance of last year's account		22,477 7 4		46,045 8 9
„ Payments—

	6,664 1 4		93,678 3 7	
„ Incomplete Works—				
Departmental Works..	39,381 7 5	46,045 8 9	17,255 0 0	1,10,933 3 7
Total...Rs.		1,40,924 2 3		2,15,610 13 10

The increase of about half a lakh of rupees in the original outlay was chiefly due to heavy repairs to Engines Nos. 3 and 4 of the Love Grove Pumping Station having been executed and to new water carts, a large number of wrought iron and water tanks for the Drainage and Road Departments, and the Assessment Ward Office at Sankli Tank having been constructed by the Superintendent during the past year.

The profit derived on the year's working by a fixed charge of 25 per cent on the actual expenses of each job executed in the shops during the past year was Rs. 31,895-3-9 as under :—

Nature of works.	Actuals.	Amount charged including 25 %	Profit @ 25 %
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Private works	261 2 0	450 12 4	189 10 4
Departmental works	1,18,909 9 4	1,50,615 2 9	31,705 9 5
			31,895 3 9
Scavengering carts	7,452 2 4	9,315 2 10	1,863 0 6
Drain Carts.....	8,384 0 6	10,480 0 7	2,096 0 1
Night-soil carts.....	8,512 2 5	10,640 3 1	2,128 0 8
Watering carts	7,497 4 1	9,371 9 4	1,874 5 3
Scavengering, drain and night-soil carts	24,348 5 3	30,435 6 6	6,087 1 3

It will be seen from the above table that Rs. 7,961-6-6 of the gross profit was derived from carts.

If from the total profit, Rs. 7,798-0-10 paid on account of supervision establishment, Rs. 15,937-4-5 paid for shop charges and Rs. 4,633-3-11 spent on repairs, &c., were deducted, there would remain Rs. 3,526-10-7 available, which together with Rs. 1,318-11-11 realized by sale of iron, &c., gave a net profit of Rs. 4,771-0-7 after allowing for a retrenchment of Rs. 74-5-11 made from a bill for 1888-89, adjusted during the past year.

The gain by purchase of iron castings from contractors was Rs. 4,189-5-8 against an annual loss of about Rs. 5,000 during the 6 years ending 1886-87, when they were manufactured in the Workshop Foundry, the working of which had to be stopped on that account since September 1887.

The outstandings were unusually heavy, owing to bills for about Rs. 80,000 preferred in February 1890 remaining unadjusted at the close of the year, principally on account of want of details for a bill of over Rs. 45,000 for Extension of Erskine Road Markets and for want of sanction for bills for upwards of Rs. 20,000 for repairs, &c. charges for Love Grove Pumping Station Machinery. I again have to point out that the outstandings include Rs. 5,000 for work

done between February 1881 and February 1889, the remaining Rs. 91,000 being for work done during the past year.

The outlay on incomplete jobs (chiefly Love Grove engine repairs, railings and fencing for Victoria Garden's extended compound and deer park, &c., Erskine Road Market mutton stalls, &c.) aggregated Rs. 17,255.

GENERAL REMARKS.

From the following figures it will be seen that the cash that passes through the Paymaster's hand has been steadily increasing from year to year. It amounted to Rs. 13,97,194 in the past year against Rs. 13,65,672 in 1888-89, and Rs. 8,40,451 in 1873, the year in which the Paymaster was appointed for the first time to pay all Municipal Departments direct :—

Year.	Payments.	Savings.
	Rs.	Rs.
1872	In this year there was no Paymaster.	2,177
1873	8,40,451	3,098
1874	8,50,000	4,246
1875	8,56,265	3,751
1876	8,62,202	3,395
1877	9,43,565	4,077
1878	9,84,255	9,233—4,300
1879	10,35,050	3,800
1880	10,18,476	3,244
1881	10,14,139	3,478
1882	10,27,034	3,792
1st Quarter of 1883	2,63,746	
1883-84	11,32,907	3,427
1884-85	12,20,854	3,021
1885-86	13,01,935	4,143
1886-87	12,73,988	1,120
1887-88	13,09,592	4,294
1888-89	13,65,672	3,741
1889-90	13,97,194	5,522

Of the sum of Rs. 5,522 credited to savings in last year, Rs. 3,897-0-11 actually payable to halalkhores and labourers, and the General Establishments have been transferred to Deposit Account, as required to be shown in the account to be submitted to Government, and the balance which has been barred by the statute of limitations has been credited to revenue as a real saving.

1889-90	22,064	5,85,700 11 0

From the marginal contrast of the number of Town Duty certificates passed and the amount of duty refunded from 1873 to the end of last year, it will be seen that, notwithstanding the reduction of duty on grain during the past two years, *viz.*, from annas 5 to 2 annas per candy, and the abolition of duty on kerosine, there has not been an appreciable reduction in the number of claims for refunds as compared with 1886-87 and previous years.

The reduction in the number of Town Duty refund certificates referred to in the preceding para., accounts for a corresponding diminution of the Disbursement Vouchers as shown in the following statement :—

Year.	No. of Receipt Vouchers.		No. of Disbursement Vouchers.		Total including Journal Vouchers.
1876	4,862	+	12,073	=	16,935
1877	5,013	+	14,410	=	19,423
1878	5,511	+	18,783	=	24,294
Average per annum for the 5 years ending					
1883-84	5,983	+	26,393	=	32,376
1884-85	6,942	+	32,872	=	39,814
1885-86	6,855	+	31,008	=	37,863
1886-87	7,040	+	36,966	=	44,006
1887-88	7,197	+	42,283	=	49,480
1888-89	6,527	+	42,989	=	49,516
1889-90	6,358	+	36,468	=	42,826

14,683 letters (exclusive of 42,826 vouchers and 22,108 Ward remittance reports) were received during the past year against 12,668 received in 1889-90 and 2,250 in 1875. The outward letters, exclusive of 503 intimations sent to contractors and others to call for payment, numbered 2½ times those of 1875.

Bonds for the 4th instalment of Rs. 25 lakhs of the Tansa Loan, the balance of Rs. 6,38,000 of the Miscellaneous Works Loan of Rs. 10,08,500, and Rs. 94,000 of Agripada Loan of Rs. 2,48,000 raised during the past year were issued as detailed below :—

FOURTH INSTALMENT OF THE TANSA LOAN.

25	bonds of	Rs.	10,000	each Rs.	2,50,000
93	„	„	5,000	„ „	4,65,000
25	„	„	2,000	„ „	50,000
20	„	„	1,500	„ „	30,000

PORTION OF AGRIPADA HOUSE SULLAGE WATER CONNECTIONS LOAN OF Rs. 2,48,000.

182	Bonds of Rs. 500 each alloted for Sinking Fund of different Loans.	Rs.	91,000
6	Do. „ 500 „ allotted for Municipal Buildings Fire Insurance Fund	„	3,000
188			94,000

Owing to the above heavy and increasing work having to be performed by an insufficient staff, as repeatedly pointed out in my annual reports, the work had fallen into arrears in certain branches of this office, which I am trying to bring up with the increased establishment allowed in the schedule, the appointments under which were mostly made only by the middle of May last.

I have, however, again to thank my staff generally and my Assistant, Mr. Maneckshaw Cawashaw particularly, for the able assistance rendered by them to me in the discharge of the multifarious, onerous and responsible duties of this Department and for working for considerably prolonged office hours, cheerfully relinquishing their rights on holidays and in many cases well earned privilege leave.

APPENDICES

TO THE

CHIEF ACCOUNTANT'S REPORT FOR 1889-90.

REVENUE.

1. REPORT of the ASSESSMENT and COLLECTION DEPARTMENT by Mr. W. PEARSON, Acting Assessor and Collector, as forwarded with his letter No. 8644, dated 6th August 1890.

2. REPORT of the REVENUE and REFUND DEPARTMENT by RAO BAHADUR VIRPRASAD TAPIPRASAD, Revenue and Refund Officer, as forwarded with his letter No. 1012, dated 1st August 1890.

---

1. The total amount collected under all heads, exclusive of miscellaneous receipts, was Rs. 35,05,709-15-9 against the estimated amount of Rs. 33,20,850, being an increase over the estimate of Rs. 1,84,859-15-9.

2. This increase is due—

1st.—To the amount of water and halalkhore taxes collected being greater than anticipated, owing to these taxes being levied under the new Act *on all properties.*

2nd.—To the existing valuations of properties being increased.

3rd.—To the erection of new properties.

3. As compared with the total collections for the previous year, which amounted to Rs. 30,86,298-9-0, the increase for the year under report is Rs. 4,19,411-6-9.

4. This increase is owing—

1st.—To the reasons given in para. 2.

2nd.—To an additional ½ per cent. for the Fire Brigade charges being added to the previous general tax of 8 per cent.

5. The total collection for the last five years, exclusive of miscellaneous receipts, is as shown below :—

1885-86.....	Rs.	27,51,776	14	8
1886-87.....	„	29,22,556	5	6
1887-88.....	„	29,77,206	9	0
1888-89.....	„	30,86,298	9	0
1889-90.....	„	35,05,709	15	9

Registration of Properties.

6. At the close of the year there was a net increase of 541 properties made up as follows :—

New erections		821
Buildings demolished		354
		467
Sub-division of existing properties...		74
Total increase...		541

The following table gives the details of the number of properties for the last five years :—

Years.	Classification of properties according to description.					Classification of properties according to liability to pay General Tax.			
	Buildings.	Salt-pans.	Cocoa-nut plantations.	Vacant lands, including tanks, &c.	Total.	Number assessed to General Tax.	Number exempt or compounded for on special terms.	Small plots of unproductive land, for which no bills are issued.	Total.
1	2	3	4	5	6	7	8	9	10
1885-86	30,648	199	1,039	15,916	47,802	33,665	5,292	8,845	47,802
1886-87	31,369	199	1,283	15,619	48,470	33,888	5,642	8,940	48,470
1887-88	32,098	199	1,273	15,743	49,313	34,488	5,607	9,218	49,313
1888-89	32,639	199	1,273	15,773	49,884	36,833	5,331	7,720	49,884
1889-90	33,106	199	1,273	15,847	50,425	37,365	5,318	7,742	50,425

Valuation.

7. The gross recorded value of these properties for the year under report, contrasted with those of the preceding four years, is as shown in the following table :—

	1885-86.	1886-87.	1887-88.	1888-89.	1889-90.
	Rs.	Rs.	Rs.	Rs.	Rs.
Opening valuation	1,67,48,251	2,05,55,739	2,24,46,222	2,34,29,607	2,68,90,888
Number of complaints	10,143	1,776	3,136	2,798	1,986
Amount after disposal of complaints	1,64,09,138	2,04,24,078	2,23,93,190	2,35,13,132	2,67,33,861
Reductions	1,15,027	1,17,088	2,80,765	3,01,339	2,72,575
Enhancements	37,31,112	13,20,240	6,79,921	7,39,230	9,03,073
Valuation chargeable with General Tax...	1,81,43,384	1,86,59,008	2,00,24,486	2,11,38,534	2,19,43,611
Valuation exempt from General Tax...	18,63,969	29,50,813	27,49,277	27,94,088	54,02,381
Valuation for which no General Tax bills issued	17,870	17,409	18,583	18,421	18,367
Total valuation...	2,00,25,223	2,16,27,230	2,27,92,346	2,39,51,043	2,73,64,359
Increase over preceding year's valuation	46,42,479	16,02,007	11,65,116	11,58,697	34,13,316

8. The increases are accounted for as follows :—

Years.	Rise in rents and correction of underassessment.	Erection of new buildings.	Enlargements.	Adjustment of the difference between the Municipal Commissioner's valuation of Port Trust property and that finally adopted by Government.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
1885-86	42,54,855	2,46,718	1,40,906	.....	46,42,479
1886-87	4,87,791	2,53,088	1,64,041	6,97,087	16,02,007
1887-88	3,78,827	4,96,187	2,90,102	.....	11,65,116
1888-89	3,89,484	4,65,890	3,03,323	.....	11,58,697
1889-90	*26,30,585	5,65,360	2,17,371	.....	34,13,316

* Of this amount, Rs. 19,83,427 represent the increase of valuation on account of Government properties not hitherto assessed.

9. The following tables show the increase in property taxes as compared with the previous year :—

1.—*General Tax.*

1888-89.			1889-90.				Increase.
8 per cent. on Value.	Compounded sum payable by Government and Port Trust.	Total.	8½ per cent. on Value.	Compounded sum payable by Government.	Compounded sum payable by Port Trust.	Total.	
Rs. a. p. 13,09,805 7 8	Rs. a. p. 2,12,990 0 0	Rs. a. p. 15,22,795 7 8	Rs. a. p. 14,56,845 3 0	Rs. a. p. 50,000 0 0	Rs. a. p. 1,73,177 0 0	Rs. a. p. 16,79,522 3 0	Rs. a. p. 1,56,726 11 4

10. Of this increase of Rs. 1,56,726-11-4, Rs. 95,854-5-10 are due to the additional tax of ½ per cent., and the balance Rs. 60,872-5-6 to increase in value of properties.

11. The amount of general tax on properties, exempt under section 143 of the Act, does not appear in the above table. This amount, as contrasted with that of the previous year, is as follows :—

	Rs.	a.	p.
For 1888-89	2,01,174	4	10
„ 1889-90	4,13,282	2	9

This great difference is due to the fact that the valuations of a large number of Government properties had not previously been shown in the assessment book.

2.—*Water Tax.*

1888-89.				1889-90.				Increase.
On Value.	Compounded.	On Meter measurement.	Total.	On Value.	Compounded.	On Meter measurement.	Total.	
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
4,26,500 12 7	3,728 9 6	4,80,695 8 3	9,10,924 14 4	5,66,877 13 9	15,993 4 11	5,31,451 1 1	11,04,321 3 9	1,93,396 5 5

3.—*Halalkhor Tax.*

1888-89.			1889-90.			Increase.
On Value.	Special service.	Total.	On Value.	Special service.	Total.	
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
3,28,887 2 11	63,369 5 9	3,92,256 8 8	4,48,280 13 9	69,292 14 4	5,17,573 12 1	1,25,317 3 5

12. The increases on account of the water and halalkhore taxes are due—

1st.—To these rates being levied under the Act to all properties.

2nd.—To the increased valuation of the property in the City.

13. The total demand on account of property taxes for 1889-90 amounted to Rs. 33,01,417-2-10, to which must be added Rs. 95,081-0-11, demands on account of previous years, making a total demand, Rs. 33,96,498-3-9.

14. Of the above total demand, a sum of Rs. 2,979-4-5 was allowed as drawback under section 158 (2) of the Act, and the sum of Rs. 2,23,177 was the amount payable by Government and the Port Trust. For the recovery of the remainder, bills were issued from this office to the number as shown on the following page.

Bills issued during the year 1889-90.

For what year.	Bills issued.	
	No.	Amount.
		Rs. a. p.
1883-84...	2	1 0 0
1884-85...	4	77 0 0
1885-86...	4	2 9 8
1886-87...	8	5,858 7 8
1887-88...	34	40,352 6 10
1888-89...	167	48,789 8 9
Total ...	219	95,081 0 11
1889-90...	78,078	30,75,260 14 5
Total ...	78,297	31,70,341 15 4

15. The outstanding balance on account of property taxes at the end of 1888-89, as shown in the Report for that year, was 1,754 bills, amounting to Rs. 1,70,097-7-1; consequently the total number of bills of all years for collection in 1889-90 was 80,051, amounting to Rs. 33,40,439-6-5, as against 72,307 bills, amounting to Rs. 27,46,323-1-5 for 1888-89.

16. The total amount outstanding for all years, at the end of the year, as compared with the previous years, was as follows :—

	Bills.	Amount.
		Rs. a. p.
1888-89	1,754	1,70,097 7 1
1889-90	5,297	2,97,277 12 9
Difference.....	3,543	1,27,180 5 8

17. The outstanding of 1889-90 is, as shown above, greater by Rs. 1,27,180-5-8 than that for the previous year. This is, in a great measure, owing to the difficulties which arose in the interpretation of the new Act as regards the levy of the water and halalkhor taxes and in disposing of $\frac{1}{3}$th drawback cases. Included in the above amount, is the sum of Rs. 10,187 due by the Port Trust. This is outstanding, pending the settlement of the new assessment of the Port Trust properties under the Act. Up to 31st July 1890, of these outstandings, Rs. 1,28,534-7-8 had been recovered.

18. The following table gives details of the amounts which had to be collected, &c., during the year 1889-90 :—

Taxes.	To be collected.				Collected.			Uncollected.	Deduct Irrecoverable Bills.						Balance outstanding at the end of 1889-90.		
									On account of former years.				On account of 1889-90.	Total.			
	Opening Balance outstanding.	Total of Bills issued during 1889-90.	Amount payable by Government and Port Trust without Bills.	Total.	On account of former years.	On account of 1889-90.	Total.		Time-barred Bills.	Bills cancelled as erroneous.	Bills recalled and placed on the Irrecoverable Bills File.	Total.			On account of former years.	On account of 1889-90.	Total.

Taxes on Vehicles and Animals.

19. The total demand on account of the tax on vehicles and animals for the year was Rs. 1,68,504-8-0 against Rs. 1,79,478-12-0 for the previous year, showing a decrease of Rs. 10,974-4-0.

This decrease is mainly attributable to the reduction in the tax under the new Act.

20. In addition to the above demand for the year, there were, 1st, an outstanding balance of Rs. 4,731-12-0, and 2nd, the amount of bills for former years issued in the year under report, *viz.* Rs. 249-0-0. These amounts made up the total amount of Rs. 1,73,485-4-0 to be collected during the year.

21. The amount actually collected during the year was Rs. 1,62,679-12-10. The amount collected in the previous year was Rs. 1,78,739-12-0.

22. The details are given in the following table :—

To be collected.			Collected.			Uncollected.	Deduct Irrecoverable Bills.						Balance outstanding at the end of 1889-90.		
							On account of former years.				On account of current year.				
Opening balance outstanding.	Total of Bills issued in 1889-90.	Total to be collected.	On account of former years.	On account of 1889-90.	Total.		Time-barred Bills.	Bills cancelled as erroneous.	Bills recalled and placed on the Irrecoverable File.	Total.		Total.	On account of former years.	On account of 1889-90.	Total.

				Ponies.	18		
				Bullocks.	...		
				Donkeys.	...		
				Amount decreased.	Rs. 10,974 a. 4 p. 0		

24. The amount recovered on account of licensed public conveyances, including license fees and fees for badges; and the amount realized from the tolls at Mahim and Sion Causeways, as contrasted with the previous four years, is as follows:—

Years.	Tax on public licensed conveyances.	License Fees.	Fees for Badges.	Toll Fees at Mahim and Sion Causeways.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
1885-86.....	1,44,484 12 0	.....	.....	15,366 0 0
1886-87.....	1,27,924 10 0	.....	.....	15,756 8 0
1887-88.....	1,44,289 4 0	.....	.....	14,833 8 0
1888-89.....	1,21,633 2 0	.....	.....	14,210 6 0
1889-90.....	1,50,289 10 0	3,934 2 0	6,505 6 0	12,835 14 0

The increase in the tax for 1889-90 is owing to the outstandings of the previous year being recovered.

25. Hitherto the license fees and fees for badges were recovered by the Commissioner of Police, but, under the new Act, they are recoverable with the tax.

26. The toll fees have been, as usual, recovered by the Port Trust authorities and paid direct into the Chief Accountant's Office.

27. The following tables show—**A**, total assessment, and **B**, the collections and outstanding balances under the heads of property taxes and tax on vehicles and animals for the year under report, as compared with those of the preceding four years:—

Table A.

Total Assessments on account of Property Taxes and Wheel Tax.

Year.	No. of properties.	Gross annual value at the end of the year, including value represented by Government and Port Trust payments.			ASSESSED DEMAND.												REMARKS.
					Property Taxes.												
					General Tax, including compounded payments by Government and Port Trust.			Water Tax.	Halalkhore Tax.	Total of Property Taxes.			Wheel tax, including public conveyances and the toll on the causeways.	Total assessed demand.			
		Valuation chargeable with General Tax.	Valuation exempt from General Tax under Section 149 of the Municipal Act and Section 36 of the Port Trust Act.	Total.	General Tax leviable.	General Tax not leviable.	Total.			Leviable.	Not leviable.	Total.		Leviable.	Not leviable.	Total.

TOWN DUTIES.

THE Revenue and Refund Audit Office having been organized at the commencement of the current year, I have the honour to submit the following report of the working, during the year ended 31st March 1890, of the late Town Duty Refund Office as administered by Mr. Douglas Bennett, who was appointed Town Duty Refund Officer on the retirement of Mr. Nosherwanjee Coyajee, the late Town Duty Refund Officer on the 1st April 1889. Mr. Bennett acted as Superintendent of Markets and Slaughter Houses from 13th January to 12th March 1890, and I was put in charge of the office in addition to my own duties as Special Assistant to the Municipal Commissioner.

2. The counterfoils of receipts issued to stall-holders, &c., have been compared with the registers, and have been found to tally. The Slaughter House and other accounts have also been checked, and the amounts have been found duly entered in the registers. The total revenue collected during the year also appears duly credited in the Chief Accountant's Books.

Town Duty Refunds.

3. The two statements, Appendices **A** and **B**, are submitted herewith as usual, from which it will be observed that the total collections for the year amounted to Rs. 12,61,316-12-11 as against Rs. 15,60,916-11-6 in the previous year, showing a decrease of Rs. 2,99,599-14-7 from that year. This decrease is mostly due to the abolition of the duty on petroleum and to smaller imports of grain.

4. The net revenue derived from the duties during the year was Rs. 6,86,435-6-11 as against Rs. 6,83,356-9-6 in the previous year, or better than that year by Rs. 3,078-13-5. The variations in revenue in respect of each article, which have contributed to this result, will appear from the following detailed account :—

Grain.—This has yielded Rs. 98,827-14-0 (net) as on candies 790,623 against Rs. 62,228 on candies 774,882 in the previous year, showing a net increase of Rs. 36,599-14-0. This was due partly to a decrease of candies 825,257 in the imports and of candies 840,998 in the exports, but mainly to the fact that in 1888-89 refunds were allowed partly at the rate of 5 annas per candy and partly at 2 annas, while in 1889-90 they were allowed at the uniform rate of only 2 annas per candy. Against the above increase in Revenue of Rs. 36,599-14-0, has to be debited the sum of Rs. 4,113-1-3, which represents the excess of the duty refunded over that levied on—

Flour, the imports of which are trifling, compared to the exports which exclusively consist of flour prepared in Bombay from grain. Thus, the net increase in revenue from grain and flour, taken together, amounts to Rs. 32,486-12-9.

Sugar.—The net yield from this source in 1889-90 was R. 1,65,656-9-0, as compared with Rs. 42,098-3-2 in 1888-89, or Rs. 1,23,558-5-10 more. This large increase is due to an increase of cwts. 100,178 in the imports and a falling off of cwts. 161,358 in the

exports, and also to the fact that in 1888-89 refunds had to be allowed partly at the rate of 7 annas per cwt. and partly at 6 annas, whereas in 1889-90 they were allowed at the uniform rate of 6 annas.

Wines and Spirits yielded Rs. 1,84,202-15-7 against Rs. 1,98,762-0-3 in the previous year, or Rs. 14,559-0-8 less. This is due to the imports having fallen off by 56,563 gallons and the exports having increased by 1,673 gallons.

Beer realized Rs. 9,085-13-10 against Rs. 8,500-10-5 in the previous year, showing an increase of Rs. 585-3-5. Here the imports were larger than in the previous year by 64,627 gallons and the exports by 45,900 gallons.

Ghee.—The net yield on account of this commodity was Rs. 1,24,435-9-0 against Rs. 1,18,805-13-9 in the previous year, giving an increase over that year of Rs. 5,629-11-3, which is attributable partly to an increase of 20,123 maunds in the imports and of 15,158 maunds in the exports, but chiefly to refunds having been allowed at two rates in 1888-89, *viz.*, 10 annas and 6 annas per maund, and in 1889-90 at only 6 annas.

Timber yielded Rs. 92,652-6-0 as against Rs. 1,00,915-2-8 in 1888-89, or Rs. 8,262-12-8 less. This is due to a decrease of Rs. 3,20,729 in the value of the imports and an increase of Rs. 9,782 in the value of the exports.

Firewood realized Rs. 74,429-14-9 as against Rs. 65,582-11-9 in the previous year, showing an increase of Rs. 8,847-3-0, which is exclusively due to larger imports, no refunds being allowable in respect of this article.

Petroleum.—The duty on this article was abolished from the beginning of the year under report, and there were accordingly no collections made on account of it. But Rs. 58,742-10-0 had to be allowed in the year under report as refunds on exports, during the year, of oil which had been imported in the previous year.

5. The total amount of refunds claimed during the year on account of all the articles was Rs. 6,28,362-15-0, of which Rs. 5,74,881-6-0 were allowed, the difference Rs. 53,481-9-0 having been retrenched, Rs. 4,319-3-0 on account of claims being legally inadmissible, the rest Rs. 49,162-6-0 being the excess of the amounts claimed over those actually due. The refunds allowed in the previous year amounted to Rs. 8,77,560-2-0, and the large decrease of Rs. 3,02,678-12-0 is due to largely diminished exports of grain and sugar and to the fact that no refund had to be granted in respect of petroleum imported and exported during the year under report.

6. The number of claims disposed of during the year was 22,064 against 28,293 in the preceding year, the decrease being due to the causes stated in para. 5.

7. As directed in the Commissioner's Circular No. 14589 of the 9th January 1888, I submit herewith a list (Appendix **C**) of the Dead Stock in charge of this Department on the 1st March 1890.

APPENDIX **A.**

STATEMENT contrasting the Collections, Refunds and Net Revenue from Town Duties for the years 1888-89 and 1889-90.

A.—SEWERAGE WORKS.

1.—FIRST PORTION OF THE SEWERAGE SCHEME.

(a.)—Pumping Station, Love Grove, Warli.

In the Annual Report for 1888-89, page 173, a reference was made to the unsatisfactory condition of the pumping engines at Love Grove. Towards the close of the year under report the condition had so far altered for the worse that immediate steps were necessary to prevent a break-down.

On examination of the engines and pumps it was found that their effectiveness had been so reduced by neglect on the part of the Engineer at Love Grove that nothing short of dismantling each engine and thorough repair could re-instate them in their former condition.

On the resignation of the Engineer, till then in charge of Love Grove, Mr. Carr, who had been previously highly recommended, but set aside owing to his having no Government certificate, was appointed, having just obtained a certificate of the second class, and through the courtesy of Mr. Carroll, of the B. B. & C. I. Railway, under whom he was employed, he was able to enter upon his duties at Love Grove on the 18th May 1889.

As the Superintendent, Municipal Workshops, had been placed in charge of the station and made responsible for the efficient working thereof, it was not considered necessary to engage a second Engineer and the Assistant from the Workshops (Shaik Ahmed Zarudin), who holds a driver's certificate, was allowed to remain.

It was deemed imprudent to dismantle more than one engine at a time, and so the work of repairs has been comparatively slow.

The Superintendent of Workshops first took in hand engine No. 3, and when that was put into good order, No. 4. No. 2, which was in better condition than the others had been, then followed. And lastly No. 1 has been put under repair. It was not finished at the close of the financial year, but was completed before the rains set in.

The expenditure has been heavy, but the Commissioner very properly determined that the machinery must be put into proper working condition at all hazards.

The effect of three engines in good working trim has been very marked in keeping down the sewage to a reasonable depth and admitting of the flushing and cleaning of the sewers being proceeded with, with much less difficulty and much greater efficiency. The time however, since these conditions obtained, has been but short.

The Commissioner, seeing the ill effect on the sewers of machinery out of order, decided on the 27th September, after consultation with Mr. Elsworthy, of Messrs. Richardson and Cruddas, to purchase of his

firm an 18-inch centrifugal pump and engine combined (second-hand) and a 10-inch centrifugal pump (second-hand) with a new portable engine to work the latter.

This was reported by the Commissioner to the Standing Committee on 2nd October 1889, and on the 31st October 1889 a preliminary grant of Rs. 5,000 was obtained from the Corporation towards the realization of the purpose.

The 18-inch pump has been supplied and fixed and is intended to permanently rest in the pump house in course of erection, to be ready at any time in case of emergency. It has already proved of great service when pumps have had to be packed, or one of the engines to be temporarily stopped for minor repairs.

The 10-inch centrifugal pump will be ordinarily placed in the same pump house, but it can easily be removed, and with the portable engine not yet supplied, will be available for a variety of purposes in any part of the city.

The two centrifugal pumps will about equal in lifting power one of the beam engines and pumps, and with proper vigilance on the part of the Engineer at the station there ought never to be more than one engine at a time incapable of working to full power.

The grant for establishment, stores, contingencies, &c., at the station and the expenditure incurred during the year were as follows :—

Budget grant... ... ...Rs.			61,590 0 0
Add—			
Additional grant for coal to meet excess caused partly by the difference between the Budget provision and the contract rate, and partly by the increase in consumption (sanctioned by the Corporation under resolution No. 7577, dated 12th March 1890) ... ... Rs.	24,500 0 0		
Additional grant for supplemental machinery (sanctioned under Corporation's resolution No. 4741, dated 31st October 1889) ... ... Rs.	5,000 0 0		
		Rs.	29,500 0 0
	Total...Rs.		91,090 0 0
Expenditure passed during the year ... ... ,,			84,438 12 10
	Balance unexpended... Rs.		6,651 3 2

(*b.*)—*Ventilating Shafts.*

Contractors—MESSRS. FAKIRJI PESTANJI & Co.

No. 180 shafts have been erected, and the work comprised in the contract completed.

(*c.*)—*House Connections.*

The Commissioner did not accept the proposal to proceed with the Bhuleshwar District or to invite tenders for that and other subdivisions.

No advance in the work was made therefore during the year.

New tenders have, however, been invited with a view to recommencing the work in October 1890.

2.—QUEEN'S ROAD AND GIRGAM DRAINAGE SECTION.

(*a*)—*Marine Lines Pipe Sewer and Ventilation thereof.*

Government having refused sites for proposed masonry ventilating shafts and insisted upon the system of surface ventilation, notwithstanding the final protest contained in the Municipal Commissioner's No. 4058, dated 7th June 1888, side ventilating chambers were provided, the grant and cost of which were as follows :—

Grant	... Rs.	3,016	0 0
Expenditure	... „	2,492	14 8
Saving	... Rs.	523	1 4

Offensive smells, as anticipated, arose from the manholes into the street, and the open manholes on the house drains continued as theretofore to be a nuisance, as the Government Engineers in charge of the Marine Lines had been several times informed they would be, unless they were closed and other means of ventilation adopted.

The smells from the street openings being added to those from the manholes on the house drains, the complaints of the residents became so pressing that Government, under Resolution No. 192-M. W., 1385, dated 12th August 1889, appointed a Committee to enquire into the sanitary condition generally of the Marine Lines.

Government appointed as members of the Committee : Mr. T. D. Little, M. INST. C. E., Chief Engineer, Northern Division ; Dr. H. Cooke, Officiating Deputy Surgeon General, Bombay District ; and Dr. MacRury, Sanitary Commissioner ; and the Corporation, at the request of Government to name a member, appointed Mr. James W. Smith, M. INST. C. E., then Acting Executive Engineer.

Plans and documents were prepared for the Committee, and the members assembled for the first time on the 26th September 1889, but did not go to the Marine Lines.

At the wish of the Committee several pits were excavated to lay bare the 15-inch pipe sewer, and an inspection was made by the Committee on the 1st October. The pipe was found to have been well laid, though, owing to the quantity of sub-soil water, it could not be as minutely examined as was wished, except in the pit excavated at the junction of Church Gate Street and the Marine Lines Road. The quantity of water outside the pipes, and rising above them when baling was stopped, while only a small quantity of sewage was flowing inside, proved that the joints were sound.

It was observed that water did not pass freely through the pipe sewer between Church Gate Street and the second manhole therefrom, but as there were no sewage connections above this spot the matter was not of vital consequence.

The pipe sewer from a considerable distance south of Hospital Lane was found water-logged. The reason of the sewage extending so far

back was the height of sewage in the Queen's Road sewer, which was high on account of the engines and pumps at Love Grove being out of repair, and abnormally so at the time of the inspection, because, as it was afterwards ascertained, one engine had been stopped at about that time to remove a block of wood and a piece of the trunk of a plantain tree which had got under the pump valves and prevented them from working.

The obstruction near Church Gate Street was found on opening the ground, a day or two later, to have arisen from the instrusion of the rootlets of trees. Such rootlets had been previously found on more than one occasion to have penetrated into the house drain-pipes laid by Government in the Marine Lines. The rootlets in the 15-inch pipe sewer were principally removed by sewer cleaning instruments and only five or six pipes had to be taken out. It was deemed advisable to uncover every joint of those stretches of pipes which had been found obstructed, and to lay around each joint a mass composed of Portland cement and gas-tar, and this was done under the Commissioner's sanction, No. 15703, dated 3rd January 1890.

When the work was completed the Committee again assembled (on the 22nd October), and made a more extended inspection comprising the pipe sewer, the house drains, and the bungalows.

The pipe sewer was found to flow free to near Hospital Lane, though beyond it was still water-logged. There was of course no absolute stagnation, or the sewage would soon have filled up the manholes and run on to the roadway, but there was a water-logging which must always occur while there is sewage in the Queen's Road sewer, though the lower the sewage is kept in that sewer the less will the pipe sewer be water-logged.

The house drains, as exhibited through the manholes, were more or less dirty, and there was ample evidence of deposit to indicate the necessity of flushing and more general attention, and the source of stench arising from the open manholes.

The bungalows and their surroundings were for the most part condemned as unsanitary.

The members of the Committee agreed to and signed a joint report on the same day.

A joint report is usually a compromise of more or less divergent opinions, and this report is probably no exception to the rule.

The report was forwarded by Government to the Corporation under Resolution No. 299 M. W., dated 27th November 1889, laying stress particularly perhaps unduly) upon the condition of the Municipal pipe sewer.

The Sanitary Commissioner, before the Committee of which he was a member had concluded its labours, had independently submitted to Government a sensational report upon the sewerage of the City, and it,

together with subsequent letters, was communicated to the Corporation under letter No. 1215B, dated 3rd December 1889, from the Under Secretary to Government, Public Works Department.

The several reports and resolutions had so alarmed the public (always ready to be alarmed in questions of drainage) that the wildest rumours gained credence, and had only to be refuted to give rise to wilder and more fallacious ideas.

The Commissioner, under these circumstances, deemed it expedient to seek the advice of a drainage expert of unquestionable eminence and authority in his profession, the more particularly as the extension of the drainage system to Colaba and to the northern parts of the island was pressing for a decision.

The Acting Executive Engineer strongly urged the selection of Mr. Baldwin Latham, M. INST. C. E., M. I. M. E., F. G. S., F. S. S., F. S. I., &c., President of the Royal Meteorological Society, in preference to other Engineers who were named, and Mr. Latham arrived in Bombay on the 13th January 1890.

He immediately proceeded to investigate, in a thorough and most exhaustive manner, the meteorological and tidal conditions of Bombay, its configuration in every respect, and its sewerage and drainage systems, and ultimately framed an elaborate report on the subject.

The report having been submitted to the Commissioner only on 13th March and not published during the year under review, does not present itself for comment in this Annual Report, though it may be briefly mentioned that Mr. Latham effectually disposes of the most serious allegations made against the sewers and sewerage system in the latter part of 1889.

Pending the receipt and adoption of Mr. Latham's report, no alterations were made in the Marine Lines pipe sewer or in the ventilation of the same.

(b)—Ventilating Shafts in the District generally.

Messrs. Fakirji Pestanji & Co. have erected seven metal vent shafts at a cost of Rs. 1,656-8-6. The additional masonry shafts are to be taken in hand as soon as the next fair season begins.

(c)—Pipe Sewers and House Connections.

Contractors—MESSRS. BULKLEY & CO.

All the trunk pipe sewers have been completed except a few stretches to which the representatives of the Bhora community have at present objected.

Nineteen vent shafts have been erected.

Good progress has been made in the house connection work, and there is no reason why the whole work should not be completed within the contract time.

The following statement gives the quantities and value of work done to the end of the financial year:—

No. of item.	Particulars.	Rate.	Per	Work done to the end of 1888-89.		Work done during 1889-90.		Total work done to the end of 1889-90.

3.—SEWERAGE OF KAMATIPURA.

House Sullage Water Connections.

The work mentioned in the last Annual Report has been completed except only as regards the water connections to seven flushing tanks.

The accounts have not yet been adjusted.

4.—OVOID SEWER FROM THE CRAWFORD MARKETS TO THE TOWN HALL.

Contractors—MESSRS. FAKIR MUHAMAD BABUNBHAI & Co.

Eight vent shafts have been erected, the greatest number for which suitable buildings could be found.

Another shaft intended to be erected at the Town Hall was abandoned owing to the objections of the officers in charge.

The cost of the work executed in the vent shafts was Rs. 1,540.

5.—AGRIPADA DISTRICT.

(a).—Pipe Sewers and House Branches.

Contractors—MESSRS. FAKIR MUHAMAD BABUNBHAI & Co.

The arbitrator, Mr. W. Clerke, M. INST. C. E., Executive Engineer, Tansa Water Works, entered on the 24th March 1890 upon an investigation into the claims of the contractors against the Municipality and made his award on the 9th April.

The effect of the award was that the contractors were to be paid a sum of Rs. 3,472 in addition to what had been awarded them by the late Mr. Forde.

The total cost of the whole work amounts therefore to Rs. 94,564.

(b).—House Connections.

Tenders receivable on the 18th August 1890 have been invited with a view to the work being commenced in October 1890.

(c).—Bridge over Open Drain.

A substantial masonry bridge in the line of the Health Department road to the east of and parallel with the open main drain has been built over the Agripada open drain and an improved connection made between the two drains. The work was carried out by the petty works contractors.

6.—(a).—SEWERAGE OF THE FORT (PIPE SEWERS).

Contractors—MESSRS. FAKIR MUHAMAD BABUNBHAI & Co.

The work has been continued departmentally. It is very laborious owing to the difficulty of tracing the exit of old drains which run

beneath buildings in various directions. It is only by examining the street drains over and over again and following up every small stream of sewage to its source that the old house drains can be found.

The value of work executed since the last report is Rs. 8,380-15-1.

(*b*).—*Ventilation of Pipe Sewers in Government Roads on the Esplanade.*

Contractors—MESSRS. FAKIRJI PESTANJI & Co.

The seven ventilating shafts have been erected at a cost of Rs. 2,966-14-4. The amount deposited for the work by Government being Rs. 3,403, a balance of Rs. 436-1-8 was refunded.

7.—PIPE SEWER AND BRANCH PIPE-DRAINS IN BELLASIS ROAD, FORAS ROAD, AND GILDER STREET.

Contractors—MESSRS. FAKIR MUHAMAD BABUNBHAI & Co.

The whole of the work has been completed. In Bellasis Road, the pipe sewer being on the south side, branch pipes have been laid from the manholes across the large stormwater drain to manholes built on the north side of the road. As the manholes are not more than 200 feet apart all the premises are brought within 100 feet of some part of the pipe sewer.

The quantities and cost are as follows :—

Quantities.	Particulars.	Rate.	Per	Amount.
		Rs.		Rs.
100,524·64 c. ft.	General excavation, including filling in	3·750	100 c. ft.	3,769·674
5,686·61 „	Rock excavation, including filling in	6·000	„	341·196
1,896·33 „	Brick-work in hydraulic mortar in manholes, including plastering outside and pointing inside with cement and sand (1 to 1)	65·000	„	1,233·914
552 „	Cement concrete	70·000	„	386·400
11·262 „	Cement and sand filleting to mouth of manholes	5·000	c. ft.	56·310
592·20 s. ft.	Render in cement and sand (1 to 1) ½″ thick	12·000	100 s. ft.	71·64
4,332·06 r. ft.	9″ Stoneware pipe laid complete	1·000	r. ft.	4,332·060
89·00 No.	9″ × 6″ Stoneware junctions laid complete	3·625	each.	322·625
91·00 „	Earthenware disk plugs for sockets of 6″ and 4″ stoneware pipes, including mortar fillets	10·000	100	9·100
27·00 „	Cast-iron circular frames for manholes bedded in hydraulic mortar and fixed complete	18·000	each.	486·000
27·00 „	Cast-iron circular covers for manholes with small cast slides below keyholes	13·000	„	351·000
84·00 „	Step irons for manholes fixed complete	7·500	dozen.	52·500
	Total...Rs.			11,411·843

8.—STORM-WATER DRAIN FROM PAREL ROAD (AT JUNCTION OF BELLASIS ROAD) TO SHEPHERD ROAD, AND A STORM-WATER DRAIN ALONG A PORTION OF RIPON ROAD, TOGETHER WITH WATER ENTRANCES AND MANHOLES TO BOTH DRAINS.

Contractors—MESSRS. BHOMAJI SHIVAJI & Co.

The contractors satisfactorily completed the drain, manholes and water entrances in Ripon Road, but were dilatory in respect of the work in Parel Road.

An extension of two months beyond the contract time was given them, and as they failed to finish the work within that extended time, it was taken out of their hands and carried on to completion departmentally.

The quantities and cost of the work were as follows :—

Quantity.	Particulars.	Rate.	Per	Amount.
		Rs. a. p.		Rs. a. p.
194,583·68 c. ft.	General excavation, including filling in, &c.	2 0 0	100 c. ft.	3,891 10 9
12,935·72 „	Rock excavation, &c.	9 0 0	„	1,164 3 5

27·00 „	Do. covers	16 0 0	„	432 0 0
54·00 „	Step-irons complete	9 0 0	dozen.	40 8 0
	Total Rs...			26,859 10 5

9.—NIGHT-SOIL DEPÔTS ON DELISLE ROAD.

Owing to the protest of the G. I. P. Railway Company, the proposal to construct a depôt on the site selected at the south end of De Lisle Road was abandoned.

The foundations for the depôt near the junction of De Lisle Road and Carroll Road were completed by Messrs. Fakirji Pestanji & Co. in September 1889, but it was pointed out to the Commissioner that the balance of the grant intended for the depôt at the south end of the road was not sufficient to complete the work, and sanction to proceed was not given.

10.—SEWERAGE OF THE PAREL, MAZAGON, AND UMARKHADI DISTRICT.

Plans and estimates of the work were submitted to the Commissioner under report No. D-12698, dated 23rd December 1889, but before the matter could receive the attention required, it was decided to obtain the advice of Mr. Baldwin Latham on the sewerage of Bombay generally, and the subject was set aside pending the receipt of his report.

11.—SEWERAGE OF COLABA.

From data supplied by Mr. Ault, of the firm of Shone and Ault, new plans, sections and estimates were prepared for the sewerage of Colaba on the Shone system, and submitted to the Commissioner under report No. D-9358, of 14th October 1889.

The estimated cost amounted to Rs. 8,02,538 as against Rs. 6,38,725 for the scheme described in the last administration report.

The matter was submitted to Mr. Latham for consideration.

12.—SEWERAGE OF FRERE ROAD.

Contractors—MESSRS. RAHIMTULA BHAIJIBHAI & CO.

New tenders were invited and that of the above contractors was accepted on the 30th October 1889.

The contract was signed on the 10th of December 1889.

Fair progress has been made in the work.

The quantities and cost of the work will be given in the Administration Report for the next financial year.

13.—LATRINES AND URINALS.

The amount of the single tender received for the erection of six latrines in different localities being higher than the office estimate by Rs. 4,647, it was decided, on 30th September 1889, to entrust the work to the petty works contractors, though, as the cost at their schedule rates showed an excess of Rs. 3,564, it was determined in consultation with the Health Officer to postpone the construction of the latrine marked (*c*) in the list below.

The following are the particulars and localities of the six latrines above referred to :—

(*a.*) One 8-chamber latrine and a 2-chamber urinal at the junction of Old Nagpada Street and Jakaria Masjid Street.

(*b.*) One 12-chamber latrine at Khara Talao.

(*c.*) One 8-chamber latrine at the Arthur Crawford Market.

(*d.*) One 4-chamber latrine and a 3-chamber urinal at Haines Road below Byculla Bridge.

(*e.*) One 8-chamber latrine and a 4-chamber urinal at the Mumbadevi Carriage Stand.

(*f.*) One 8-chamber latrine at Valpakhadi.

The latrines marked (*b*) and (*f*) are in fair progress, but the work of the three marked respectively (*a*), (*d*) and (*e*) has been stopped, as objections have been taken to the proposed sites.

14.—CARNAC BUNDER NIGHT SOIL STATION.

The station has been worked well, and the budgetted allowance for coal, stores, &c., has not been exceeded. The engine and other machinery were kept in good working order.

The salt water tanks having been enlarged and rebuilt, and foot-valves having been placed at the bottom of the eastern approach to Carnac Bridge, the supply of salt water for flushing purposes has been greatly improved.

The final accounts for rebuilding the tank which was completed in 1888-89 were adjusted during the year, and show a saving of Rs. 248-8-8 on the sanctioned grant of Rs. 2,250; the cost having been Rs. 2,001-7-4.

The work of placing the new footvalves was executed by the Work-shops and the final accounts are being adjusted.

The works recommended by the Committee appointed by Government for the purpose of considering means to be adopted for the removal of the nuisance from the station as experienced in the Native Infantry Lines, were completed satisfactorily during the year. The cost as compared with the sanctioned amounts was as follows :—

Description of work.	Sanctioned Amount.	Expenditure.	Remarks.
	Rs. a. p.	Rs. a. p.	
(*a.*) Masonry ventilating shaft	340 4 0	285 10 4	
(*b.*) Raising wall between the Infantry Lines and the night-soil station ...	1,010 4 0	1,010 0 0	
(*c.*) Gas pipes and jets	22 0 0	19 3 10	
(*d.*) Planting trees	148 8 0	133 11 8	
Total Rs....	1,521 0 0	1,448 9 10	

15.—DRAINAGE SLUICES.

The sluices and penstocks at the following places have been in charge of this department :—

(*a.*) Dharavi.
(*b.*) Warli.
(*c.*) Love Grove.
(*d.*) Flats.
(*e.*) Bellasis Bridge.
(*f.*) Queen's Road.
(*g.*) Carnac Road.
(*h.*) Mint Road.

They have been satisfactorily worked by the usual staff and at a cost within the budgetted allowance.

The renewal of some of the doors at Dharavi and Love Grove was postponed, but the grant provided for this work has been included in the list of lapsed grants to be renewed for the ensuing year during which the work will be undertaken.

16.—MISCELLANEOUS DRAINAGE.

The several miscellaneous drainage works (consisting of repairs and alterations, and the construction, cleaning and flushing of sewers and drains), the supervision of the erection of latrines and urinals, and the superintendence of the drainage connections of new houses have been carried out under the usual arrangements.

As shown in the following statement the undermentioned notices, 310 in number, were served on house-owners for not complying with the requirements of Sections of the Municipal Act :—

Section of the Municipal Act.	Total number issued.	Complied with.	Not complied with.
231	121	28	93
232	68	9	59
234	29	6	23
243	1	1	.....
257	86	35	51
258	5	1	4
	310	80	230

On the failure of house-owners to comply with notices, proceedings were taken against them in the Police Courts. In some cases as many as five summonses and in a few instances even more had to be issued before they were finally disposed of by the Presidency Magistrates. The following statement shows the number of summonses taken out and the result :—

Sections of the Municipal Act.	Total number issued.	Number withdrawn on house-owners undertaking to do the work.	Number complied with.	Amount of fines inflicted.			Remarks.
				Rs.	a.	p.	
231	157						
232	20						
234	148						
243	2	59	117	311	0	0	
257	64						
258	21						
358	10						
	422	59	117	311	0	0	

The work done by the Manhole and Sewer Inspection Establishment is shown in the following table :—

Date.		Number of manholes on pipe sewers.	Number of lampholes on pipe sewers.	Manholes on the ovoid sewers.

17.—MISCELLANEOUS DEPARTMENTAL WORKS.

The following is a list of all the Miscellaneous Works carried out departmentally under the supervision of Inspector Baker :—

Consecutive No.	Description of Work.	Amount sanctioned.	Amount expended.	REMARKS.
		Rs. a. p.	Rs. a. p.	
1	Providing marble slabs to fish stalls in the Crawford Market	825 0 0	586 0 10	
2	Extension of Erskine Road Market.	20,042 0 0	14,469 1 1	
3	Decorations at Malabar Hill Reservoir	540 0 0	450 11 6	
4	Erecting Fire Brigade Engineer's quarters at Paedhoni	4,695 0 0	4,076 6 1	
5	Making concrete bottom to the drain at Parel Road near Victoria Gardens	857 0 0	786 14 0	
6	Three flushing chambers at Tardeo.	1,449 0 0	1,388 6 8	
7	Connecting drain from Mr. Lam's chals at Bellasis Bridge ...	287 0 0	255 4 3	
8	Constructing ventilating shaft at Carnac Bunder Night-soil Depôt.	341 0 0	285 10 4	
9	Paving around the Dick's Tank Latrine	258 0 0	392 5 1	
10	Constructing catch-pit at Naigam Road	66 0 0	59 15 5	
11	Repairs to two urinals at the Crawford Markets	144 0 0	121 9 1	
12	Drainage arrangements and paving around the stand pipe in Khetwadi Main Road	367 0 0	267 8 3	
13	Altering the construction of manholes between Parel Road and Bapu Khote Street	278 0 0	276 10 3	
14	Laying 9" pipe drain at Nesbit Road...	45 0 0	33 4 5	
15	Extending the retaining wall at Walkeshwar Road	4,100 0 0	4,088 15 7	
16	Constructing a water entrance and stopping five openings in the Falkland Road Drain, west of Gilder Street	146 0 0	97 0 6	
17	Covering a drain and constructing a portion of storm-water drain in Haines Road	370 0 0	251 0 9	
18	Repairing the ceiling above the staircase in the Albert Museum, Victoria Gardens	125 0 0	93 0 3	
	Carried forward...	31,935 0 0	27,979 12 4	

Consecutive No.	Description of Work.	Amount sanctioned.			Amount expended.			REMARKS.
	Brought forward...	Rs. 34,935	a. 0	p. 0	Rs. 27,979	a. 12	p. 4	
19	Draining the D Ward Stable, Health Department, into the Municipal sewer in Foras Road	989	0	0	837	9	2	
20	Making house sullage water connection to European Pensioners' Home	1,214	0	0	699	4	6	
21	Laying 4" pipe drain and gully trap at dipping well in Matharpakhadi.	9	0	0	5	10	6	
22	Closing the east entrance to the Malabar Hill distributing basin...	309	12	9	453	9	9	
23	Removing the kachcha drain and constructing a pakka one at Matharpakhadi	401	0	0	292	5	5	
24	Constructing two manholes in Grant Road on account of the B. B. & C. I. Railway Company	155	0	0	129	6	7	
25	Repairing the arch of the drain in Erskine Road	16	0	0	14	7	7	
26	Repairing drain across Queen'sRoad	211	7	0	211	7	0	
27	Constructing 9" pipe line with 2 manholes in Tardeo Road ...	1,191	0	0	748	3	1	
28	Making drainage arrangements at the stand-pipe near the Gokaldas Tejpal Hospital	116	0	0	91	6	6	
29	Repairing 15" pipe sewer in Marine Lines...	810	0	0	752	2	3	
30	Constructing open drain at the Fountain on the Hornby Vellard.	42	0	0	20	15	10	
31	Constructing a boundary wall at Municipal Workshops	279	0	0	278	7	3	
32	Erecting ventilator at Mr. Shapurji Bhedwar's premises,Gawalia Tank Road...	128	0	0	93	9	2	
33	Cleaning the old open main drain from Bellasis Bridge to Clerk Road...	1,431	0	0	1,308	11	9	
34	Painting the Crawford Markets ...	3,500	0	0	5,040	5	7	
35	Constructing 6" pipe drain in Lohar Street	254	0	0	229	1	10	
36	Repairing the plastered ceiling in the Albert Museum, Victoria Gardens	20	0	0	17	5	5	
37	Drainage works at the premises of Mr. Dorabji Hormasji in Grant Road...	240	0	0	219	8	0	
	Carried forward...	46,251	3	9	39,423	5	6

19.—STORES DEPÔT AT BELLASIS BRIDGE.

(a)—Stoneware.

The supply of stoneware pipes and specials required for the Queen's Road and Girgam Sewerage Works was continued by Messrs. Richardson and Cruddas, under their contract, dated 10th January 1889.

The goods were all of Messrs. Doulton & Co.'s manufacture, and satisfactorily stood the tests applied.

The value of the pipes and specials supplied to the stores during the year was Rs. 60,984-5-6, and of those issued therefrom and from the stock Rs. 95,812-7-0.

(b)—Cast Iron and Zinc Fittings.

The supply of fittings (iron and zinc) required for the sewerage works in the Queen's Road and Girgam District was continued by Messrs. Walsh, Lovett & Co., under the two contracts, dated 24th September 1888.

Several other fittings and castings of various kinds were obtained from Messrs. Richardson and Cruddas, the supply contractors for the year.

The total value of fittings received into the stores was Rs. 68,942-15-2, and of those issued therefrom Rs. 46,856-2-4.

(c)—Cement.

Tenders for the supply of 3,000 casks of cement were advertised for in November 1889. Three tenders were received, and that of Messrs. Warden & Co. was accepted under the Standing Committee's Resolution No. 5568, dated the 23rd December 1889. The rate was Rs. 9-4-0 per cask of 3½ cwts. nett against the rate of Rs. 8-11-0 paid in the previous year.

The value of cement received during the year was Rs. 11,439-10-8, and of that issued Rs. 19,314-12-0.

The following summary of the totals of the Statements marked A, B, C and D respectively, which have been separately furnished, shows that the value of the stores in hand at the commencement of the year was Rs. 4,22,417-8-0, and the receipts and issues during the year amounted respectively to Rs. 1,41,366-15-4 and Rs. 1,61,983-5-4. The value of the stock in hand at the close of the year was Rs. 3,84,063-14-10.

It is desirable that either a portion of the Depôt should be securely fenced in, or a shed of corrugated iron be erected to ensure the safe custody of the numerous small articles which might be easily carried away.

SUMMARY.

No.	Particulars.	Value of stock in hand on 1st March 1889.	Value of receipts during 1889-1890.	Total of columns 3 and 4.	Value of issues during 1889-1890.	Value of stock in hand on 1st March 1890.	Remarks.

B.—WATER WORKS.

1.—General.

THE VEHAR LAKE AND DEPENDENT WORKS.

Rainfall, 1889.

1. The first light showers fell on the 24th and 25th May, but no heavy rain until the 25th June. The total rainfall for the year 1889 was 85·24 inches, or 4 per cent. above the average. The net monsoon collection, *i.e.*, the increase in quantity stored on the 31st October over that on the 31st May was 3,186 millions of gallons. As this was, however, less by 470 millions than the loss in the preceding fair season, the water level on the 31st October 1889 was 1·75 feet lower than on the 31st October 1888. The level on Town Hall Datum was 255·40. The Lake has only been 3 times so low in previous years. These were :—

1871	250·30
1872	253·80
1882	253·90

These circumstances led to the sanction of the Pawai Works referred to later on.

Table No. 1 gives the rainfall at, and height of water in, the Lake during the year 1889.

2. **Concrete Trench in Vehar Waste Weir.**

Estimated Cost ... ... **Rs. 35,000 (Loan).**

Sanctioned by the Town Council ... ... **8th December 1887.**

„ Corporation ... ... **26th January 1888.**

Acceptance of Tender for 1st Section approved by the Town Council ... ... **8th February 1888.**

Amount of Tender, 1st Section ... ... **Rs. 21,103·18.**

Contractors—Messrs. Hirji and Raoji.

Work commenced ... ... **16th February 1888.**

„ completed ... ... **9th August 1888.**

Cost, 1st Section—Paid to Contractors ... ... Rs. 17,513 13 10

Rs. 18,535 7 2

Acceptance of Tender for 2nd Section approved by Standing Committee... 1st May 1889.
Amount of Tender ... ... Rs. 13,618-0-0.
Contractors—Messrs. Hirji and Raoji.
Work commenced... ... ... 12th March 1889.
„ completed ... ... 28th August 1889.

Cost 2nd Section—Paid to Contractors ...	... Rs.	11,837	13	4
Printing and advertising	... „	25	0	0
Supervision	... „	118	1	0
	Rs.	11,980	14	4
Total cost of work	...Rs.	30,516	5	6

The object of this work was to stop the leakage of one and a quarter millions of gallons per day which took place when the Lake was full. How far the work has succeeded in its object cannot be finally determined until favourable rainfalls or reduced draw off raise the water level in the Lake to the Waste Boards again. So far as the water has recently risen the gaugings shew the leakage to have been much reduced.

Catchwater Channels.

3. The Catchwater Channel on the west side of the Lake referred to in last year's report as not completed on the 31st March 1889, was completed on the 22nd April 1889.

Alterations to Bungalow.

4. The alterations to the Bungalow were completed on the 20th May 1889.

Conservancy.

5. The sanitary condition of the Lake's gathering ground has continued to receive attention. Action was necessary in two cases under the provisions of the Municipal Act, to secure the removal of temporary huts erected. As far as practicable the decaying vegetation on the margins of the Lake has been burned.

Pawai Works.

6. The gradual fall in the water level of the Vehar Lake, combined with difficulties in connection with the speedy completion of the Tansa Duct led to considerations of how to avoid such a deficiency in the supply during 1891 and 1892, as would involve severe suffering as well as pecuniary loss. The result was the adoption *nem. con.* by the Corporation on the 25th November 1889, of the Pawai Scheme. The papers have been separately printed. In brief the works comprise the construction of two Masonry Dams, one across the Pawai Nallah and the other across the Goper River about one mile below Vehar Lake. The provision of pumping plant for 8 millions of gallons in 24 hours and the laying of the necessary mains, 48″ and 27″ diameter, for the discharging of the water into the existing Vehar mains. The works were to be completed in June 1890, and favourable progress had been made up to the close of the year under report.

Estimated cost of Works (exclusive of Land)	**Rs. 4,55,000 0 0**
Sanctioned by Standing Committee ...	**20th Nov. 1889.**
,, Corporation	**25th Nov. 1889.**
Amounts of Tenders for	
1. Engines and Boilers—Messrs. Simpson and Co., London ...	**£ 5,900**
2. Erection of Boilers and Houses—Messrs. Richardson and Cruddas, Bombay	**Rs. 43,900 0 0**
3. Construction of Pawai Dam—Messrs. Hirji and Raoji ...	**Rs. 66,308 0 0**
4. Pipe Laying and raising Pawai Road—Messrs. Framji and Jivanji	**Rs. 26,450 0 0**

The works will be more fully described in the report for the current year, none of the contracts being completed in the year under report.

Bhandarwada Reservoir.

7. In the Budget for 1890-91, passed at the end of the year provision is made for commencing the works for the reduction of leakage, but the actual work was not commenced in the year under report.

TULSI LAKE AND DEPENDENT WORKS.

Rainfall and supply.

8. Table No. 2 gives the rainfall at and height of water in the Lake during 1889. The supply to the City was restricted by about 20 per cent. from the close of the monsoon until after the end of the year under report.

Catchwater channel.

9. The Catchwater Channel on the western side of the Lake was completed so far as to be available for the rains of 1889, and has been quite completed subsequently, so far as the works for an Earthern Channel as sanctioned are concerned.

Estimated cost...			**...Rs. 20,000 (Loan).**
Sanctioned by the Town Council			**...19th December 1888.**
,, ,, Corporation			**... 7th January 1889.**

Leakage at Waste Weir.

10. The concrete trench at each side of the Waste Weir was practically completed in June 1890, and has effected the object of its provision, the leakage from the wing walls being prevented thereby.

ROY OF T BOM BRAI

Malabar Hill Reservoir.

11. On the 26th June 1889, the Standing Committee recommended the Corporation to sanction a loan of one lakh of rupees for the improvements at this Reservoir and on the 8th July the Corporation accorded its sanction. The works provided for are :—

Providing an asphalte or concrete surface to the floor of the settling basin	Rs.	75,000	0 0
Provision of turbine, overflow and sludge pipes...	„	11,500	0 0
Provision of cushions for outlets of fitters ...	„	9,800	0 0
Repointing walls of distributing basin...	„	1,630	0 0
Total ...	Rs.	97,930	0 0

The Standing Committee approved on the 6th November 1889, the acceptance of the Tender of the Limmer Asphalte Company, Limited, London, for the supply of asphalte required, and the materials were despatched from England before the close of the year. A portion of the walls were injected from the outside with Portland Cement grout under pressure, and this succeeded in stopping the leakage from the portions of the wall treated. The work was in progress at the close of the year under report.

DISTRIBUTION.

New connections.

12. Table No. 3 gives the particulars of the new water connections made during the year. The total was 978. There were 178 disconnections. The net increase being 800. The total number of connections at the close of the year was 16,898, the increase during the year was 5 per centum of the whole number. As each connection takes on the average about 1000 gallons per day, the increased demand for new connections is about ¾ of a million gallons per day.

Meter supplies.

13. Table No. 4 gives the particulars of meters in use on the 31st March 1890. The total number was 1193, an increase of 73 during the year. Tables Nos. 5 and 6 give the particulars of the water supplied. In 1889, 865 millions of gallons were passed through meters against 796 millions of gallons in the preceding year, an increase of 1,88,000 gallons per day.

Public supplies.

14. The number of supplies on the 31st March 1890 was 174 against 169 in the preceding year. The details are shown in table No. 7. The new supplies added during the year were—

1. Fountain at Wadala, Matunga, built by Mr. Anandrao Raoji.
2. Fountain at Naigam erected by Mr. H. L. Batliwalla.
3. Cattle trough at Kala Chowki Road by Bai Hirabai Jamsetji Tata.

Notices issued.

15. The number of notices issued during the year was 4,063, an increase of 171 over those of the preceding year. Table Nos. 8 and 9 give the details. From table No. 9 it will be seen that although it was necessary to apply to

the Standing Committee for sanction to disconnect pipes for non-compliance with notices in 469 cases, it was only necessary to carry out the sanctions in 55 cases.

Correspondence.

16. The comparative statement of correspondence for the 3 years, 1887-88, 1888-89, 1889-90 is :—

	1887-88.	1888-89.	1889-90.
Inward Letters	6,135	6,282	6,993
Outward do.	5,601	6,386	7,422
Total ...	11,736	12,668	14,415
Letters sent to Inspectors for report ...	4,596	3,929	4,425
Do. received from Inspectors with report	4,596	3,963	4,475
Total ...	9,192	7,892	8,900
Grand Total ...	20,928	20,560	23,315

Waste Prevention.

17. The work has been kept up during the year. As proposed in earlier reports on the subject, dials have been substituted for clocks and drums ; it is anticipated that this change will secure economy without loss of efficiency. Table No. 10 gives the particulars of readings registered during the year under the old system. Regulations to secure better fittings and compulsory testing of them came into force during the year. Copies are appended.

Bursts repaired.

18. The repairs during the year have been as follows :—

Size of Main.	No. of Bursts.
2"	2
3"	65
4"	25
5"	1
6"	8
9"	1
12"	1
24"	3
26"	1
27"	1

None of these bursts caused any inconvenience in the water supply to the City.

STOCK.

Valuation.

19. The valuation on the 28th February 1890 showed a very favourable result, but this is mainly due to the very heavy advances in the price of iron at home, which necessitated an advance in prices here. The value of the

stock on the 28th February 1889 was Rs. 3,38,105-1-9. The receipts during the year aggregated Rs. 64,826-14-1, and the issues Rs. 53,869-4-5. The value of stock on the 28th February 1890 was Rs. 4,42,084-11-1. The profit for the year was Rs. 93,021-15-8.

REVENUE AND EXPENDITURE.

Receipts.

20. The Revenue for the year shews again a very satisfactory increase. This is partly due to the more general levy of water rate under Section 141 *b* of the Act of 1888.

The Revenue and Expenditure for the past 10 years have been as follow :—

	Revenue.	Expenditure.	Surplus or Deficit.	REMARKS.
	Rs.	Rs.	Rs.	
1880	3,90,703	4,38,981	—48,278	
1881	5,24,819	4,64,704	+60,115	
1882-83 15 months.	6,70,677	7,35,288	—64,611	Expense includes payments for Sinking Fund from 1882.
1883-84	5,47,647	5,36,118	+11,529	
1884-85	5,96,123	6,54,694	—58,571	
1885-86	6,65,370	6,71,190	—5,820	Water rate made uniformly 4 per cent.
1886-87	7,74,651	8,30,790	—56,139	
1887-88	8,83,724	18,83,045	—9,99,321	Expense includes Tansa Sinking Fund and interest payments for 2 years.
1888-89	9,64,634	12,84,191	—3,19,557	Do. for 1 year.
1889-90	11,23,006	12,10,641	—87,635	

NEW WORKS.

New works sanctioned.

21. The new works sanctioned to be undertaken in the current year are :—

Improvements at Malabar Hill Reservoir...	Rs. 1,00,000
Do. Bhandarwada Reservoir.	„ 76,500
Pawai (Works only)	„ 4,55,000
New Mains	„ 1,00,000
Telephonic communication with Vehar ...	„ 12,000

New works still required.

22. The question of providing additional filters is still under discussion, and is the principal one remaining for disposal with regard to the present supplies from Vehar and Tulsi. The question of the further improvements at the reservoirs is to be considered when the results of the works sanctioned are ascertained.

Table No. 1.

Regulations as to Fittings.

I.—Under section 274 (2) of the City of Bombay Municipal Act, 1888, the size, material, quality and description of the pipes, taps, and other fittings to be employed for the purpose of any connection with or communication from any Municipal Water Work, are prescribed to be as follows :—

1. Each bib and private stop tap shall be screw-down of the loose valve and stuffing box pattern and shall bear a pressure of 300 lbs. to the square inch. The metal must be best gunmetal, and of the best workmanship, both inside and outside.

2. A public stop tap must be affixed to each service pipe and must be a plug tap of the Bombay pattern now in use and of the quality of metal (except for loose caps) and workmanship above prescribed for bib taps.

3. Each ball tap must close off the water at a pressure of 100 lbs. per square inch when the ball is immersed to three-fifths of its diameter.

4. Galvanized wrought-iron, cast-iron, and lead service pipes shall bear a pressure of 150 lbs. to the square inch.

5. Lead pipe shall weigh per one foot in length not less than—

$\frac{3}{8}$	inch diameter	...	...	$1\frac{1}{2}$ lbs.
$\frac{1}{2}$	" "	...	...	2 "
$\frac{6}{8}$	" "	...	...	3 "
$\frac{3}{4}$	" "	...	...	$3\frac{1}{2}$ "
1	" "	...	...	4 "
$1\frac{1}{4}$	" "	...	...	6 "
$1\frac{1}{2}$	" "	...	...	8 "

II.—The fact of any fitting or pipe being stamped by the testing office of the Bombay, Liverpool, Manchester, Birmingham, or Glasgow Municipal Corporation will alone be accepted *primâ facie* as conclusive evidence of approved material, quality and description.

III.—Samples of approved fittings and service pipes may be seen at the Water Works Stores, DeLisle Road, Chinchpokli.

IV.—Approved fittings and service pipes will be sold from the Water Works Stores at rates fixed from time to time by the Standing Committee. Particulars of these rates can be obtained upon application to the Deputy Executive Engineer, Water Works, at the Municipal Office.

Testing Fees.

On and after the 1st January 1890, the following charges will be payable in advance at the Municipal Office for water fittings sent to the Water Works Stores, DeLisle Road, Chinchpokli, to be tested and stamped :—

		Revised scale sanctioned by the Municipal Commissioner under his No. 1124, dated 19th April 1890, and came in force on 1st May 1890.
Stop ferrules, all sizes	2 annas each.	
Stop taps do.	2 „ „	
Bib taps do.	2 „ „	
Ball valves do.	3 „ „	
Water closet cisterns, all sizes ...	3 „ „	
Do. with ball valves, all sizes.	6 „ „	
Spring taps do. ...	2 „ „	
Lead or galvanized wrought-iron piping, per length	1 anna.	½ anna per length.
Wrought-iron galvanized bends, elbows, tees, coupling, reducing couplings, checknuts, cast-iron plugs and wrought-iron plugs...	½ „ each.	Free.
Cast-iron pipes, 3", 4", and 5" diameter ...	4 „ „	2 annas each.
Do. 6" diameter and over	Rs. 3 per ton	
Special castings	6 annas each.	2 annas each.
Fire hydrants	6 „ „	
Sluice valves up to and including 6" diameter	4 „ „	
Do. over 6" diameter ...	8 „ „	
Stop-cock and hydrant boxes ...	2 „ „	½ anna each.

B.—WATER WORKS.

2—Tansa Works.

(1) *Works at Tansa.*

THE progress made with the dam works during the year was very satisfactory. Owing to the approach of the monsoon, masonry work was suspended in the beginning of June, and it was resumed early in October. The total quantity of masonry which had been executed at the commencement of the year, was 4,405,875 c.ft., and at the close of the year it was 7,509,564, making the outturn for the year 3,103,689 c.ft., which is nearly 50 per cent. in excess of the outturn of the previous year. The average outturn per month for the last three months of the year (January, February and March) was over 520,000 c.ft. The excavations for the foundations were not completed by the end of the year, but it is believed that the most serious difficulties have been overcome. As has already been reported, there will be considerable excesses on the estimate for the dam, due to this cause. The accompanying statement, Appendix **A**, shows the progress made on the dam works from the commencement of the works to the end of the year. At the commencement of the year (1st April 1889) the water in the lake stood at R. L. 339·40, at the beginning of the monsoon it stood at R. L. 337·55, and at the end of the monsoon it stood at R. L. 357·27, which gives a depth of 67 feet against the water-face of the dam in the bed of the river. The rainfall of the year was gauged at the dam site and gave a total of 97·37 inches. The average of the previous four years is 104·82 inches, and the average of the five years, including 1889, is 103·33 inches. The flood waters of last monsoon were passed over a portion of the dam to the south of the conical hill, the arrangements for which were referred to in last year's report. The escape acted efficiently, but the action of the falling water detached several large blocks of basalt, some of which in place of passing down by the excavated channel into the river, were carried by the water along the toe of the dam where their action is clearly visible. They did not, however, injuriously affect the dam. The flood water of next monsoon will be passed off to the south of the river over a portion of the dam which will eventually form part of the regular escape or waste weir. This will require special arrangements which are now being carried out.

(2) *Duct Works.*

At the re-opening of the working season, in October 1889, the contractors raised certain questions as to their being bound to their time for completion owing to certain alleged excesses in quantities, &c., &c. Matters were arranged in January by the Corporation, and the contractors entering into a supplemental contract, which provisionally extends the time for completion to the 1st of March 1892, and which gives enhanced rates for certain items of work. While the negotiations were in progress, the works were pushed on with vigour, and the

progress made during the year has been very good. At the commencement of the year, works to the value of Rs. 16,40,000 had been executed, and at the end of the year the value of work done, was Rs. 32,60,000, making the total value of the outturn of work for the year Rs. 16,20,000. The Bassein Creek bridges were completed during the year. It was found advisable to substitute an extension of bridgework for the heavy bank on the north end of bridge No. 3. The cylinders for the extension had all been sunk and the erection of the superstructure was in progress at the end of the year. The total length of tunnelling executed during the year was 7,500 l.ft., making the total length of tunnelling done to the end of the year, 13,700 l.ft. In finally locating the works, it has been found expedient in several places to substitute tunnels for conduits where they were originally proposed. The total length of tunnels will now be about 23,000 l.ft. The greater part of the 48" pipe on siphon tracks Nos. 5 and 6 has been laid, and the pipes are being carried forward for the other siphons. The accompanying statement, Appendix **B**, shows the progress made on the duct works from the commencement of the works to the end of the year. The enhancement in rates referred to above, the substitution of tunnels for conduits on places, and the extension of Bassein Creek bridge No. 3 will cause considerable excesses on the estimated cost of the work.

(3) *Cast-iron Pipes.*

The reports of the Testing Officer show that 43,000 tons have been tested and passed at home up to the end of the year. Of these 40,000 tons have been delivered on the works. The accompanying statement, Appendix **C**, shows the progress made as compared with the whole pipe contract.

(4) *Land Acquisition.*

The whole of the land for the lake and the quarter part of that for the duct has been acquired. Some of the properties in Salsette referred to in previous reports have not yet been settled for.

(5) *Surveys.*

Surveys from the end of the duct, at Ghat-Kopar into Bombay, have been in progress, and the location of the pipe line has been determined on.

(6) *Health.*

There, happily, has been no serious outbreak of cholera on any part of the works this year. There has been a good deal of malarious fever in the whole of the districts. The Municipal staff, the Contractor's staff and the workpeople have suffered a good deal from it. The so-called influenza epidemic which was so prevalent in Bombay in February and March, appeared on the works also, and very appreciably diminished the numbers on the works while it lasted.

APPENDIX C.

STATEMENT showing progress made with Pipe Contract.

Nature of work.	Contractors.	Amount of contract.	Amount of supplies paid for up to end of March 1890.	Amount remaining to be spent.	Date of contract.	Date of completion. *
Supply of pipes, &c.	Messrs. Macfarlane, Strang & Co.	Rs. 37,50,000	Rs. a. p. 30,78,759 3 3	Rs. a. p. 6,71,240 12 9	20th April 1886.	1st Oct. 1889.

* This date does not cover the delivery of pipes as per Schedule C (Clause 19 of the Contract). They are included in the amount shown, and a further period of nine months should be allowed for the delivery of them.

C.—MUNICIPAL BUILDINGS.
Construction and Repairs.

CHINCHPOKLI FIRE BRIGADE STATION.

The contract for the construction of this station was given to Mr. Ardesher Framji, as sanctioned by the Standing Committee under its Resolution No. 7065, dated 6th March 1889, for Rs. 23,099, including 15 per cent. contingencies. The work has now been completed, but as the final certificate will be passed and paid during the current year, the particulars will be given in the next report.

PAIDHONI FIRE BRIGADE STATION.

The construction of this station was sanctioned to be done departmentally at an estimated cost of Rs. 4,695. The work was executed under the supervision of Inspector Mr. Baker. The total cost up to the end of the year under report was Rs.

EXTENSION OF ERSKINE ROAD MARKET.

It having been decided to carry on this work departmentally, the foundations, pavement, masonry, &c. were constructed under the supervision of Inspector Mr. Baker, and the construction and fitting up of the iron work in the superstructure were done by the Municipal Workshop.

The amount sanctioned for this work was Rs.

The actual cost was as under :—

Work done by Mr. Baker	Rs.	14,393	0	0
Do. Municipal Workshops		45,637	0	0
Total Rupees...		60,030	0	0

The original design was partly altered to suit the convenience of the stall holders. There were 175 stalls to be constructed as originally designed, but this number was subsequently increased to 241.

EXTENSION OF MAHALAXMI DHOBIWADA.

This work, which was stopped for reasons explained in the last Administrative Report, was resumed on 1st May 1889. The whole of it was completed in the beginning of March 1890 except the 9" pipe sewer which was delayed on account of the want of pipes. The contract period was up to 31st March, and the contractor was requested to close the work and submit his final bill of cost. The work of the 9" pipe sewer was an extra item and the Commissioner decided under his No. 20567, dated 14th March 1890, that it had better be finished departmentally.

The accounts of the cost of the whole work will be settled in the ensuing year.

METALLING THE YARD OF THE HEALTH DEPARTMENT STABLES IN PALTAN ROAD WITH TARRED ROAD METAL.

This work was sanctioned at an estimated expenditure of Rs. 8,280. The work has been completed and the actual cost was Rs. 6,819.

ADDITIONAL STORY OVER THE PORCH OF THE BANDORA SLAUGHTER HOUSE.

The sanctioned amount for this work was Rs. 1,824-0-0.

The work was entrusted to the Annual Repairs contractors and the amount of their bill was Rs. 1,732.

The following are the detailed quantities of the work done :—

Quantities.	Particulars.	Rate.	Per	Amount.

D.—REGULATIONS OF STREETS AND BUILDINGS.

The number of applications for permission to either build or rebuild during the year under report, amounted to 1,378. Out of these 1,291 were passed, and the remaining 87 were unconditionally disapproved on sanitary or other grounds.

The undermentioned notices, 5,492 in number, were served on house-owners under various sections of the Municipal Act, regarding removal of inflammable materials, building contrary to Municipal requirements, making projections over streets, &c., &c.

Section of Municipal Act.	Particulars.	Number of Notices.
349	To remove inflammable materials in external walls and roof covering	2134
351	To submit plans	510
257	To remove buildings erected contrary to provisions of the Act...	84
353	To remove privies built without permission	173
311	To remove or alter doors or windows opening over the public road	28
231	To provide rain-water troughs and pipes	99
309	To remove old projections	46
308	To remove new projections	193
354	To pull down ruinous houses	335
383	To cut and trim trees	19
315	To remove temporary projections or obstructions	71
229	To fence or enclose wells, tanks and dangerous places	8
488	Of intention to enter houses after 24 hours	1,643
299	Of intention to take possession of land outside buildings for street improvement	75
305	To level, metal, drain and provide lights	75
	Total	5,492

On failure of house-owners to comply with notices, proceedings were taken against them in the Police Courts.

The number of summonses issued for different offences committed under the Act was 454. In 358 of these cases the parties complied with the municipal requirements before service or return of the summonses, and convictions were obtained in the remaining 96 cases.

In 85 of the convictions obtained, the parties were simply warned and discharged by the Magistrates on account of their having carried out the municipal requirements immediately after service of the summonses.

In the remaining 11 cases, fines were inflicted, amounting in all to Rs. 136-4-0.

The following statement shows the different sections of the Act under which offenders were prosecuted and other details of the prosecutions :—

	Total	...		.....		...		64,318	13	4	9,050	15	8	73,369	14	0	

The amount allowed for street improvements was Rs. 1,00,000, and to this sum was added the unexpended balance of the previous year amounting to Rs. 1,24,894-3-3, thus making a total of Rs. 2,24,894-3-3. The total amount actually expended was Rs. 73,369-14-0.

The expenditure of the full amount of the sanctioned grant depends upon the number of set-back cases effected in the year and also upon the number in which terms have been concluded.

The following statements marked 1 to 7 give details of ground taken up and added to streets in each ward during the year under review.

C 1—A Ward.

E.—ROADS.

This Report deals with the above subjects in the following order :—

		Page.
(*a*)	Road repairs	273
(*b*)	Road watering	274
(*c*)	Paving footpaths	274
(*d*)	Steam-rollers	275
(*e*)	New roads—	
	(1) Mahalakshmi Cross Road	276
	(2) Road through Navroji Hill from Elphinstone Bridge to Dongri Street	276
	(3) New Road between Lady Jamsetjee Road and Matunga	276
	(4) Overbridge at Falkland Road	277
(*f*)	Extension of Retaining Wall...	277
(*g*)	Tramway	277

ROAD DEPARTMENT.

The following Statements show the grants allowed for (*a*) Road repairs and (*b*) Road watering, under each of the budget sections, together with the amount actually spent on each section and the savings or excesses under each head.

(*a*)—ROAD REPAIRS.

Statement of Expenditure for 1889-90 of the Road Repairs Grant.

Section.	Heads.	Amount of Grant as Revised.	Expenditure.	Saving.
		Rs.	Rs.	Rs.
1	Purchasing of materials, Road Metal, Sandstone, Kerbstones and Water-tables	1,25,417	1,11,150	14,267
2	Cart-hire and Labour, including Road Scraping	2,05,754	1,80,315	25,439
3	Paving Footpaths	50,000	21,212	28,788
4	Maintenance of Steam-rollers. Carts and share of Persian Wheels	29,808	24,619	5,189
5	Stores and Contingencies	20,402	19,473	929
6	Ground Rent	400	127	273
7	Water-supply to Chowkies at Null Bazar, &c., *plus* rent of Meters	210	77	133
8	Purchase of 4 Steam-rollers	25,000	22,946	2,054
9	Purchase of 9 Carts for liquid Road Scraping	1,485	1,113	372
10	Repairs to Bridges, Culverts and Road-side retaining walls	3,000	43	2,957
11	Tree Guards for road-side trees	3,500	1,721	1,779
	Total for Road Repairs...	4,64,976	3,82,796	82,180

(*b*)—ROAD WATERING.

Statement of Expenditure for 1889-90 of the Road Watering Grant.

Section.	Heads.	Amount of Grant as Revised.	Expenditure.	Saving.
		Rs.	Rs.	Rs.
1	Bullocks and Bhisties	11,850	8,100	3,750
2	Water Carts.....	56,043	51,176	4,867
3	Repairs to Persian Wheels, &c.	3,150	2,024	1,126
4	Proportion, ⅛ of cost of Cart Repairs..	8,820	8,037	783
5	Purchase of new Water Carts.....	2,200	.....	2,200
6	Purchase of new Water Tanks	5,000	333	4,667
	Total for Road Watering...	87,063	69,670	17,393

9 additional carts were made in the Municipal Workshops during the last year at a cost of Rs. 1,113 to facilitate the removal of liquid road scrapings.

(*c*)—PAVING FOOTPATHS.

A sum of Rs. 50,000 was provided for in the Budget Estimates for 1889-90 for this work.

Mr. Fakir Muhamad Babunbhai's tender for the work of paving footpaths with blue stones to the extent of about 110,000 square feet in various parts of the city, being the lowest of 5 tenders received on the 18th July 1889, was accepted under the Standing Committee's Resolution No. 2812, dated 24th July 1889.

The contract for the work was executed on the 13th August 1889, and the work commenced immediately on 15th August 1889.

The following footpaths were thus paved during the course of the year:—

	Square feet.
Duncan Road	17,108·12
Falkland Road	30,127·00

The total amount expended on this work was Rs. 21,212.

The quantities of work done were as follows :—

DUNCAN ROAD.

(1)	Blue stone pavement set on 4" of concrete land and dressed according to specification, including removal of excavated materials...	S. feet	17,108·12
(2)	Blue stone kerbing as per specification.	R. feet.	1,695·50
(*c*)	Blue stone slabs perforated ...	C. feet	16·50

FALKLAND ROAD.

(*a*)	Blue stone pavement set on 4" of concrete land and dressed according to specification, including removal of excavated materials...	S. feet	30,127·00
(2)	Blue stone kerbing as per specification.	R. feet	2,711·00
(3)	Blue stone slabs perforated	C. feet	33·75
(4)	Rubble and lime masonry	C. feet	400·00
(5)	Blue stone slabs, chisel-dressed for drain, covers	C. feet	100·00

Though only Rs. 21,212 appear as the expenditure for the year out of the sanctioned sum, the work included in the whole grant of Rs. 50,000 was however completed, the bills of which will be submitted in the current year.

Notwithstanding the great improvement which the stone pavement has effected in the appearance of the footpaths and in the convenience to those who use them, it is a matter for regret that the majority of foot-passengers still prefer to walk in the middle of the road to the jeopardy of their own lives and to the irritation of drivers of horses.

(*d*)—STEAM-ROLLERS.

The number of steam-rollers at work during the year was 16 : one of 15 tons, one of 12½ tons, 3 of 10 tons and 11 of 8 tons, including 4 new rollers which were purchased at a cost of Rs. 22,946.

The total area of roadway rolled by steam-rollers was 42,91,112 square feet, at a total cost of Rs. 24,619.

(*e*)—NEW ROADS.

1. *Mahalakshmi Cross Road.*

As stated in the report for 1888-89, Rs. 23,000 were sanctioned for this work.

The contract was given to Mr. Bhomaji Shivaji for Rs. 21,935, and the work was commenced on the 15th February 1889.

2. *Road through Naoroji Hill from Elphinstone Bridge to Doongri Street.*

The subject of the construction of this road has been under consideration since 1885, and, as mentioned in my last Annual Report, all efforts to obtain the necessary land from the owners on reasonable terms having failed, it has been decided to acquire the whole of the land under the Land Acquisition Act. The Municipal Commissioner under No. 5018 of the 17th June 1889, requested the Secretary to Government, Revenue Department, to acquire the land under the provisions of the said Act on behalf and at the cost of the Corporation.

Under Section 349 of the City of Bombay Municipal Act, 1888, three notices were issued on the tenants of Mr. Jalbhai Ardesir Sett, the owner of the said land, and in consequence certain correspondence ensued, and he had personal interviews with the Executive Engineer on the subject of the acquisition of the said land. The negotiations were re-opened, but as Mr. Jalbhai would not come to terms, the Municipal Commissioner ultimately wrote to the Collector of Bombay under his No. 1248 of the 24th April last, to acquire the properties under the Land Acquisition Act, and thus the matter stands at present.

3. *New Road between Lady Jamsetjee Road and Matunga.*

The proposal for the construction of this road was originally made in 1883 by the General Traffic Manager of the G. I. P. Railway on the opening of the passenger station at Matunga.

A further representation pointing out the necessity for the construction of this road and the great convenience it would be to the general public having been received from Sir Dinshaw Manekji Petit and other inhabitants of the villages of Naigam, Matunga, Vadala, and Sion, and the owners of properties in that neighbourhood, a survey of the proposed road was sanctioned by the Corporation at an estimated expenditure of Rs. 3,600. The survey was made, and a plan was prepared and submitted to the Municipal Commissioner under No. 13257 of the 7th November 1889.

The lines of the New Road were sanctioned by the Corporation Resolution No. 6867 of the 13th February 1890.

The actual construction of road will be a matter of report for the year 1890-91.

4. *Overbridge at Falkland Road.*

The Government are prepared to sanction the construction of Falkland Road overbridge with a width of 50 feet. Its entire cost to be borne by the B. B. & C. I. Railway Company, but the Municipality to bear cost of acquiring additional land. The 50 feet width of the bridge to be divided as follows :—

The road-way to be 40 feet and a footpath of 5 feet on each side. The gradients of the approaches to be not steeper than 1 in 35. On each side of the bridge, a low-level road, 20 feet wide, to be provided.

(*f*) EXTENSION OF THE RETAINING WALL AT WALKESHWAR ROAD.

1. The sum of Rs. 4,150 was provided for in the Budget under the head of New Works, for the extension of the retaining wall at Walkeshwar. Rs. 3,620 have been spent on this account up to 31st March last.

(*g*) TRAMWAY.

There was no extension of tramway during the year under report.

F.—Lighting.

The gas lighting of the streets was generally as satisfactory as in the previous years. The gas supplied was free from sulphur and other impurities, and its illuminating power and pressure were maintained at the contract strength.

As the contract entered into with the Bombay Gas Company on the 13th August 1875 for lighting the public streets and for supplying gas generally to the Municipality, will expire on the 30th June 1890, a fresh one has been entered into for a further period of three years as sanctioned by the Corporation under their resolution No. 3594 of 10th September 1889. The terms under the new contract are more favourable to the Municipality than those of the old one, and the illuminating power has been increased under the new contract from 12 to 14 candles.

The number of lamps in use at the end of the year was as follows :—

Gas lamps	3,509
Kerosine oil lamps	1,371

The following places have been newly lighted during the year :—

With Gas.	No. of Lamps.
Prince's Dock	30
Victoria Dock	44
Dock Road	12
Fort Street	7
Goa Street	7
Karwar Street	7
Kompta Street	4
Mangalore Street	3
Kalikat Street	4
Cochin Street	5
Balard Road	4
Chawpati Road	3
Wellington Fountain	8
Total...	138

With Kerosine oil.	No. of Lamps.
Bhandarwada Cross Lane	2
Public latrines and urinals	25
Stable Street	6
Khanderao Wadi	2
Parel Back Road	6

The lighting with kerosine oil was not satisfactory, and I had on several occasions to call the contractor's attention to the perfunctory manner in which they carried out their contract.

G.—Workshops.

The value of work charged for during the year under report amounted to ... ...Rs.	1,51,065	15	1
The value of work in hand not completed, was ... „	17,255	0	0

According to the new system introduced since September 1888 all works done at these shops are charged for at actual cost for materials and labour *plus* an uniform percentage of 25 per cent. on these items for supervision, shop charges, repairs to and renewal of machinery &c.

This system appears to work well and is more satisfactory and equitable to all the departments concerned, as under it no exorbitant charges of 100 and 200 per cent above actual cost including proportionate charge for supervision &c., can be made as was the case under the old system when Schedule prices, which were fixed several years ago, and estimated amounts, however high, were permitted to be charged.

The total amount of stores used on all the works performed at the Workshops during the year, including tools and stores for repairs to machinery &c., was ... ...Rs.	92,321	11	2
The amount of labour, establishment for supervision &c., employed during the year, was ... „	72,472	9	4
Total... ...Rs.	1,64,794	4	6
The percentage for supervision, shop charges &c., at 25 per cent. above referred to, on all Departmental and Private works executed, was ... „	30,900	5	3

The actual working expenses of the shops were as under :—

1.	Supervision charges... ... ...Rs.	7,813	0	10
2.	Shop charges ... ... „	15,937	4	5
3.	Purchase of tools and other appliances, Repairs to Workshops Machinery, Engines and Boilers, &c. ... ... „	4,618	3	11
	Total... ...Rs.	28,368	9	2
Against the amount charged at 25 per cent. on account of these expenses as explained above of ...Rs.		30,900	5	3
Leaving a balance in favour of the Workshops of ... „		2,531	12	1

Brought over...	Rs.	2,531	12	1
There was also a sum of ... ... recovered from private parties in excess of the amount of charge according to the new system, for letting out the Municipal Pumping Engine at the fixed rate of Rs. 50 per day of 8 hours.	„	144	11	10
And also a sum of ... ... recovered from the Municipal Stores on account of Brass Castings, Wheels, Felloes, &c. made and delivered into the stores prior to the introduction of the new system, and charged for according to the old system, minus the amounts retrenched from two bills.	„	333	15	9
The sale of unserviceable scrap and surplus stores belonging to the Workshops realized	„	1,120	4	0
The amount recovered on account of Workshops' supervision charges for work done on contractors account	„	198	7	11
Surplus iron castings weighing 63 cwt. 13lbs. at Rs.7 per cwt. delivered into Stores	„	441	13	0
The gross amount therefore in favour of the Workshops account was	Rs.	4,771	0	7

The boilers, engines and machinery generally were kept in a proper state of repairs, and no serious breakdown occurred in either of them.

The Rolling Stock of the Health and Road Departments was kept in good repairs and regularly greased by the Workshops staff as required.

The work turned out at the Brass Foundry was 190 cwts. 24lbs. of castings of the value of Rs. 15,820-9-3 against 49 cwts. 3qrs. 25lbs. valued at Rs. 3,373-6-0 during the year 1888-89. This increase was mainly due to the heavy brass valves and valve frames required for the repairs to the Love Grove Pumping Station.

H.—GENERAL REMARKS.

Contracts, Rights Sold, &c.

The passing of the City of Bombay Municipal Act, 1888, has very materially increased the work of this office, and especially in the correspondence branch.

The following statement gives in a comparative form the number of letters received and disposed of during the past three years :—

Letters.	Years.	General.	Drainage.	Water Works.	Streets and Buildings.	Total.
Inward	1887-88	3,717	10,197	10,731	15,000	39,645
"	1888-89	5,698	17,055	10,245	18,875	51,873
"	1889-90	5,983	18,733	11,468	23,509	59,693
Outward	1887-88	3,857	7,404	10,197	13,299	34,757
"	1888-89	5,836	15,250	10,315	16,927	48,328
"	1889-90	5,949	16,646	11,847	21,561	56,003
Total of Inward and Outward Letters	1887-88	7,574	17,601	20,928	28,299	74,402
	1889-90	11,932	35,379	23,315	45,070	1,15,696

It will thus be seen that the number of letters (inward and outward) have increased in two years only, from 74,402 in 1887-88 to 1,15,696 in 1889-90, the difference being 41,294 or over 55 per cent.

The clerical and record staff therefore is under a constant strain to get through this heavy and daily increasing work and it is with the greatest difficulty they are able to cope with it by working late hours and foregoing Sundays and holidays.

The following list shows the Leases of various Rights for cutting grass, fishing in Municipal tanks &c., sold during the year under report :—

Consecutive No.	Description of Right.	Period for which sold.	Sold to	Amount for which sold.
				Rs. a. p.
1	To cut grass from Municipal land at Vehar.	For the year 1889-90.	Kondaji Hanumantrao.	540 0 0
2	Ditto ditto Tulsi.....	Do.	Nathu Bapu	40 0 0
3	Ditto Vehar and Tulsi pipe-line, &c.	Do.	Gustin Bastio	15 0 0
4	Ditto from pipe-line from Vehar to Bandora.	Do.	Kondaji Hanumantrao.	20 0 0
5	Ditto Bandora to Mahalakshmi.	Do.	Ahmed Ibrahim	61 0 0
6	Ditto Ditto Vehar to Kurla.	Do.	Muhamed Meghji	10 0 0
7	Ditto from Municipal land at Bhandarwada (John Hay Grant) Reservoir.	Do.	Kondaji Hanumantrao.	10 0 0
8	Tapping cocoanut trees in the compound of the D Ward Office, Gamdevi Road, and gathering fruit from them.	From 1st Aug. 1889 to 31st July 1890.	Keshow Daji	70 0 0

Consecutive No.	Description of Right.	Period for which sold.	Sold to	Amount for which sold. Rs. a. p.
9	Tapping date trees on Warli Road and Municipal ground at the Love Grove Pumping Station and palmtrees in the compound of Mr. Varjiwandas Madhavdas' bungalow at Warli.	From 1st Aug. 1889 to 31st July 1890.	Deoji Nagar	11 0 0
10	To cut grass from Municipal ground near the south side foot-path of the Bellasis Road.	For 8 months from 1st Aug. 1889.	Malhari Raoji	18 0 0
11	To cut grass from the Municipal ground near the foot-path on the east side of the Arthur Road.	Do.	Dhaku Hamsari	9 0 0
12	To cut grass from the Agripada open drain from Agripada Milch Cattle stable to Arthur Road Culvert.	Do.	Malhar Ramji	9 0 0
13	To cut grass from the Municipal land between Wadi Bunder Road, the G. I. P. Ry. Co.'s compound and Hancock bridge.	Do.	Shaik Umar	5 0 0
14	To cut grass from the Municipal land near the cooling reservoir at the Love Grove Pumping Station and from the compound of Mr. Varjiwandas Madhavdas' bungalow at Love Grove.	From 1st Jan. to 31st Dec. 1890	Bhoja Baba	35 0 0
15	To cut grass from the sides of the open main drain between Arthur Road and Clerk Road and on the banks of the storm water reservoir at Mahalakshmi (except the Vellard).	Do.	Bala Hasanna	615 0 0
16	Gathering bhores from the trees in the compound of Mr. Varjiwandas Madhavdas' bungalow at Warli.	Three months from 18th Dec.	Bai Chima Marathin ...	5 0 0
17	For fishing in Warli channel and sluices.	For 1889-90	Padma Bhudia.....	650 0 0
18	Ditto. the tank called Mingutmandli.	Do.	Ditto	275 0 0
19	Ditto. Dharavi sluices.....	Do.	Pedru Paskol	25 0 0
20	Ditto. Mahalakshmi storm water reservoir.	Do.	Pandu Rama	789 0 0
21	Ditto. Fulka Tank at Matunga ..	Do.	Lakshman Nanku	5 0 0
22	For planting and gathering Singadas in Salvo tank near Parbhadevi.	Do.	Saibu Nihal	80 0 0
23	Ditto Digi tank at Mahim ...	Do.	Padma Bhudia.....	70 0 0
24	Ditto Hasali tank	Do.	Bhudu Niru	70 0 0
25	Ditto Satgao tank at Sion.....	Do.	Sadashiv Budhaji	7 0 0
26	Ditto Jambli tank at Mahim...	Do.	Saibu Nihal	24 0 0
27	Ditto. in water-hole, Khelakakhadak at Sion.	Do.	Pedru Paskol	6 0 0
28	Ditto. in water-hole east side of Haines Road and north of Pardhan house.	Do.	Lakshman Nunku	5 0

CONTRACTS EXECUTED DURING 1889-90.

The following statement gives particulars of the contracts executed during the year 1889-90 for the supply of petty stores &c., and for the construction of various works :—

No.	Particulars of Contracts.	Names of Contractors.	Resolutions of the Standing Committee accepting tenders.
	For Supplies.		
1	Road metal	Mr. Sittaram Luxumon.	5932 6-2-89.
2	Carts and bullocks &c.	Mr. Sorabjee Nowrojee Moosa....	6016 13-2-89.
3	Timber	Messrs. Fakirjee Pestonjee & Co.	7006 27-2-89.
4	Coke and coal	Messrs. Dadabhoy Hormusjee & Co. ...	7008 27-2-89.
5	Iron castings	Messrs. Richardson & Cruddas	7009 27-2-89.
6	Hardware	Messrs. Heptula Shaik Adam & Co....	7010 27-2-89.
7	Petty stores	Do. do. ...	7212 21-3-89.
8	Sand, shells, shingle and sand stone	Messrs. Vishnu Nursingrao & Co.	27 3-4-89.
9	Coke	Bombay Gas Company ...	247 24-4-89.
10	Four 8-ton steam road rollers ...	Messrs. Walsh Lovett & Co.	2811 24-7-89.
11	Supply of spare parts of meters ...	Messrs. Richardson & Cruddas ...	4902 20-11-89.
12	Do. do. do. ...	Do. do. ...	1094 29-5-89

15	Do. meter diagrams ...	Messrs. John Fleming & Co.	1091 29-5-89.
16	Do. pumping plant for Pawai works...	Messrs. Simpson & Co.	7065 13-11-89.
17	Do. Portland cement ...	Messrs. Warden & Co....	5568 23-12-89.
18	Do. cast-iron pipes of different sizes	Messrs. John Fleming & Co.	6134 29-1-90.
19	Do. Number plates	Mr. Sunkerao Baba Mandrupker	17504 16-1-90.
20	Do. Cement for W. W. ...	Messrs. Warden & Co. ...	7965 26-2-90.

No.	Particulars of Contracts.	Name of Contractors.	Resolutions of the Standing Committee accepting tenders.
	For Works.		
21	Annual repairs, petty works, and building materials	Messrs. Fakirji Pestonji, & Co.	7007 27-2-89.
22	Winding and repairing clocks ...	Mr. Sorabjee Jamsedjee ...	Comr's. No. 20595 1-3-89.
23	Construction of the Fire Brigade Station at the junction of Chinchpoogly and Parel Road.	„ Ardeshir Framjee ...	S. C.'s No. 7065 6-3-89.
24	Lighting of certain public streets with kerosine oil	„ Jungam Dharmajee ...	S. C.'s. No. 7213 27-3-89.
25	Paving foot-paths	Mr. Fakir Mahamed Babubhoy...	2812 21-7-89.
26	Ventilating shafts at Frere Road, &c.	Messrs. Rahimtula Bhaijibhoy & Co.	4657 30-10-89.
27	Construction of Dam at Pawai ...	Messrs. Hirjee and Rowjee.	5267 4-12-89.
28	Construction of Waste Weir at Vehar Lake	Do. do. ...	272 1-5-90
29	Laying of 48″ pipes from the Pawai Reservoir to the pumping station and for works in connection therewith	Messrs. Framjee & Jeewanjee	5463 18-12-89.

I.—FIRE BRIGADE.

Introduction.

I have the honour to submit the Report of the Fire Brigade for the year 1889-90. As this is the first occasion on which an Annual Report has been submitted, and as, on account of the re-organization now in progress, considerable attention is drawn to the subject, I have also appended a short description of the different stations, which may be useful for reference in discussions.

Number of fires.

2. The number of fires during the year 1889-90 (1st April 1889 to 31st March 1890) was 88, and the aggregate loss, Rs. 22,62,121-2-0. The details are appended. The number is the largest on record. From the statement for the period 1878 to 1890, (table No. 2), it will appear that whatever cause or causes may be at work, the number of fires has materially increased during the past few years. The aggregate loss, of course, fluctuates much more violently than the number of fires. The causes of the fires have not in many cases been satisfactorily ascertained, and this, combined with the absolute want of information in the earlier years of the statement, prevents any very reliable conclusions being drawn as to the probable cause of the recent increases. Careless *bidi* smoking and cooking in huts, the materials of which are very inflammable, appear to be answerable for a large number of the less destructive fires; and the more extended use of kerosine oil lamps also appears to be responsible for an increasing number of fires year by year.

Monthly distribution of fires.

3. The monthly distribution of fires is shown in table No. 3.

As might be expected, the number of fires is much greater in the fair season, being at its maximum in the coolest months. Although this may not mean that the better supply of water in the monsoon season reduces the number of fires, yet it does show the importance, combined with the next paragraph, of an abundant and constant supply of water all the year round.

Hourly distribution of fires.

4. Table No. 4 shows the hourly distribution of fires. It will be noticed that nearly 2 of every 3 occur between noon and midnight. The table shows how important it is that there should be a constant supply of water—the outbreaks of fire occurring at all hours, night and day.

Re-organization.

5. The separation of the Fire Brigade and Police, in accordance with Chapter XIV of the new Municipal Act, involves a complete re-organization of staff and administration, and the late Commissioner made provision for this in the Schedule of Officers submitted by him, as required by Section 79 of the Municipal Act. This new Schedule came into force at the commencement of the current year (1890-91), having been approved of by the Standing Committee and accepted by the Sub-Committees of the Corporation on "Fire Brigade" and "Emoluments of Officers under new Schedule." A copy of the Schedule is appended for ready reference.

Distribution of stations.

6. The more complete organization rendered the existing stations still more unsuitable, and as the year closed the question of re-distribution of stations was being considered, with a view to the better protection of the City and to the accommodation required being provided in stations belonging to the Corporation.

Staff.

7. There were no changes of importance in the staff during the year. After the fire in Apollo Street in November, I was directed to undertake the general administration of the Fire Brigade, pending the arrival of the Chief Officer, whom it was proposed to select in England.

Stores.

8. After the fire in Apollo Street the supply of efficient hose was found to be dangerously low, and steps were immediately taken to obtain as much as could be purchased out of the available Budget grants and accordingly—

1,800 feet of Hose	@	Rs.	1-4-0	2,250	0	0
3 Reel Carts	@	„	300-0-0	900	0	0
300 l.ft. Scaling Ladders ...	@	„	3-8-0	1,050	0	0
13 Stand Pipes	Each	„	85-0-0	1,105	0	0
10 Branch Pipes	„		22-0-0	220	0	0
8 Sets Hydrant Keys ...	„		21-0-0	168	0	0
			Total...Rs.	5,693-0-0		

were obtained from England through Messrs. Richardson and Cruddas at the rates entered.

In the Budget for 1890-91, provision was made for additional hose and 1 steamer.

Couplings.

9. At the close of the year, steps were being taken by the Port Trust and Government Dockyard to adopt the Morris's Patent Coupling used by the Fire Brigade, so that their hose would be interchangeable with the Municipal Brigade, if occasion required.

Water supply.

10. The water supply at fires has been generally admittedly satisfactory, with the exception of the fire in Apollo Street, on the 11th November last. In Apollo Street, there is only a 5-inch main, and it is a physical impossibility to supply the 6-inch suction hoses of 4 steamers out of one 5-inches main; and on this occasion the supply of Fire Brigade hose was not sufficient to enable the 10-inch main in Church Gate Street to be utilized. The steps which have since been taken to obtain additional hose, and the sanction to lay additional mains of a sufficient size for fire extinction purposes will enable the Brigade to render more effective service. So long, however, as the water supply in any district is intermittent, there will be risk of delay for the time required for opening the sluice valves, and the early completion of the Tansa Works is therefore much to be desired. During the year a set of plans shewing the positions of the water mains and fire hydrants was furnished to the Brigade by the Water Works Department.

Appendix to Report of Fire Brigade.

DESCRIPTION OF STATIONS IN 1889.

1. *Byculla.*—The station forms part of the Byculla Police Quarters facing Parel Road. The buildings belonged to the Municipality, but during the year a nominal transfer took place; the property is now considered as Government property. The portion occupied by the Fire Brigade is required by the Police and sanction was obtained during the year to the erection of a new station at Sankli Road. There are quarters here for the Superintendent of the Brigade and 20 men, together with stabling for 2 horses and an engine-room. A steamer and a manual are stationed here.

2. *Fort.*—The Fort station is situated in Hornby Road, near the Victoria Terminus, at the back of the block of buildings, of which the English Hotel forms a portion. A rent of Rs. 250 per mensem is paid. It would be difficult to arrange a more inconvenient station. The access is bad and more than once difficulty has been experienced in getting the engine out at night. The accommodation for the firemen is confined to the loft of the room in which the engine is kept and which is also occupied as a stable for the horses. The quarters for the Engineer are in another portion of the building, facing Hornby Road, and on the 1st floor. A steamer is located here.

3. *Paidhoni.*—This station is at the rear of the Paidhoni Police station facing Kolsa Street. There is no accommodation whatever for the firemen who have to sleep in the engine-room and to go elsewhere to take their meals. During the year an addition was made with a view to provide stables with quarters for the Engineer over them. The work was not completed. The stables for a pair of horses are hired at a rent of Rs. 30 monthly. The engine house and the adjoining new building are Municipal property; over the engine-house are quarters occupied by the Police. A steamer and a manual engine are stationed here.

4. *Gamdevi.*—This station is desirably situated at the junction of Gamdevi and Gowalia Tank Roads. It is Municipal property and, except the quarters for the Engineer, is newly built. There is accommodation for 1 steamer, stabling for 2 horses, quarters for 1 Engineer, and 8 rooms for firemen. A steamer is located here.

5. *Parel.*—This station is near the junction of Arthur and Parel Roads at Lal Bag. It consists of an engine house and rooms for 7 firemen. The rent is Rs. 25 per mensem. A manual is stationed here.

6. *Mahim.*—This station in Mahim Bazar forms part of the Police station. Although it is not Municipal property, no rent is paid for it. There is no accommodation for the staff. A manual engine is stationed here.

7. *Malabar Hill.*—This station is Municipal property, and is located close to the Reservoir at its northern end. There is an engine-room facing the road and rooms for 8 firemen. A manual engine is stationed here.

8. *Upper Duncan Road.*—This station is Municipal property, and is situated in Upper Duncan Road near Kamathipura 5th Street. There is no accommodation for staff. A spare steamer and manual are usually kept here. A manual engine with staff are stationed here.

9. *Chinchpokli.*—This is a new station, not occupied until the 24th April 1890. It comprises quarters for Engineer and 12 rooms for the staff, stabling for two horses, and engine-room. The station is situated at the junction of Parel and Chinchpokli Roads, and a steamer will be located here.

RETURN OF FIRES.

RETURN OF FIRES in the CITY of BOMBAY, from 1st April 1889 up to 31st March 1890.

No.	Date.	Locality.	Time.	Nature of Property destroyed.	Names of Owners.	Estimated Damage.	Cause of Fires.	Time of Water Supply.
	1889.					Rs. a. p.		
1	1st April	G. I. P. Railway Workshops, Parel.	8 p.m.	Moulders' Shed	G. I. P. Ry. Company	25 0 0	Not known up to present.	
2	12th „	Girgam Road	4-15 a.m.	Cowdung cakes	Sudanand Kristna	1 0 0	Unknown.	
3	17th „	Nowroji Hill, 2nd Street.	9 a.m.	A portion of wood work of a house.	Rungu Morria	50 0 0	Careless use of a fire-place.	
4	17th „	Colaba	10-15 a.m.	A quantity of loose cotton.	New Apollo Press	1,500 0 0	Caused by a stone being in the cotton while passing through the cleaning machinery.	
5	23rd „	Parel-Tank Road..	11 p.m.	A hut	Sulaman Abba	7 0 0	Spark from the fire-place, setting the roof on fire.	
6	24th „	Port Trust Estate, Frere Bunder.	3-50 a.m.	Stack of coal	Fisher & Company	50 0 0	Spontaneous combustion.	
7	27th „	Mangesh Senoy Street.	7-10 p.m.	Grass mat	Burjorji Maneckji	0 2 0	Fall of kerosine lamp.	
8	5th „	Victoria Road	6-15 p.m.	Some paper wrappers	Sassoon Silk Mill	200 0 0	Spontaneous combustion.	
9	8th May	Grant Road	1 a.m.	A quantity of kerosine oil and a screen.	Ameerji Alibux	100 0 0	Upsetting and explosion of a kerosine oil lamp.	
10	11th „	9th Kamathipura Lane.	5 „	Bedding	Amena (woman)	4 0 0	Carelessness while smoking.	
11	13th „	Nasik Road	1 p.m.	A cudjan hut	Babaji Marora	70 0 0	Unknown.	
12	17th „	Chinchpokl	½ to 4 „	Cotton	Anglo-Indian Mill	Unknown	While opening a fresh bale of cotton, the implement used came in contact with one of the bands which caused a spark, that ignited the cotton lying about on the floor.	
13	26th „	Tardeo Road	7 a.m.	Cotton	Jivraj Balu	300 0 0	Friction.	
14	6th June	Don Tad Street, Chakla.	8 „	House, household and tarred canvas.	Tulsidass Arjun and others.	57,950 0 0	Incautious use of lamps.	

No.	Date.	Locality.	Time.	Nature of Property destroyed.	Names of Owners.	Estimated Damage.	Cause of Fires.	Time of Water Supply.
	1889.					Rs. a. p.		
15	11th June	Lower Colaba	10-30 a.m.	Cotton	Colaba Press Company...	100 0 0	The origin of the fire is attributed to friction.	
16	17th „	Do.	3 p.m.	Do.	New Apollo Press Co. ...	300 0 0	Do. do.	
17	20th „	Grant Road	Last night	Frock	Minu (woman).....	No value	It was ascertained that a lighted cheroot had been thrown into her shop from the theatre.	
18	28th „	Mazagon	5-30 p.m.	Coal.....	B. I. S. N. Company.....	Not known ...	Spontaneous combustion.	
19	1st July	Gilder Street	4-40 „	Five huts	Dhonduba Panduji.....	25 0 0	Not known.	
20	1st „	DeLisle Road	Evening.	A small hut	Khondaji Ghatti	0 8 0	Careless smoking.	
21	6th „	Lower Colaba	5-30 a.m.	Cotton..	Colaba Press Company....	400 0 0	The origin of the fire is not known as yet.	Water supply was taken from a tank in the compound.
22	12th „	Dhakji Purbhu's Wadi.	8-30 „	Straw	Jairam Govind	0 12 0	Careless while cooking ...	Tank water used.
23	14th „	Bapty Road	12 p.m.	Bidi leaves.....	Akbar Dadimia	5 0 0	Badly constructed fire-place.	Water that was stored for domestic purposes was used.
24	26th „	Elphinstone Road..	9 „	Dealwood and old sacking saturated with kerosine oil.	Manockji	Unknown	Believed to be the work of incendiarism.	Do.
25	28th „	Colaba	5-30 p.m.	Cotton.....	Colaba Press Company ...	2 0 0	Not known.....	Water supply was taken from a tank in the compound.
26	11th Aug.	Wajali, Mahim.....	12 Noon.	A hut and grass	John Antone.....	16 0 0	Careless smoking.....	Well water was used.
27	29th „	Picket Road.....	6 a.m.	Tiled shed.....	Keshav Keshoba	400 0 0	Not known.....	Do.
28	21st Sept.	Dhabu Street	3-30 „	A chawl	The Trustees of the Kandi Molla Mosque and others.	9,000 0 0	Overheating of a baker's oven.	At once from the mains and mosque.

No.	Date.	Locality.	Time.	Nature of Property destroyed.	Names of Owners.	Estimated Damage.	Cause of Fires.	Time of Water Supply.

88	30th „	Hornby Row	1-15 p. m.	A small portion of the roof of the house and documents.	Bombay Municipal Office.	Not known.	Not properly known.	

H.—PUBLIC GARDENS.

1. The undermentioned Gardens have been maintained for public use:—

(*a*) Victoria Gardens.

(*b*) Northbrook Garden.

(*c*) Falkland Road Garden.

(*d*) Dick's Tank Garden.

(*e*) Elphinstone Circle Garden.

(*f*) Bazaar Gate Garden.

(*g*) Sir Kavasji Jehanghir Garden, Mahim.

(*h*) Malabar Hill Reservoir Garden.

2. All the gardens have been extensively frequented by the public, and seem to command general appreciation.

3. The year under report has been a very eventful one in the history of the Victoria Gardens. A liberal contribution from the Municipal Fund, the desire of establishing in Bombay a Zoological Garden worthy of the City, the untiring zeal and interest in pushing forward the improvements shown by the late Municipal Commissioner, Mr. E. C. K. Ollivant, aided by the Municipal Corporation, the assistance of the Bombay Natural History Society, and, not least, the favourable and frequent articles in the daily press, and finally the visit of H. R. H. Prince Albert Victor to the Gardens, have all been of the utmost service towards establishing the Gardens on a footing worthy of the City.

By the resolution of the Municipal Corporation No. 19645, dated 20th February 1889, it was by a large majority decided that Mr. Ollivant's scheme for improvements of the gardens should be carried out, and that henceforward the free admission to the gardens should be restricted to all principal gazetted holidays and three days of the week, while on all other days a small fee should be charged for admission. This arrangement commenced to be worked from the beginning of the present calendar year, and may, so far as may be judged now, be said to have proved a success. The revenue derived from fees is, though small compared to the total expenditure of maintaining the gardens, sufficient to provide for certain improvements in the housing and keeping of the Zoological Collection. The total number of visitors to the gardens, has apparently not decreased, and it is a noticeable fact that the gardens, which were formerly principally visited by the lower classes of the population only, are now resorted to by all classes, who evidently appreciate the new arrangement.

Another prominent feature, in the scheme for improving the garden, was the better housing of the animals. Assisted by the advice of Committee appointed by the Natural History Society, an open, healthy and prominent site was chosen for the erection of new cages for carnivorous animals. On this two large double cages, designed with special regard to the climate and the requirements of the animals, were erected, one for tigers and one for panthers. The animals were located in these cages in the beginning of March, and seem to be perfectly happy. On this site was also built the foundation for a large octagonal cage, intended for housing bears, which, thanks to a liberal contribution from the Tramway Company, will be completed during the current year.

Among other cages erected during the year, an octagonal monkey cage and a snake pit, both designed by Mr. Phipson, may be specially mentioned as affording considerable amusement and attraction to the visitors. Several monkeys, not suitable for caging together, have been accommodated on poles, on which they, by aid of a ring and chain, are enabled to climb up and down, to the great joy of visitors.

A large deer-park has also been constructed on a site, to which further reference will be made. Here all kinds of Indian and African deer seem to live in perfect happiness, the run being of sufficient length to show the graceful movements of the various kinds of deer, jumping, running, grazing or resting on the green sward. An enclosure for a crocodile was also made ; but, as it seems almost impossible to confine the crocodile to this enclosure, at which several attempts have been made in vain, the enclosure will probably have to be used for some other purpose.

One of the main objects of the new scheme for housing of the animals and birds, being to remove the zoological collection from its old, undoubtedly unsuitable site, the large aviary for fowls of various kinds, &c., located there, was taken down and refixed, painted and generally improved, on the lawn near the southern boundary of the gardens, where it now forms a very conspicuous object, and is a centre of attraction. An old dilapidated aviary erected nearly 30 years ago, and not now required, was demolished, the materials still of use being utilised for repairs to other cages and enclosures.

At the close of the year, Mr. A. B. Ginger was appointed head keeper, by which appointment it has now been made possible to constantly control the feeding of the animals and to provide for all their necessary wants.

The most important part of the new scheme for improving the gardens was the desirability of extending the area. Also this object was carried out by the important resolution by which the Municipal Corporation cordially agreed to authorise the purchase of 60,000 square yards of adjoining land, part of which in time will form a valu-

able addition to the gardens, while another part will give room for a much needed thoroughfare from Parel Road to Gorupdeo Road. The purchases were not as yet finally regulated at the close of the year. Part of the new ground has, however, been temporarily fenced in, and afforded a valuable site for the Horse and Cattle Show held on the occasion of H. R. H. Prince Albert Victor's visit to Bombay. By the purchase of the ground adjoining the Royal Flour Mill, the Corporation also acquired a chawl, which now affords suitable quarters for the garden mallees.

The improvements in the gardens, with regard to their general appearance and style, have during the year under report been pushed forward to such an extent that very little remains to be done towards completing the general plan of alteration, though a great many details to which sufficient attention could not be paid during the rapid progress of transforming the gardens, remain to be carried out. The alterations carried out in previous years have proved very successful, the extension of the ornamental waters, the distribution of lawns and shrubberies have commenced to show the desired effects, and the young trees and plants are rapidly filling the gaps, which the wholesale destruction of jungle will naturally temporarily cause. The alteration referred to in (*b*) of last year's report has been completed in its whole extent by altering the existing straight roads into winding paths, by felling numbers of trees and creepers that previously formed a dense jungle, sufficient care, however, having been taken to retain everything of value either in botanical or artistic respect. The major part of the ground has been laid out with turf, now forming handsome and extensive lawns, here and there relieved by groups or masses of trees and shrubs, botanically arranged. The group of palms forming part of the area under alteration has, for obvious reasons, been retained and been further improved by planting young palms of different and attractive kinds, and, as it now can be seen from most parts of the gardens, it forms a very conspicuous object. By here and there singling out a handsome tree, a graceful clump of bamboo, &c., numerous picturesque effects have been obtained. To the north of this part, now the main feature of the gardens, the site for cages for carnivorous animals was chosen. This has been filled up, levelled and gravelled and made easily accessible from all parts of the gardens. The avenue leading to Lady Frere's statue, and which borders this part of the garden, has been considerably raised, and by packing with rubble and solid metalling, been brought into such condition as to remain dry and firm during the monsoon.

The land east of this avenue, which was formerly more or less of a swamp and quite unsuitable for garden purposes, has been raised so as to form a gradual slope facing south. The height of filling has in several places exceeded four feet, a work that could not be done except at a very great cost had not the materials principally been obtained by digging out a small ornamental lake connected with the pond east of the circle. The requirements of the low-lying ground necessitated

an excavation of a considerable depth, by which, besides the soil used for filling purposes, a great quantity of rubble was obtained, which came in use for building purposes and road-making.

On the land filled in, the previously mentioned deer park has been located, and part of the ornamental water has been enclosed within this, a floating fence preventing the deer to escape. At the crocodile enclosure and also at the junction with the old pond, waste-weirs have been built in a rustic style, while one of the promontories in the lake has been made more conspicuous by a small rockery.

The south-eastern part of the gardens, which was formerly laid out into geometrical divisions for more or less unprofitable fruit trees, has been entirely relaid, and now forms a very attractive part of the gardens. The principal part has been laid out in a natural style, enclosing a circular arrangement for a nursery of plants.

The tank facing Parel Road, and always presenting a disgraceful appearance, has been filled, for which purpose the soil obtained by excavations for the new Municipal office was utilised, and the cast-iron railing has been continued so as to also enclose *this* part of the garden, which will be laid out during the current year.

The new fernery erected in the previous year has proved a great success, and an object of great attraction to the visitors.

A new water main was laid into the gardens on occasion of the Horse and Cattle Show, and will, in future, serve to supply the northern part of the gardens. On the same occasion, the fountain in front of the clock-tower was considerably improved.

In deference to the general wish of reserving the Museum and adjoining part of the gardens for the non-paying public, a fence was constructed, by which this object is effectually obtained.

The flower beds and borders have been kept neat and tidy, and the show of flowers and animals has been exceptionally good.

The great pressure of practical work during the whole of the year has necessarily been the cause of very little attention having been devoted to scientific work. The collection of plants has, however, as usual, been enlarged, chiefly by purchase, and several plants have been identified.

On the occasion of H. R. H. Prince Albert Victor's visit to Bombay, a Horse and Cattle and a Flower, Fruit and Vegetable Show was held in the gardens on the 26th, 27th, 28th and 29th of March, which was pronounced a great success. The contribution to the Flower Show from the gardens were very extensive, and the large stock of flowering and ornamental plants, available both for the show itself and for decoration of the grounds, to a great extent contributed to the success of the show.

It is a great pleasure to me to acknowledge the valuable services rendered during the year and on occasion of the Flower Show by the garden staff, and I feel especially grateful to the present foreman and clerk, Mr. J. D. Pinto and Mr. A. S. Lobo, who, both with untiring zeal and assiduity, have so materially assisted me in carrying out the details of the work undertaken during the year.

4. The other gardens have been maintained in their usual order, and do not call for any special remarks. I should only here take the opportunity to draw the attention to the very ugly fence surrounding the Bazaar Gate Garden, which, by being substituted by a neat and low iron railing, would greatly add to the attraction of this small but neat garden.

Its neighbourhood to the Victoria Terminus and new Municipal Office will sooner or later call for some such improvement in its appearance.

5. A new garden was laid out on the embankments of the Malabar Hill Reservoir, which has to a great extent added to beautify the Gibbs' Road, along whose lower part also unsightly corners and nooks here and there were covered with plants and creepers.

6. In conclusion, I beg gratefully to acknowledge the increase made in my salary, according to the new schedule of establishment, and to express my thanks for the commendatory acknowledgments of my services, which have on various occasions been made.

7. The Budget allowances and the expenditure incurred during the year for the several gardens are shown in the following statement :—

	Name of Garden.	Total amount sanctioned.	Expenditure.
		Rs. a. p.	Rs. a. p.
(*a*)	Victoria Gardens	53,284 0 0	50,229 0 0
(*b*)	Elphinstone Circle Garden	4,110 0 0	3,293 9 10
(*c*)	Falkland Road Garden	570 0 0	. 595 0 0
(*d*)	Northbrook Garden	1,580 0 0	1,189 10 7
(*e*)	Sir Kavasji Jehangir Garden	550 0 0	417 10 1
(*f*)	Bazaar Gate Garden	924 0 0	782 3 11

	Total... Rs.	63,200 0 0	58,701 5 4

F—THE VICTORIA AND ALBERT MUSEUM.

In the Natural History division the department of Mammals received the following additions :—Two skulls with horns of the Sonmali antelope (Antelope strepceros) by purchase , two young panthers (felis pardus); two gazelles (gazella bennetti); two sambhers (rusa aristotelis); one monkey (macacus radiatus) ; and one kangaroo (macropus major) from the Superintendent, Victoria Gardens.

In the department of Birds, one sarus crane (grus antigone) that died in the Victoria Gardens was received from the Superintendent. The sarus crane as well as the mammals mentioned above were not fit for stuffing purposes, so their bones were prepared and mounted at the Museum.

To the departmentof Reptiles, the following specimens were added : Two cobras (naja tripudians) from Tanna and Poona ; two ghanas or vipers (daboia russelli) from Warli and Bandora ; two tree-snakes (passerita mycterizans) from Matheran ; three phursas (echis carinata) from Rutnagherry ; and two dhamans and one land tortoise (testudo elegans) from the Victoria Gardens.

A large specimen of the porcupine fish (diodon histrix), as well as six specimens of tetrodon specimen, all from Zanzibar, were secured by purchase. These were stuffed and mounted at the Museum and have formed a valuable addition to the department of Fishes. The other additions made to the department of Fishes and Crustaceans were as follows :—Two specimens of the dog-fish (chiloscyllium indicum); one saw-fish (pristis perotteti) ; two young sharks (carcharias dussumieri); one specimen of trygon zugeit ; one specimen of dicerobatis eregoodoo ; two of the cray-fish (palinurus quadricornis) ; one of thenus orientalis ; and twenty-nine other specimens of seven different kinds of fishes along with a few crabs and other crustaceans from the Harbour.

No important addition was made in the department of Entomology, excepting a few gold beetles from Salsette and Egutpuri.

To the department of Botany, were added a hundred and twelve specimens of twenty-seven different kinds of timber-wood prepared from samples received from the Superintendent, Victoria Gardens.

In the division of Anthropology, the following valuable specimens were added to the department of Artware :—One ostrich egg-shell cup mounted in silver ; twenty-eight pieces of silver-work from Kutch and Trichinopoly ; one gold and turquoise necklace from Delhi ; and four specimens of gold embroidery from Bombay.

To the department of Numismatology, were added three gold coins from Bijapur, and one silver coin from Tanna, received from the B. B. Royal Asiatic Society, Bombay.

In the department of Figures and Models, twelve clay models of cucurbitous fruits from England were purchased through the Government of India, but the specimens, being improperly packed, came to the Museum in a bad condition.

Five skins of mammals were cured and preserved at the Museum, and the work of preparing and setting up skeletons referred to in my last report was also carried on during the year.

The skeletons mounted were as follows:—one nilghai (portax pictus); one sambher (rusa aristotelis); two gazelles (gazella bennetti); two panthers (felis pardus); one monkey (macacus radiatus); and one sarus crane (grus antigone). Six specimens of snakes were cured and mounted in spirits of wine:—Two cobras (naja tripudians); two ghanas or vipers (doboia russelli); and two tree-snakes (passerita mycterizans).

The work of curing and preserving specimens in the department of Fishes and Crustaceans was also attended to.

The collection of butterflies and beetles in the department of Entomology had the usual attention paid to it to protect the specimens from the attacks of insects that get into the cases in an incredibly short time.

A quantity of *Malachra Capitata* fibre required by Her Majesty's Secretary of State for the Imperial Institute, London, was, agreeably to the instruction contained in your memorandum No. 1927 of the 30th April 1889, extracted at the Museum and sent to the Director, Land, Records and Agriculture, Bombay. Also two pounds of *Malachra Capitata* seed were collected under your instruction and sent to the Superintendent, Government Botanical Gardens, Saharunpur, North-Western Provinces.

The large rock-snake (python molurus) maintained at the Museum was transferred to the new Serpentarium in the Victoria Gardens, along with one tree-snake (passerita mycterizans), and one water-snake (propidonotus quincunciatus). A young crocodile (crocodilus palustris) was also transferred to the Victoria Gardens.

In the Artware department of Anthropology the specimens of Kutch silver-work acquired during the year along with the rest of the articles of jewellery from Surat, Bombay, Ahmednugger, and Aden were provided with new parchment labels, and a detailed list of all the articles of jewellery on Exhibition, with the prices marked against each of them, was prepared during the year, and a copy of it was forwarded to the Chief Accountant. The cases containing cloths were freely supplied with preservatives, and due attention was paid to keep all other specimens in good order.

Last year the Acting Municipal Commissioner, at my suggestion, very kindly sanctioned a special grant for the purchase of Turnstiles for the Museum, and a few weeks ago the primitive method of counting

visitors by cowries was replaced by the recent improved scientific indicator of the self-registering Turnstile. By the arrival of the Turnstiles, the Museum Assistant has been relieved of constant attendance at the gate, and I mean to assign him laboratory work which is now done by the Office Assistant in addition to his own duties.

A statement showing how the annual and special grants were utilized will be found in Appendix A at the end of the report.

During the year under review, the Museum was open to the public for 313 days, and the total number of visitors was 563,908, showing an average daily attendance of 1,801. Last year the average daily attendance was 1,873. The decrease in the number is due to the entrance fees being charged at the Garden Gates, but now the railing lately set up has removed this difficulty, and, it is believed, the number will again increase.

APPENDIX A.

Natural History Grant.

		Rs.	a.	p.
1.	Spirits of wine	295	3	0
2.	Preparing and mounting skeletons	105	2	0
3.	Cases for specimens	448	0	0
4.	Riverside Natural History	80	0	0
5.	Natural History specimens	60	5	0
	Total ... Rs.	988	10	0

Artware Grant.

		Rs.	a.	p.
1.	Kutch silver-work, gold embroidery, &c.	461	2	3
2.	Silver-work from Kutch, and other places	476	0	0
	Total ...Rs.	937	2	3

Grant for Cases.

		Rs.	a.	p.
1.	Three wall cases	169	0	0
2.	Seven stands for English-made cases, &c.	131	0	0
	Total ...Rs.	300	0	0

Grant for Turnstiles.

		Rs.	a.	p.
1.	Self-registering Turnstile	260	0	0
2.	Non-registering Turnstile	175	0	0
3.	Middle rail for Turnstiles	25	0	0
4.	Table for Turnstiles	16	2	0
	Total ...Rs.	476	2	0

PUBLIC HEALTH.

1. REPORT of Dr. T. S. WEIR, MUNICIPAL HEALTH OFFICER, forwarded with his No. 11971, dated 2nd August 1890.

2. REPORT of the SUPERINTENDENT, MARKETS, forwarded with his No. 666, dated 12th June 1890.

3. RETURN OF STREET ACCIDENTS forwarded by the COMMISSIONER OF POLICE, with his No. 2940-6, dated 7th May 1890.

1.—REPORT OF HEALTH OFFICER.

2. The abnormal conditions indicated by scanty rainfall, have been accompanied by an increase of mortality chiefly during the first five months of the year. On examining the mortality according to place of birth, it will be observed that the increase of mortality has been amongst strangers. The total mortality is 957 more than in 1888. But this increase has only been among strangers, whereas the mortality amongst persons born in Bombay is 26 less than in 1888. This is indicative of the changes taking place in the population of this city :—

	1888.	1889.
Born in Bombay	11,154	11,128
Strangers	11,063	12,071

This is very interesting, as indicating the influence of abnormal seasons on the mortality of the city, and shows what I have often pointed out before, how the health of the city is influenced by conditions around and without the city.

The immigration of destitute from Kathiawar and Guzerat, which had commenced in October 1888, ceased before the rains of 1889. It was difficult, as I have before described, to control the immigrants, and it was even more difficult to remove the immigrants from the city. The Health Department put up temporary sheds near the Byculla tank and Station and fed a number of the destitute. From Byculla they were removed further off to hospital sheds at Arthur Road, and here they were cared for by the Relief Committee. On the 12th November 1888, the Standing Committee recommended the Corporation to sanction a grant of Rs. 2,500 for a relief camp. The number of destitute and

vagrants in the city—in the streets —caused obstructions. They lived and slept where they pleased on the streets—on the footpaths. One footpath they took up a position on, was nearly opposite the Fort Police Court. Some 800 were sent back to their homes. But a large number refused to leave the city.

The immigrants were causing so much nuisance and persecuting people who would not give them alms, that 600 were forcibly removed to hospital sheds at Byculla. Then arrangements were made to send them away by sea, but they refused to go by sea, and would only go by land. They did not wish to leave this city, and many of them could not do work which they were not accustomed to. They said work in Bombay was too hard, and they could not do it, and it was not work which they could do.

3. With the immigration of destitute and vagrants, there has also been an increase in the number of lepers. The increase in the number of lepers is very serious. In 1881 at the time of the last census, 430 lepers were enumerated. There are now more than twice that number, probably more than 1,000. In every portion of the city, lepers may be seen, and it is not improbable that there may now be more than 1,000 lepers in the city. Lepers wander through the city, associate with people who are not lepers, live where they please, even live in rooms with other people who are not lepers. Lepers sell in the streets and in shops. Near the Pydhoni Police Office a leper may be seen with ulcerated feet and fingers selling jewellery. There are lepers propagating leprosy. I will give one instance : one evening, while inspecting a bakery, I found a leper inside the bakery leaning with ulcerated fingers on the table where the bread was lying. I believe this leper was living in this bakery. I have seen so many instances in which the evidence of communicability seemed clear, that I have no doubt that leprosy can be communicated. I will give two instances :—

A,—in whose family leprosy was not hereditary, was in the habit of purchasing vegetables from a leper. He did so out of compassion for the leper, although warned of the danger. He thought there was no danger as leprosy was not hereditary in his family, and he continued to purchase vegetables from the leper. He went on doing so for some five years, when he commenced to suffer from leprosy, and died of the disease. His wife afterwards suffered from leprosy, and one of his children.

B,—who came from outside of India, married a woman suffering from leprosy. He knew that she was suffering from leprosy, and as none of his relatives had suffered from leprosy, he thought there was no danger. His wife became worse after marriage, and in some three years he became affected with leprosy, and now after 5 years he is seriously ill, and a child born to them, seems also to be suffering from leprosy.

I have no doubt as to the necessity of removing lepers from the city and segregating them. It is useless to attempt to deal with lepers after the procedure in the Municipal Act for offences against the public health. Under the Municipal Act, lepers cannot practically be interfered with. Lepers, however poor and however distressed, will not willingly leave the city. They would rather lie down and die in the streets of starvation, or commit suicide, than go to an hospital and lose their freedom. I doubt very much whether leprosy is a dangerous disease, as meant in (*A A*) section 3 of the Municipal Act.

4. However, in exercise of the power conferred by section 12 of Act VI of 1867, the Governor in Council has notified that "Black Leprosy" is an infectious disease dangerous to life.

5. A good instance of what can be done by common sense sanitation, occurred in 1881 in a village of Matoonga which was afflicted with guinea-worm. I found 89 people in a village of 297 suffering from guinea-worm. Pipe water was supplied to the people, and guinea-worm has disappeared since. This I bring forward as an instance of what can be done by common sense. I believe, if practical sense was equally used in the case of leprosy, the effect would be equally good.

6. During the monsoon there was a serious nuisance from the reservoir on the Flats; so serious a nuisance has not been known for many years. It was perceived as far off as the Fort. After the discharge of sewage into the reservoir, the smell was dreadful. The lake was a pond of sewage. The water of the lake was nearly as foul as the sewage of the open main drain. The results of my examination were :—

	Free Ammonia Pts. per million.
Open main drain sewage...	20
Water of the lake near the inlet	14
Water of the lake near the outlet	17

7. The cause of the nuisance was a deposit of sludge, and the cause of the nuisance being greater than in any former year. The deposit—

A. Obstructs the circulation of the water.

B. Retards the diffusion of the sewage.

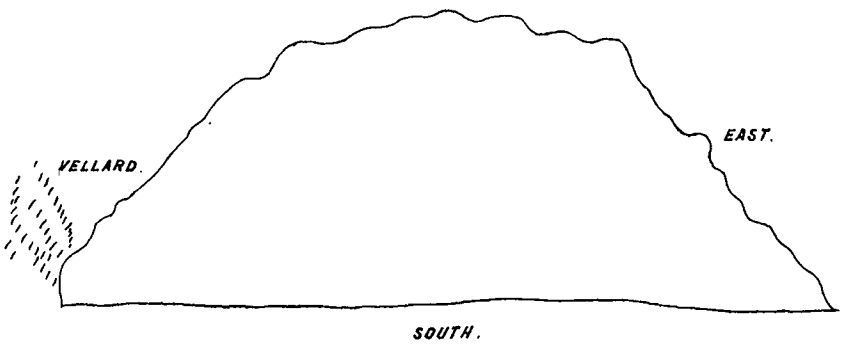
C. Causes a current of sewage to the Vellard.

D. Exposes a greater surface of sewage to the atmosphere.

E. Spreads the sewage out across the reservoir—the distance between the east and the west, or say about 800 yards.

8. On one occasion early in the morning I followed the sewage from the sluice gates to the Vellard, Mahaluxmi; the stream of sewage on entering the reservoir set towards the Vellard, and was

preceded by a wave or border of charcoal and sewage matters some two feet broad, having a wavy outline as below—



9. The rate of motion, as I timed it, was on an average 45 feet in one minute and twenty seconds. I followed the sewage till the current arrived at the Vellard. It now extended in an irregular line from the Vellard east, across the reservoir, having the greatest surface as follows, the apex being towards the Vellard.

10. In about two hours the surface of the water of the reservoir, as far as I could see, was covered with sewage, *i.e.*, in a few words, the reservoir was more or less converted into a sewage pond.

11. I forwarded to the Standing Committee a sample of the odours from the reservoir in a bottle of water from the reservoir.

12. Each year there is a discussion in regard to reducing expenditure in the Health Department. There is no difficulty about reducing expenditure in the Health Department, but expenditure can only be reduced by reducing work. I will afterwards show how expenditure can be reduced, if the only object is the reduction of expenditure. There is, I am afraid, much misunderstanding in regard to the duties performed by the Health Department and also in regard to the responsibility of the Health Department. The duties, which the Health Department perform, may be divided into :

A.—Those which the Health Departmment perform for the public.

B.—Those which the Health Department compel the public to perform for themselves.

13. The conservancy duties, which the Health Department perform, are the cleansing of privies—public and private—urinals, gullies—private and public—dust-bins—public and private—public streets, private streets, private lanes and private wadies. It is necessary to understand the duties performed by the Health Department, to comprehend that the Health Department are doing at the public expense and for private persons, duties which should be done at the expense of landlords and by landlords themselves. If the only object is the reduction of expenditure, my proposal is to cease cleaning private streets, private lanes, private wadies. The conservancy of private lanes, and private premises will then depend on the punishments inflicted by magistrates, and the public will look to the magistrates. There will no doubt be serious nuisances, but on the other hand the public will be educated in practical sanitation and trained to protect themselves, for they will have to attend the Police Courts and give evidence, which very few people can now be induced to give. I am making this recommendation merely in reply to the proposals which are made from time to time for the reduction of expenditure. There is a way and, I believe, it is the only way to reduce expenditure, and that way I have shown. I do not say it will be in the interests of public health, far from it. The cleaning of private streets, lanes and wadies, through which there are thoroughfares and which are so far as use public, came naturally to be done by the Health Department, because of

A.—The difficulty and delay in prosecuting the owners of private lanes and the number of different owners.

B.—The nuisance and injury to health of persons living in private lanes, while such prosecution was being conducted.

14. When I first joined the Municipality in 1873, some public streets were not cleaned every day, and some were only cleaned once a day, and private lanes were cleaned once a week or so. Now, all public streets are cleaned more than once a day, and many private lanes twice a day. The number of private lanes being cleaned by the Health Department has increased enormously during the last five years. Groups of new houses in every wadi form private lanes, and these lanes are being cleaned by the Health Department. In Girgaum, Byculla and Parel, where there were no houses before, there are now a large number of private streets to be cleaned by the Health Department. In some portions of the city, the sweeping work of the Department has enormously increased. The Health Department are doing for owners of property, in order to protect the health of their tenants, what the owners of property themselves should do.

15. I have in previous reports referred to nuisances on public streets. I am afraid that until the Municipal Commissioner or the Chief Officers, or the members of the Standing Committee have power to deal with small offences against public health, there will be no improvement in the sanitation of streets, and no practical prevention

of nuisances. It cannot be too widely known that persons committing nuisances can only be punished by magistrates, and that persons allowing nuisances on private property can only be punished through magistrates.

16. Considering the number of gullies, paved and used as sewage channels, there is little excuse for people using the public thoroughfares. I recommended that the mouths of gullies be paved and constructed in the form of oval-shaped open drain to be used as urinals. This is a very useful form of urinal. People do not much use the urinals that have been put up. They like to use the ground outside the urinals. A movable urinal that I suggested has been sanctioned.

17. In conclusion I would state that during the recent strike, the nuisance caused by the cessation of work for even one day has demonstrated to the public what an interruption in the work of the Health Department means. The failure to clean a dust-bin for one day has results which few people realized till the strike occurred.

18. My criticisms in a former report on mills have not been, in some cases, understood as I intended. I think the sanitary condition of the mills, generally, is good. There is open space around the mills, and the rooms are of fair height, and the latrines are well placed. In Bombay, factories have more open space around and more room ventilation than factories in England. The operatives have an equable although a hot climate to live in. Such are the conditions favourable, but there are conditions unfavourable; of these, I consider the most depressing, the long hours of work and short hours for sleep; more than one short interval of rest in the middle of the day is needed.

19. The conditions around the Flats have changed so much, that I do not think the deposit of the refuse on the flats can much longer be safely continued. The difficulties surrounding the settlement of this question have changed very little since my report of 1884. It is now a most urgent question.

20. I forwarded you a report from Inspector, B. Ward, Mr. Glover, on houses being built or rebuilt without sufficient open space around them for wholesome ventilation and lighting. I inspected the houses, and some of them were of the worst type of building, without open space on either side, and therefore with room space which could not have direct light from without, and could not be wholesomely ventilated. This is the type of building which had to be permitted under the old law, and which cannot be prevented in the case of houses built on old foundations as in the cases under the new law. I wrote "if under the "present law, buildings such as are shown in this statement can be "erected, then with the new law, sanitary building will be as impos- "sible as with the old law, and the condition of new buildings will be

"no better than the condition of old buildings." The houses were built on old foundations and therefore the stringent prosecution I urged could not be conducted.

RETURN SHOWING THE NUMBER OF DEATHS ACCORDING TO PLACE OF BIRTHS IN 1889, EXCLUSIVE OF STILL-BORN.

Months.	Bombay.	Elsewhere.	Unknown.	Total.
January	825	1,225	24	2,074
February	782	979	12	1,773
March	1,010	988	9	2,007
April	1,021	1,043	14	2,078
May	1,075	1,026	16	2,117
June	957	834	7	1,798
July	1,063	992	24	2,079
August	1,022	1,035	19	2,076
September	1,007	1,046	7	2,060
October	887	909	13	1,809
November	736	957	18	1,711
December	743	1,037	16	1,796
Total...	11,128	12,071	179	23,378

21. The mortality is arranged in the table following by groups of death causes :—

RETURN SHOWING THE NUMBER OF DEATHS FROM DIFFERENT CAUSES IN 1889.

Causes of deaths.	Number of Deaths.	Rate per 1,000 of Population.	REMARKS.
Small-pox	304	·33	Annual increment of population calculated.
Measles	638	·70	
Fever	7,266	7·99	
Cholera	462	·51	
Phthisis	2,805	3·09	
Diseases of the Nervous System	2,122	2·33	
Ditto Respiratory System	3,942	4·34	
Diarrhœa	1,099	1·21	
Dysentery	625	·68	
Accidents	379	·42	
All other causes except Still-born	3,736	4·11	
Total...	23,378	25·71	

22. As in the previous year, the mortality of male children is higher than of females under one year of age, while from 1 to 5 years, the incidence of the female mortality is a little higher. From 6 to 45 years the female death-rate is higher than the male. Taking the nubile period, between 12 and 40 years, the female mortality is 6·07 per 1,000 higher than the male death-rate. From 40 to 60 years the incidence of the male mortality is higher than female. The total female mortality is 8·8 higher than the male. The excess of female mortality is 1·8 more than in 1888.

23. The mortality of children under 1 year of age is 2·8 less than in the last year, but over 1 and up to 5 years, the mortality is 33·85 more than in the last year. Of the deaths under 1 year of age, 3,467 were males and 3,124 females, the male death-rate being 311·4 and the female 271·5. 236 children under 1 year of age died from measles. The fatality from small-pox amongst children at the same age is 116, or 69 less than in the last year. The proportion of deaths under 1 year of age to births is 42·54, or 2·83 more than in the last year. The percentage of deaths under 1 year of age to births is therefore little higher than in the past year.

RETURN SHOWING THE DEATH-RATE AT DIFFERENT PERIODS OF LIFE IN 1889.

AGES.	MALES.			FEMALES.			Males to 100 Females.
	Population.	No. of Deaths.	Per 1,000 of Population.	Population.	No. of Deaths.	Per 1,000 of Population.

24. It will be observed that the mortality amongst the mass of the Hindu population is (not calculating the annual increment of population) a little higher than in the previous year. It is equal to 28·78. The death-rate amongst Jains is lower, but this small class is liable to great fluctuation. The mortality of Hindu low or out-caste has increased. The out-caste population is increasing rapidly, and it is a population living under unfavourable conditions—crowded into the most crowded chawls, more than one family in one room. There is no condition of life so depressing as the life of the Hindu out-caste. It is difficult to improve their condition. If they go into good houses or large rooms, they divide them, place partitions and make them unwholesome ; their poverty and absence of caste-training make them helpless.

RETURN SHOWING THE NUMBER OF DEATHS AND THE RATE OF MORTALITY AMONGST DIFFERENT CLASSES IN 1889.

Classes.	Population by Census of 1881.	Number of Deaths.	Per 1,000 of Population.

* Annual increment of population calculated.

25. In the table following, the mortality in four great classes of the population is shown. There is an increase of mortality, but the increase is less than shown in the table, for the calculations are made on the population of 1881, and the natural increase of the population in each class has not been calculated. The expansion of population from immigration cannot be estimated. There is a slight increase of mortality amongst Europeans ; amongst Parsees the increase is scarcely appreciable, and if the natural increase of population was estimated, the mortality would probably be less than in the year before. The general health of the Parsee population may be considered to have been favourable. It will be observed that the European mortality is less than in the five years preceding 1882. The mortality amongst Mussalmans is high, although not so high as shown in the table, as there has been an increase from immigration in the Mussulman population. The overcrowding and house pres

sure in localities in which Mussulmans live influence the mortality. Although the Mussalman mortality is less than indicated by the table, yet it is high—higher than it would be with better street and house ventilation.

26. The section of highest mortality is Parel. In the last year the highest mortality also occurred in Parel. The district on the south of Parel, Byculla, has the second highest mortality. The population of both districts has greatly expanded. A portion of Byculla has a system of drainage but Parel has not. There are in both sections serious nuisances from houses without drainage and where there is no drainage and around houses which have not been connected with drains, sewage pollutions amidst dwellings and around dwellings and around the district, sewage in pools, where there are dwellings, soaking into the ground, polluting ground and buildings and oozing from increasing foulness to the ditches by the railway lines. Examining the mortality in Parel and Byculla, we observe that the increase of mortality in Parel is chiefly due to fevers and measles, and in Byculla to fevers, measles, diseases of the respiratory system, diarrhœa, cholera and diseases of the nervous system. In a small district—Mahalakshmi—there has been a great increase of population, and the population is fluctuating. In Agripada, where a new city has arisen, the sewage from the buildings runs on to the lanes and from the lanes into the ditches. In every portion of the island, where there is no drainage, and where there is more population than there should be where there are no drains, there are surface collections of sewage. Near the Chinchpoogly station, there has been a serious nuisance from a ditch of sewage; but there are other causes of high mortality in Parel and Byculla. The water-supply has not been as plentiful as the people require, and the result has been, especially in Parel, that the people have had to use well waters. In the three districts of the extreme north, the mortality is less than in 1888, Sion, Mahim and Worli.

	1888. Per 1,000 of population.	1889. Per 1,000 of population.
Sion.....	20·65	18·79
Mahim	29·40	25·47
Worli	39·53	24·00

27. The mortality in 2nd Nagpada is 2·39 higher than in the last year; this section is in a very insanitary condition. The mortality for some years has been very high in this section, and I ascribe it to the intense house-crowding, imperfect house-ventilation and imperfect drainage. Within the buildings, the air is impure from imperfect ventilation, and outside the buildings the atmosphere is polluted from imperfect drainage. The drains are tracks under the ground and they have to be opened frequently. There is one sweeper's gully, which is constantly becoming obstructed, and which flows under a large number of houses. The drainage of this district is most urgent, and I have only one opinion to give on its sanitary condition—bad.

28. The infant mortality in these districts indicates that the chances of life are weak.

* Annual increment of population calculated.

29. *Measles.*—The mortality from measles is more than in the previous year. 638 deaths were registered, being 417 more than in the last year and 194 more than the average. As in preceding years, the highest mortality has fallen on females. The female death-rate is 1·00 and the male ·70. In the previous year the male death-rate was ·23 and the female ·35. The incidence of measles follows the seasonal course observed in the appearance of small-pox. The greatest number of deaths was registered in the months of March, April and May.

30. The highest mortality occurred within the first two years of life. The mortality of males at this period of life is higher than of females. Under one year of age, the mortality amongst male children was 11·13 and amongst females 9·73, and from 1 to 5 years of age, the male death-rate was 5·99 and the female 5·67 ; from 6 to 12 years of age, the female mortality is higher than the male, the male mortality being ·36 and the female ·45.

* Annual increment of population calculated.

31. Notwithstanding the prevalence of measles, only one death occurred amongst Europeans.

32. The death-rate from measles by class exhibits a greater fluctuation than in the preceding year. The highest mortality occurred amongst Hindu low-castes. I have, in former reports, dwelt at length on the insanitary condition surrounding and affecting the lives of the low or out-caste Hindus. They are poor, live in poor and damp dwellings, in crowded rooms, more than one family in one room. Over-crowding, imperfect house-ventilation, influence mortality from measles amongst them. The two other classes, in which a high mortality has occurred, are Jains, and Hindus of other castes than Brahmins, &c.

* Annual increment of population calculated.

34. *Small-pox.*—The mortality from small-pox is 178 less than in the last year, although 149 more than the average. The highest mortality in any large class occurred amongst Native Christians, Brahmins, Hindu low-castes, and the mass of the Hindu population. I ascribe the high mortality amongst Native Christians to the immigration of unvaccinated Christians from Goa. The fatality amongst Hindu low-castes and Hindus of other castes is less this year by ·57 and ·37 in each class. As in the previous year the mortality of Mussalmans is relatively low, being ·23 against ·34 in the year before. The mortality amongst Europeans and Parsees is to all other classes amongst whom deaths occurred relatively low. Both in this year and in the previous year the mortality from small-pox amongst Parsees was low. In the previous year it was ·10 and this year it is ·18.

RETURN SHOWING THE NUMBER OF DEATHS FROM SMALL-POX DURING 1889.

Classes.	Population of 1881.	Number of Deaths.	Per 1,000 of Population.

* Annual increment of population calculated.

35. The female mortality from small-pox is as in the previous year highest, amongst females being ·43 against ·36 amongst males. During the first year of life the highest mortality occurred, the incidence being heaviest on females; within the first 4 years of life the highest fatality from small-pox occurred.

* Annual increment of population calculated.

Abstract of Monthly Return of Vaccination by the Superintendent of Vaccination, Presidency Circle, Bombay, for the year 1889.

| Months. | Primary Vaccine Operations. | | |

38. *Cholera.*—603 cases of cholera came to my notice, and 462 ended fatally. The greatest number of deaths occurred in January, July and August; of the 603 cases, 426 were males and 177 females. The proportion of deaths to attacks amongst males being 77·2 and females 75·1. The percentage of deaths to attacks is higher than in the previous year, being 76·6 against 70·4.

For 1889.	Attacks.	Deaths.	Percentage of deaths to attacks.
Males	426	329	77·2
Females	177	133	75·1

39. The influence of the immigrant population on the incidence of cholera is more strongly indicated this year than in the last year, although there was a great importation of cases of cholera in 1888. In 1889, although the total deaths from cholera are 83 more, the deaths amongst the population born in Bombay are only 4 more, whereas the deaths, amongst the population not Bombay-born, are 57 more, and the mortality amongst the Bombay-born is 13 per cent. less than amongst the strangers. The industrial prosperity of the city is drawing an enormous number of the poor and the indigent to the city. We have not only the labourers but the poor with us. The following table will be of much interest :—

For 1889.	Attacks.	Deaths.	Percentage of Deaths to attacks.
Bombay	77	50	64·9
Elsewhere	509	397	77·9
Unknown	17	15	88·2

40. If the length of residence is grouped into two periods, under 3 months and under 6 months' residence in this city, the following are the results and significant these results are. 223 cases out of 603 occurred amongst persons who had been under 6 months in this city :—

Duration of residence in Bombay.	Attacks.	Deaths.
Under 3 months	152	117
Under 6 months	71	53

41. A considerable number of cases, 40 in all, occurred amongst well-water drinkers, and the mortality amongst these well-water drinkers was higher, being 80 per cent., than amongst those who drank Vehar or Tulsi water. I can only write, as I did in the past year, that the use of well-water is becoming more common, owing to increase of population and less Vehar and Tulsi water relatively to the population. A classification of cases of cholera according to water-supply gives the following results :—

For 1889.	Attacks.	Deaths.	Percentage of Deaths to attacks.
Vehar and Tulsi Water Consumers	553	423	76·4
Well-water drinkers	40	32	80·0
Unknown	10	7	70·0

42. In previous reports I pointed out the relation between residence and material conditions and the incidence of cholera, and that persons living on ground-floors, and who are poor, are the most susceptible to cholera ; generally the persons living on ground-floors are of the poorer classes. The conditions generally surrounding cases of cholera arise from imperfect ventilation and imperfect drainage. The house-crowding in the city is very great, and the contamination from it terrible. Practically, all that can be done is to lessen the effects of overcrowding by ventilation.

43. 462 deaths were registered from cholera, being 83 more than in the previous year and 94 more than the average. Of the large classes of population, the highest fatality occurred amongst Native Christians—1·27, and amongst the mass of the Hindu population. The Native Christians, who live in Coors, live under very unfavourable conditions, and when cholera is prevalent, cases occur in the lodging-houses where Christians are crowded. I ascribe the pre-disposition of Native Christians to cholera to the crowding and the conditions under which they live in lodging-houses. Although the total mortality from cholera throughout the city is more than in the previous year, the mortality in one large class—Mussalman—is lower.

Return showing the Number of Deaths from Cholera by Classes during 1889.

Classes.	Population of 1881.	Number of Deaths.	Per 1,000 of Population.

Buddhists	169	...	...
Other and unknown castes	...	...	...
Total...	773,196	462	·51*

* Annual increment of population calculated.

44. Under 1 year of age 1 death occurred; as in former years the mortality from cholera at a very early period of life is small. Amongst males the highest mortality occurred from 20 to 25 and from 25 to 30 amongst females. The incidence of mortality from cholera by age periods follows the direction of former years; it is least during the earlier periods of life and highest as age advances.

45. The mortality by sex this year has followed the incidence of the previous years. In this year the female mortality is ·43 and the male mortality is ·70.

* Annual increment of population calculated.

47. *Fevers.*—In the report of the last year, I pointed out the influence of abnormal atmospheric conditions on the public health. Those influences have been perceptible this year with a scanty rainfall.

The mortality from fever is 7·99 against 7·45 in the preceding year. 7,266 deaths were registered, being 624 more than in the preceding year and 956 above the average, although it must be remembered that the average includes a period of two years, in which there was a remarkable reduction in the mortality from fevers. The increased mortality this year occurred chiefly during the first five months of the year; during the last three months the mortality was lower than in the preceding year. This is shown in the following table:—

DEATHS FROM FEVER.

	1888	1889
January	524	655
February...	399	561
March	521	671
April	574	726
May	570	744
June	580	560
July	561	589
August	594	610
September	536	587
October	614	509
November	552	511
December	617	543
	6642	7266

49. Of the total deaths from fevers, 5577 were referred to remittent fever, being 576 more than in the last year and 747 more than the mean of the last five years; 405 were ascribed to ague, being 155 more than in the last year and 176 more than the average; 1,259 were due to simple continued fever, being 122 less than in the last year, but 23 more than the average, and 25 were referred to enteric fever, being 15 more than in the last year and 10 more than the average. The highest mortality has been registered in Parel, Sewri, Mahalakshmi, Byculla and Kamathipura. The four districts in which the greatest excess of deaths from fevers, as compared with the preceding year, are Parel, Mahalakshmi, Byculla and Upper Colaba, and the five districts in which there is the greatest excess, as compared with the average, are Parel, Byculla, Mahalakshmi, Sewri and Upper Colaba. In eight districts the mortality is less than in 1888. They are Worli, Mazagon, Tardeo, 2nd Nagpada, Mahim, Tarwadi, Kamathipura and Fanaswadi.

50. In 22 sections the mortality is above the total average for the city, and in 10 sections it is below. The sections having a mortality below the average are Upper Colaba, Fort South, Fort North, Esplanade, Market, Fanaswadi, Chowpati, Walkeshwar, Tarwadi and Sion.

RETURN SHOWING THE NUMBER OF DEATHS AND THE RATE OF MORTALITY IN EACH LOCALITY FROM FEVERS DURING 1889.

51. The incidence of fever mortality by race is nearly the same as in the previous year ; amongst the small community of Negro-Africans the highest has occurred, then Jains, and following Jains Hindu low-castes. The mortality amongst Hindu low-castes is very little more, and probably would not be more than in the previous year, if the increase of population was known.

RETURN SHOWING THE NUMBER OF DEATHS FROM FEVERS AND THE RATE OF MORTALITY IN 1889.

Classes.	Population.	Number of Deaths.	Rate of Mortality per 1,000 of Population.
Jains	17,218	329	19·10

* Annual increment of population calculated.

52. The mortality by sex falls heaviest on females, there being nearly a proportionate increase amongst males and females. While the male mortality is 8·51, the female mortality is 10·72. The higher female mortality from fevers has been observed in former years ; the mortality from febrile conditions is highest during the first year of life in both sexes, and the mortality of male children is higher than of females.

53. The mortality by sex is shown in the following groups of age periods :—

	Males.	Females.
Under 1 year	83·27	80·75
1—8	15·97	16·48
8—40	4·06	4·79
Over 40	12·30	12·34

54. Up to 4 years of age the mortality amongst children is high, between 4 and 10 years of age it falls at one period from 8 to 9 to 1·9 amongst males, and between 9 and 10 to 2·8 amongst females; from 13 to 40, the mortality falls heaviest on females.

TABLE SHOWING THE RATE OF MORTALITY FROM FEVERS AMONGST MALES AND FEMALES AT DIFFERENT PERIODS OF LIFE.

Ages.	Mortality from Fevers.

55. *Phthisis.*—The mortality from phthisis is 78 more than in the last year and 14 less than the average of the previous five years. Last year 2nd Nagpada was the section in which the highest mortality from phthisis was registered, and in this year also 2nd Nagpada has the highest mortality, although the death-rate is less than in the last year. In Chuckla and Girgaum also the death-rate from phthisis is a little less than in the last year. Kamathipura, which had ascended from the 8th to the 7th place last year, has ascended this year to the 2nd place on the phthisis mortality list.

Phthisis.

1887. Sections.	Per 1,000 of Population.	1888. Sections.	Per 1,000 of Population.	1889. Sections.	Per 1,000 of Population.

56. *Digestive System.*—The mortality from diseases of the digestive system is 10 more than in the last year, and 88 more than the average. Of the deaths from diseases of the digestive system, 1,099 were referred to diarrhœa, being 93 more than the last year and 74 more than the average; 625 were ascribed to dysentery, being 85 less than in the last year, but 24 more than the average of the previous five years. To all other diseases of the digestive system, 551 deaths were referred, being 10 less than the average of the last 5 years.

57. *Respiratory System.*—To diseases of the respiratory system 3,942 deaths were referred, being 190 less than in the last year, but 74 more than the average. Of the deaths from diseases of the respiratory system 2,446 were referred to bronchitis, being 167 less than in the last year and 28 more than the average; 798 were referred to pneumonia, being 55 less than in the last year and 115 less than the average.

58. *Nervous System.*—The mortality from diseases of the nervous system is 2,122, being 156 more than in the last year and 3 more than the mean of the last 5 years.

59. *Circulatory System.*—194 deaths were registered from diseases of the circulatory system, being 35 more than in the last year, and 28 more than the average.

60. *Urinary System.*—61 deaths were ascribed to affection of the urinary system, being 4 less than in the last year.

61. *Generative System.*—From diseases of the generative system, 204 deaths were registered, being 18 less than in the alst year, but 13 more than the average.

62. *Organs of Locomotion.*—To diseases of the organs of locomotion and cellular tissue, 76 deaths were referred, being 3 less than in the last year and 16 less than the average.

63. *Cutaneous System.*—25 deaths from affection of the cutaneous system were registered, being 6 more than in the last year.

64. *Dropsy.*—To dropsy, 103 deaths were referred, being 17 less than in the last year and three less than the average.

65. *Leprosy.*—46 deaths were registered from leprosy, being 34 less than in the last year and 30 less than the average.

66. *Old Age and Debility.*—From old age and debility 1,660 deaths were registered, being the same number as in the last year, but 301 more than the average.

67. *Accidents.*—379 deaths were registered from accidents and violence, being 6 less than in the last year and 19 more than the average of the last 5 years. Of the deaths from accidents, 78 were ascribed to poisoning, being 6 more than in the last year and 17 more than the average ; of the deaths from poisoning, 40 were suicidal and 29, accidental ; 7 were referred to snake-bite and one to the bite of an animal, and in one instance the circumstances under which death from poison took place, were not known. 98 were ascribed to drowning, being the same number as in the last year and 1 more than the mean. Of the deaths from drowning 28 were reported to be suicidal and 41 accidental, and in 29 instances the circumstances under which death took place, were not known.

68. The suicides by drowning were reported to have occurred under the following circumstances :—

(1.)	Jumping into a well	14
(2.)	„ „ tank	10
(3.)	„ „ sea	3
(4.)	„ „ quarry hole	1

69. Of the dead, 15,656 were buried, 7,750 burnt, 1,196 carried to the Tower of Silence.

70. 15,493 living and 1,224 still-born births were registered. Of the living births, 8,064 were males and 7,429 females. The proportion of male to female births is 108 to 100. The birth-rate is equal to 20·03 per 1,000. A higher birth-rate has been registered amongst Eurasians, 71 per 1,000, Jews 40, Jains 31, Hindus low-castes, 27 and Parsees 26.

	Total...	22,636	6,656	29·40	6,591	29·11

71. The total expenditure on the Health Department came to Rs. 10,71,251-10-1, while the income of the Health Department amounted to Rs. 5,84,553-3-7.

72. The actual cost of the Health Department to the Municipality was Rs. 4,86,698-6-6 against Rs. 5,59,564-4-8.

73. On an average,4,011 men and women and 704 scavengering and drain carts and 155 night-soil and cesspool carts were at work each day.

74. The collection of garbage or kutchra is greater than in the previous year by 12 tons a day; 304,662 tons of garbage, equal to 834 tons a day, were collected and removed and disposed of against 300,249 tons in 1888.

75. 128,986 tons of night-soil, equal to 353 tons a day, were collected and removed against 127,287 tons in 1888.

76. 198 miles of covered drains were opened and cleaned against 207 in 1888.

77. 3,255 notices and 4,607 summonses were issued against 4,240 notices and 6,887 summonses in 1888. The amount of fines recovered amounted to Rs. 1,824-8-0 against Rs. 2,107-4-0 in 1888.

78. The number of licenses granted from 1st April to 31st December 1889, amounted to 1,684, and the amount recovered on account of license fees, Rs. 17,980-0-0. The amount of license fees was less, owing to the introduction of the new Act (and also to the delay in serving summonses), and in consequence, a period during which license fees could not be recovered, while the schedule was being prepared. The annexed table A will show the details of the licenses.

79. For the use of the public Dhobiwada, Rs. 11,638-8-0 were recovered against Rs. 11,840-0-0 in 1888.

In the table following will be found a record of the important work done during the year 1890 :—

Appendix A.

AGGREGATE AND MEAN VELOCITIES AND RELATIVE FREQUENCY OF DIFFERENT WINDS, 1889.

TABLE showing for the year 1889 the Sums of Velocities, in miles per hour, of the Winds which blew in each month, from each of the Sixteen Principal Directions, and also the number of Observations which those sums comprise; the latter numbers indicating the Relative Frequency of the same Winds (as to directions) in the several months, and of different Winds during the same month.

2.—MARKETS.

APPENDED hereto are five tabulated statements, *viz.*, Nos. 1, 2, 3, 4 and 5, in numerical order.

2. Statement No. 1 gives the number of Markets, with the amount of fees received from squatters and stall-holders in each Market, together with the amount of slaughter fees, &c., derived from each Slaughter House during the year, and shewing the increase and decrease in the total amount of Markets and Slaughter House fees for the year under report compared with those of 1888-89.

3. Statement No. 2 shows the number of animals slaughtered at Bandora and in Bombay for public and private purposes, during the year under report.

4. Statement No. 3 shews the amount of revenue derived from the Markets and Slaughter Houses during the last ten years, *viz.*, from 1880 to 1889-90.

5. Statement No. 4 is a record of the quantity of unwholesome food destroyed during the year 1889-90.

6. Statement No. 5 shews the number of convictions by the Presidency Magistrates under the Municipal Acts and By-laws during the year under report.

Remarks on Statements Nos. 1, 2, 3, 4 *and* 5.

7. In reference to Statement No. 1, it will be observed that there is an increase of Rs. 850-9-0 in the Fort Market. This is attributed partly to the right of collecting squatters' fees being sold by public auction for a higher amount than in the preceding year, partly to a number of stalls that were vacant during the preceding year being occupied during the year under report, and partly to a slight rise in the rents of some of the stalls.

8. The increase of Rs. 284-7-4 in the A. C. Beef Market is chiefly due to some of the stalls that were vacant during the preceding year being occupied during the year under report.

9. In the same way there is an increase of Rs. 141-1-8 in the A. C. Fish and Mutton Market, also due to some of the vacant stalls being occupied during the year.

10. The increase of Rs. 3,011-8-10 in the A. C. Fruit and Vegetable Market is partly due to the right of collecting scale fees being sold for a larger sum than in the preceding year, partly to some of the vacant stalls being occupied during the year under report, and partly to a small rise in the rents.

11. There is an increase of Rs. 1,779-12-0 in the Godown Rent. This is on account of all the godowns that were under reconstruction during the preceding year after the fire having been completed and re-occupied during the year under report, and of only getting half the rent for the same for the period they were under reconstruction.

12. The rents from Fowl Rooms shew an increase of Rs. 154-14-0. This is due to two of the Fowl Rooms, that were vacant during the preceding year, being occupied during the year under report.

13. There is only a small increase of Rs. 5-10-0 in the Erskine Road Fish and Mutton Market against a large increase of Rs. 1,158-6-0 in the preceding year. This is attributed to the right of collecting squatters' fees being sold at a lower rate than in the preceding year.

14. It will be observed that the revenue, derived from stall rents in the Erskine Road Fruit and Vegetable Market, shows an increase of Rs. 4,984-2-0. Out of this large amount, the sum of Rs. 4,224-8-0 is on account of the new Vegetable Market completed and occupied from 11th September 1889, the remainder being partly due to rise in the rents of some of the stalls, and partly to some of the stalls that were vacant during the preceding year being occupied during the year under report. There is also a corresponding decrease of Rs. 2,162-10-8 in the amount of squatters' fees collected departmentally from the same market, consequent on all of the squatters having occupied stalls in the new market. Thus the net increase in the total revenue from this market is Rs. 2,821-8-4.

15. The increase of Rs. 339-11-8 shewn in the Bhuleshwar Market is partly due to a small rise in the rents, and partly to some of the stalls, that were vacant during the preceding year, being occupied during the year under report.

16. There is a decrease of Rs. 47-11-0 in the Pedder Market. This is partly due to the right of collecting squatters' fees being sold at a lower rate than in the preceding year, and partly to the vacancy of some of the stalls during the year under report.

17. There is a decrease of annas 4 under the head of Prices Current Forms. This is due to a few forms less being purchased by private persons and dubashes, owing to the publication of market prices in the *Bombay Gazette* twice or thrice a week.

18. The total increase derived from miscellaneous headings, such as garden produce, court fees, &c., is Rs. 54-7-3.

19. There is an increase of Rs. 806-9-0 in the Slaughter Fees. This is due to a greater number of animals being slaughtered for religious purposes during the year under report.

20. The amount derived from Butchers' License Fees shews a very slight decrease of annas 8. The cause of there being no increase in the

revenue from this head is due to a reduction in the number of licenses issued to hawkers, outside shopkeepers, commathees, and dealers attending the Bandora Fair Ground.

21. The increase of Rs. 226-8-0 under the head of Chawl Rent is due to rise in rents of the Chawl.

22. The Fair Ground Rent and Feeding Fees shew a decrease of Rs. 3,714-0-0. This is due to the right of collecting the rent and feeding fees having been sold by public auction at a lower rate than in the preceding year.

23. The decrease of Rs. 25 under the head of Revenue from Toddy Trees is due to the sum of Rs. 25, which actually forms part of the revenue of the year under report being collected during the preceding year.

24. Under miscellaneous headings (Slaughter Houses), there is a decrease of Rs. 3-12-0. This is due to no unclaimed animals being found during the year. Also there is a decrease of Rs. 175-2-0 on account of all meat-van cast bullocks being sent to Pinjrapole by the Acting Superintendent, Mr. Douglas Bennett, instead of being sold by auction and slaughtered for their hides and appurtenances, as has been the practice for years past.

25. During the year under report, Rs. 115-0-0 were recovered from K. D. Framjee, Esq., who purchased the right of collecting and boiling blood at Bandora at the rate of Rs. 10 per month *plus* Rs. 5 for ground rent. Also Rs. 27-8-0 were recovered on account of the verification of weights and measures.

26. After deducting the total decrease of Rs. 3,966-5-0 for the whole year under report from the total increase of Rs. 10,619-2-1 under all heads, there is still a net increase of Rs. 6,652-13-1 for the whole year. The total amount of revenue from Markets and Slaughter Houses for the year under report is Rs. 3,29,170-3-9 against Rs. 3,22,517-6-8.

27, Statement No. 2 shows the number of buffaloes, bullocks, cows, calves, sheep, goats and pigs slaughtered for the Bombay Markets; also the number of sheep and goats slaughtered for Mahim and Bandora; the number of horned cattle as well as sheep and goats slaughtered by the Commissariat Department; the number of horned cattle, sheep and goats brought alive into Bombay for slaughter for religious purposes, &c., during the year under report.

28. Statement No. 3 is a comparative statement shewing the amount received under the different headings of Markets and Slaughter Houses revenue during the last ten years, *viz.*, from 1880 to 1889-90.

29. Statement No. 4 gives the amount of unwholesome food destroyed during the year, which amounts to 18 tons, 13 cwt., 2qrs., and 2 lbs. against 68 tons, 9 cwt., 0 qr. and 5 lbs. during the preceding year.

30. Statement No. 5 shows the number of convictions obtained before the Presidency Magistrates under the Municipal Acts and By-laws during the year. The total number of convictions were 58 against 23 in the preceding year, and the amount of fines is Rs. 442 against Rs. 269.

31. During the year under report, European fruit and vegetables were plentiful, large, good and cheap in the Bombay Markets. Native fruits and vegetables were also plentiful and cheap as usual. Fruits and vegetables now come to Bombay from nearly all parts of India where the railway reaches. But every one complained of the slackness of trade in the markets, as compared with other years.

32. In September 1889, 700 baskets of Muscat pomegranates were imported for the markets, which were good. In the same month there were also imported 59 baskets of Cashmere apples, large and nice to look at, but watery and tasteless.

33. In October 1889, 219 boxes of Tunis apples and 5 boxes of Muscat pomegranates were imported for the markets. Both were good.

34. In November 1889, 137 boxes of Verona apples were imported, and in December were imported 230 boxes of Verona apples, 26 baskets of Cashmere apples, and 360 baskets of Muscat pomegranates. These apples are always very good.

35. In January 1890, were also imported 333 boxes of Verona apples, and 26 boxes of Cashmere apples, and in March 50 baskets of Mascat moosoombee, and 336 boxes of Muscat pomegranates. Consequently the markets were well stocked, and apples and pomegranates were very cheap. But the best apples we ever get in Bombay are from Mangalore.

36. The Mutton Markets were all well supplied, and the meat was well up to the mark. Consequently there were no complaints, but am sorry to say our beef supply was, as usual, poor and small. The cattle are plentiful enough, but as I have formerly reported, they seem to be getting smaller and poorer annually.

APPENDICES.

Scrutiny of Collection and Outstandings of Bills of Rates and Taxes, &c.	115 to 120
End	121

To

H. W. BARROW, Esq.,

Municipal Secretary,

Bombay.

Sir,

In accordance with the 137th Section of the Bombay Municipal Act III. of 1888, we have the honour to send in our Report on the whole of the Municipal Accounts for the official year 1889-90, for submission to the Standing Committee.

We have the honour to be,

Sir,

Your most obedient servants,

ARDASEER FRAMJEE MOOS,

NANABHAI RASTAMJI RANINA,

Municipal Auditors.

Bombay, 8*th September* 1890.

REPORT OF THE CONCURRENT AUDITORS OF THE MUNICIPAL ACCOUNTS FOR THE YEAR 1889-90.

THE Municipal Corporation, at their special meeting held on the 14th day of March 1889, having appointed us Concurrent Auditors to audit the accounts of the Municipality for the year 1889-90, we have the honour to submit our report thereon for the information of the Standing Committee and of the Council.

2. The official year under report comprises twelve months, commencing from 1st April 1889 and ending on the 31st day of March 1890.

3. We have examined the whole of the vouchers and papers relating to receipts and disbursements, and have compared the Day Book with General Ledger and Subsidiary Ledgers, Journal, Bank Receipts for Deposits, Investments of Loans, and Building and Fire Insurance Funds, &c., and found them all in order.

4. In compliance with the direction of the Corporation, contained in their Resolution passed on the 19th November 1888, and communicated to us by the Municipal Secretary in his letter No. 5374 of 1888-89, dated 30th November 1888, we have, at the end of the financial year, examined all Sinking Fund Investments proper to the year, and beg to certify that they have all been duly and properly made.

5. The number of receipts and disbursements vouchers which have passed our scrutiny amounted to 42,826.

6. We have been able from our daily attendance, on an average, from five to six hours, owing to our work having greatly increased to keep the concurrent audit of the daily accounts as close up to date as they were booked.

7. In addition to the concurrent audit, we have examined weekly statements of receipts and disbursements of Municipal accounts at the end of each week, before they were published in the *Government Gazette*. The accuracy of this weekly audit was further tested at the end of each month by our preparing a summary of all accounts *directly* from the General Ledger and independently of the weekly statements. The summary contained totals of receipts and disbursements of each account as it stood in the Ledger at the end of the last week in each month, and which totals were tallied with the aggregate total of each head of accounts given in the weekly statements of the month. By this method of scrutiny, any error, or omission or a wrong posting of an item in the Ledger could not remain undetected for more than a month at the most.

8. The summary, so prepared by us, was forwarded every month to the Secretary for submission to the Standing Committee.

Receipts.

9. The total receipts of the Municipal Fund from all sources, except Water Works Fund, amounted, during the twelve months ending 31st March 1890, to Rs. 42,19,164-0-7, and adding to this the income of Water Works Fund for the year, amounting to Rs. 10,78,498-8-4, and profit on valuation of Water Works stock, amounting to Rs. 44,507-1-10, the whole total of all receipts amounted to Rs. 53,42,169-10-9 (*vide* Statement A of the Municipal accounts given by the Chief Accountant).

10. The total receipts, compared with the total receipts of 1888-89, give an increase of Rs. 3,75,977-3-11 over the last year.

Expenditure.

11. The total expenditure of Municipal Fund and of Water Works Fund, during the 12 months ending 31st March 1890, amounted to Rs. 50,42,404-13-2 (*vide* Statement C). Out of this total, Rs. 37,50,488-15-1 were paid on account of the Municipal Fund only, including expenditure of all departments (except that of the Water Works) and payments made on account of Interest on Loans and Sinking Fund, and redemption of Municipal Debentures, less Rs. 73,540-1-8, which were debitable to Water Works Fund on account of General Superintendence.

12. Rs. 12,10,641-5-9 were disbursed on account of Water Works, including the above-mentioned Rs. 73,540-1-8, and Rs. 1,97,321-2-3, which were paid towards the reduction of Water Works Loans (particulars as per margin), and Rs. 9,39,780-1-10 paid on account of the maintenance of Vehar Water Works, New Works, and interest on account of the Water Works Loans, tallied as per margin.

	Rs.	a.	p.
1. Vehar Water Works Debt	62,783	6	2
2. Bhandarwada Loan of 10 lakhs	13,363	0	6
3. Tulsi Water Works Loan of 36 lakhs	83,523	0	3
4. Balance of Tulsi Water Works Loan of 4 lakhs	8,408	7	10
5. Water Works portion of 44 lakhs Sanitary Works Loan of Rs. 18,98,921	26,678	9	6
6. Water Works portion of 7 lakhs Sanitary Works Loan of Rs. 1,90,889	1,631	14	6
7. Water Works portion of 12 lakhs Drainage and Water Works Loan of Rs. 85,000.	779	2	8
8. Water Works portion of Loan of 1888-89 for Drainage and Water Works, Markets and Roads, Rs. 1,35,000	1,153	8	10
Rs..	1,97,321	2	3

	Rs.	a.	p.
General Superintendence	73,540	1	8
Reduction of Water Works Loans..	1,97,321	2	3
Maintenance of Vehar Lake and New Works.....Rs. 1,30,262-7-11			
Interest on Water Works Loans..... „ 8,09,517-9-11			
	9,39,780	1	10
Rs...	12,10,641	5	9

13. Rs. 1,27,355-15-5 were paid towards the reduction of the Drainage Loan of 17 lakhs, Consolidated Loan of 21 lakhs, and Sanitary Works Loan of 44 lakhs, as per particulars given in Statement C, and Rs. 24,458-10-7 were invested in Government Papers on account of Municipal Building Fund, and Rs. 3,000 on account of Municipal Buildings Fire Insurance Fund.

14. Out of the total disbursement of Rs. 50,42,404-13-2, deducting the amounts invested on account of Municipal Building and Fire Insurance, and Rs. 5,800-13-1 being the investment of interest realized on the 5 per cent. Municipal Loan Sinking Fund investment, the net total expenditure amounted to Rs. 50,09,145-5-6, being Rs. 1,08,567-11-4 less expended than in last year.

PARTICULARS OF RECEIPTS.

17. *Water Rate* realized Rs. 11,23,005-10-2 in 1889-90, after paying refunds and adjustment of errors in other heads, amounting to Rs. 2,316-7-7 against Rs. 9,64,634-1-2, being Rs. 1,58,371-9-0 more than the receipts of 1888-89, owing to water rate being levied under Sections 141 and 142 of the Act on all properties in the whole City irrespective of actual service, and also to the amount of profit on valuation, &c., of the stock belonging to Water Works having been added to this account.

Budget Estimate, Rs. 9,55,750.

18. *General Tax at 8½ per cent.*—The total amount under this head comprising *house*, *police*, and *lighting*, rates and contribution from Government of Rs. 50,000, and from Port Trust of Rs. 1,62,990, amounted to Rs. 16,61,696-8-8, after paying refunds and adjustment of errors in other heads of Rs. 3,726-13-3 against Rs. 14,66,024-8-1, being Rs. 1,95,672-0-7 more than the receipts of 1888-89. This increase is due to the additional charge of half per cent. on account of charges for Fire Brigade, on house property under Section 140 (c) of the Act, as well as to rapid extension of buildings in the City and to rise in rents.

Budget Estimate, Rs. 16,15,000.

19. *Wheel Tax* amounted to Rs. 3,12,779-10-10 in 1889-90 against Rs. 3,00,360-6-0 in 1888-89, being Rs. 12,419-4-10 more than the receipts of the last year, although it has fallen under the Budget Estimate. The decrease is attributed to the reduction made on the tax on labor carts and other public conveyances.

Budget Estimate, Rs. 3,30,000.

20. *Toll Fees* levied on carts which pass Sion and Mahim Causeways, collected by the officers of the Port Trust Department, amounted to Rs. 12,835-14-0 in 1889-90 against Rs. 14,210-6-0 in 1888-89, being Rs. 1,374-8-0 less than the receipts of the last year, for reason mentioned above, relating to labor carts, &c.

Budget Estimate, Rs. 13,700.

21. Establishment for collecting Toll Fees under the Traffic Manager amounted to Rs. 1,680-0-0, same as paid in last year.

22. *Liquor Licenses* amounted to Rs. 1,43,750, the usual annual instalment fixed by Government according to Section 63 of Act V. of 1878, in lieu of Liquor Licenses.

Budget Estimate, Rs. 1,43,750.

23. We repeat what we said in our last report that a respectful representation should again be made by the Council to Government, soliciting their favourable consideration on this subject, and to give the Municipality a reasonable increase in their annual instalment of liquor licenses.

24. *Land Conveyance Licenses.*—Under this head were collected Rs. 15,024-13-8 in 1889-90 against Rs. 3,933-9-5, in 1888-89 being Rs. 11,091-4-3 more than the receipts of the last year. The increase is due to a change made in the establishment under the New Act, wherein by Section 111 the Police Commissioner has to pay the *gross* receipts *direct* into the Municipal Treasury; whereas, under the old system, the Police Commissioner paid into the Municipality only the *net* receipts after paying his establishment. The cost of this establishment will therefore appear as a charge for the first time in the Municipal accounts this year.

Budget Estimate, Rs. 13,200.

25. *Halalcore Cess* yielded Rs. 4,73,919-1-3 in 1889-90, against Rs. 3,90,038-9-5 in 1888-89 being Rs. 83,880-7-10 more than the receipts of the last year. The increase is due to the levy of the taxes under Sections 141 and 142 of the Act, as explained before under the head of Water Works Receipts, as well as to the extension of house property.

Budget Estimate, Rs. 3,93,000.

26. *Town Duties.*—Gross receipts under this head amounted to Rs. 12,53,654-3-8 against Rs. 16,04,227-11-0 ; being Rs. 3,50,573-7-4 *less* than the receipts in 1888-89 ; chiefly due to omission of Petroleum from the list of taxable articles by the New Municipal Act, and to other decreases under the articles, such as grain, wines and timber.

Budget Estimate, Rs. 6,70,000.

27. The decrease of gross receipts, of Rs. 3,50,573-7-4, is explained as follows :—

		Rs. a. p.	Increase. Rs. a. p.	Decrease. Rs. a. p.
Port Trust yielded in.	1888-89...	11,76,993 14 6		
	1889-90...	9,48,380 15 8		
		.....	.....	2,28,612 14 10

	Rs.	55,987 0 0	3,55,587 0 0
	Deduct... "	.....	55,987 0 0
	Net less Receipts...Rs.		2,99,600 0 0

29. *Refunds of Town Duties* amounted to Rs. 5,86,588-13-0 in 1889-90 against Rs. 8,78,330-8-0 in 1888-89, being Rs. 2,91,741-11-0 less than refunds paid in last year.

30. *Charges on account of Commission* paid for collecting Town Duties amounted to Rs. 48,337-14-1 in 1889-90 against Rs. 58,197-4-11, being Rs. 9,859-6-10 less paid in 1888-89.

31. *Tobacco Duty Licenses.*—Receipts under this head amounted to Rs. 1,90,922-1-1 in 1889-90 against Rs. 1,91,296-11-4, being Rs. 374-10-3 less than the receipts of 1888-89.

Budget Estimate, Rs. 1,83,000.

32. *Tobacco Duty Establishment.*—The Commissioner of Customs was paid Rs. 17,959-8-10 in 1889-90, his charges for the collection of this revenue, against Rs. 17,571-4-3, being Rs. 388-4-7 less charged than in last year.

33. *Market and Slaughter-house Receipts.*—Receipts under this head amounted to Rs. 3,02,124-15-5 in 1889-90 against Rs. 3,02,163-6-7, being Rs. 38-7-2 less than the receipts of 1888-89. The receipts, however, fell much more than the Budget Estimate by Rs. 8,775-0-7, the decrease being attributed to the Bandora Fair Ground and Feeding Fees having realized Rs. 3,700 less, at the usual auction sale, than last year, and also to the cost of feed of animals brought for slaughter having been enhanced by higher contract rate.

Budget Estimate, Rs. 3,10,900.

34. *Market and Slaughter House Establishment.*—The expenditure incurred on account of this Establishment amounted to Rs. 1,11,430-14-11 in 1889-90 against Rs. 1,07,660-2-10, being Rs. 3,770-12-1 more than the expenditure in 1888-89.

Budget Grant, Rs. 1,26,401-10-5.

The increase was due to the employment of Police Ramosees for night-duty at the Arthur Crawford Market; to enhanced lighting charges on the extension of the Erskine Road Market; also to the enhanced cost of feeding bullocks employed for meat-carriages and to the extra cost of painting the Arthur Crawford Market, usually done every alternate year.

35. *Contribution from Municipal Servants towards Pensions, &c., Fund* amounted to Rs. 13,534-4-2 in 1889-90 against Rs. 14,844-8-10, being Rs. 1,310-4-8 less than the amount of contributions in the last year.

Budget Estimate, Rs. 12,000.

36. *Tramway Rent* yielded Rs. 36,192-3-10 in 1889-90, being the same amount as was paid in 1888-89.

Budget Estimate, Rs. 36,000.

37. *Miscellaneous Fines and Penalties* amounted to Rs. 6,070-15-5 in 1889-90 against Rs. 6,731-10-10, being Rs. 660-11-5 less than the receipts of the last year. The decrease is due to the kind consideration shown

Budget Estimate, Rs. 8,000.

by the Municipality to halalcores and other labourers of the Health Department, by not fining them in July, August and September last year and very lightly in subsequent months to restore confidence among them, after the late strike among the scavengers of the Department.

38. *Miscellaneous Fees* amounted to Rs. 77,784-5-2 in 1889-90 against Rs. 81,207-14-5 being Rs. 3,423-9-3 less than the receipts of the last year.

Budget Estimate, Rs. 94,700.

39. The decrease of Rs. 3,423-9-3 is explained as follows :—

Particulars.	Years.	Receipts.	Increase.	Decrease.
Assessor and Collector's Department.	1888-89	5,477 5 7		
	1889-90	5,273 0 6	.....	204 5 1
Municipal Engineer's Dept...	1889-90	18,827 8 8		
	1888-89	15,026 2 10	3,801 5 10	.....
Chief Accountant's ,, ...	1889-90	88 4 0		
	1888-89	87 4 0	1 0 0	.....

Municipal Commissioner's Department.	1888-89	48 0 0		
	1889-90	43 8 0	.....	4 8 0
		Total...Rs.	3,807 1 10	7,230 11 1
		Deduct—Increase ...	Rs.	3,807 1 10
		Net Decrease ...	Rs.	3,423 9 3

40. *Miscellaneous Savings* amounted to Rs. 1,625-9-6 in 1889-90, against Rs. 3,741-1-0, being Rs. 2,115-7-6 less than the savings of the last year. These savings were mere unpaid salaries of some of the employés of the Municipality, whose wages were retained in the office for various reasons, but were eventually paid after satisfactory explanation.

Budget Estimate, Rs. 3,000.

41. *Miscellaneous Receipts* amounted to Rs. 88,133-2-1 in 1889-90 against Rs. 1,09,247-15-2, being Rs. 21,114-13-1 less than the receipts of the last year. The decrease is explained as follows :—

Budget Estimate, Rs. 80,000.

Particulars.	Years.	Receipts. Rs. a. p.	Increase. Rs. a. p.	Decrease. Rs. a. p.
General Sales Account.

		Total...Rs.	474 7 5	21,589 4 6
		Deduct—Increase...Rs.		474 7 5
		Net Decrease ...Rs.		21,114 13 1

42. *Public Gardens.*—Receipts under the head of Gardens amounted to Rs. 6,322-5-0 in 1889-90 against Rs. 5,961-7-10, being Rs. 360-14-2 more than the receipts of 1888-89. The increase is due to larger sales of plants, flowers, fruits, &c., during the year.

Budget Estimate, Rs. 8,000.

43. The items of investments on which interest has been realized during the year 1889-90 are as under, with the amount of interest set against each item :—

		Rs. a. p.
1.	Interest on 44 lakhs Sanitary Works Loan Deposit Account No. 1	66,054 4 11
2.	Interest on 44 lakhs Sanitary Works Loan Deposit Account No. 2	3,488 11 10
3.	Interest on 12 lakhs Drainage and Water Works Loan Deposit Account	5,876 8 2
4.	Interest on Miscellaneous Works Loan Deposit Account	2,421 11 4
5.	Interest on Surplus Cash Deposit...	38,986 8 6
6.	Do. on 6 per cent. Loan Sinking Fund ...	462 10 5
		1,17,290 7 2
7.	Do. and profit on the Municipal Building Fund investment	25,083 10 7
8.	Do. on the Municipal Sinking Fund invested	5,800 13 1
		Rs. 1,48,174 14 10

44. *Profit on Municipal Workshops.*—The total gross receipts of Municipal Workshops amounted to Rs. 1,69,565-5-1 in 1889-90 against Rs. 1,18,446-10-11 in 1888-89, being Rs. 51,118-12-2 more than the receipts of the last year.

45. Similarly, the expenditure on account of these Shops amounted to Rs. 1,64,794-4-6 in 1889-90 against Rs. 1,14,169-3-8, being Rs. 50,625-0-10 more than the expenditure in 1888-89.

46. Comparing the gross receipts of the Workshops for the year 1889, at Rs. 1,69,565-5-1 with the gross expenditure at Rs. 1,64,794-4-6 for the year, there was left a small profit of Rs. 4,771-0-7 for the year 1889-90.

47. The increase of expenditure, which were departmental charges, was due to heavy repairs to the engines working at the Love Grove Pumping Station, to construction of new water carts, also to a large number of wrought-iron water tanks for the Drainage and Road Department and to the construction of Assessment Ward Office at Sankli Tank.

48. The outstandings of the last year amounted to Rs. 46,045-8-9 and in 1889-90 they amounted to Rs. 1,10,933-3-7, which was due to several expenditure bills which, not having furnished details, remained unadjusted at the closing of the year.

49. *Profit and Loss on Stores.*—The entry of Rs. 56,436-12-5 as profit on stores is an adjusted credit item, representing the value of Dead and Live Stock purchased during the year, as allowed by the Budget Grant, after deducting the value of Live Stock, which have died, and for the depreciation of unserviceable Live and Dead Stock.

PARTICULARS OF DISBURSEMENTS.

50. *General Superintendence.*—The total expenditure under the head of General Superintendence, in which are comprised the departments of the Municipal Council, and of the Standing Committee, of the Municipal Commissioner, and of the Chief Accountant, amounted to Rs. 1,77,132-12-2 in 1889-90 against Rs. 1,69,223-1-8, being Rs. 7,909-10-6 more than the expenditure in 1888-89.

Amended Budget Grant, Rs. 1,85,327-15-3.

51. The increase in the expenditure is explained as follows :—

Particulars.	Years.	Expenditure. Rs. a. p.	Increase. Rs. a. p.	Decrease. Rs. a. p.
I. Council and Standing Committee Establishment.	1889-90	47,110 7 1

		Deduct—Increase...		1,924 0 1
		Net Decrease...Rs.		573 11 1

56. *Licensing Department* expended Rs. 8,955-11-11 in 1889-90 against Rs. 5,087-4-1, being Rs. 3,868-7-10 more than expended in 1888-89. This increase of expenditure was due to the separation of Land Conveyance Establishment from the Office Establishment of the Police Commissioner under the New Act. Receipts collected by the Commissioner on account of land conveyances were paid *direct* into the Municipal Treasury as explained before in para. 24 of this report, a charge for payment to this establishment having been preferred by the Police Commissioner on the Municipality for the first time in 1889-90.

Amended Budget Grant, Rs. 15,340.

57. The increase of Rs. 3,868-7-10 is explained by the following details :—

Particulars.	Years.	Expenditure. Rs. a. p.	Increase. Rs. a. p.	Decrease. Rs. a. p.
I A. Office Establishment (under Police Commissioner).	1889-90	1,200 0 0

			1,720 9 10	.....
,,		Total...Rs.	23,277 12 6	1,03,758 6 3
		Deduct—Increase...Rs.		23,277 12 6
		Net Decrease...Rs.		80,480 9 9

64. *Improvement of Streets.*—Under this head of accounts were expended Rs. 73,366-7-0 in 1889-90 against Rs.49,033-11-9, being Rs. 24,332-11-3 more expended than in 1888-89. The increase was due to compensations for lands and buildings taken up for street improvement.

Amended Budget Grant, Rs. 1,98,260-10-3.

65. *Repairs to Municipal Buildings.*—Under this head of accounts were expended Rs. 5,685-3-8 against Rs. 6,805-10-5, being Rs. 1,120-6-9, less expended than in 1888-89.

Amended Budget Grant, Rs. 6,000.

66. *Cleaning, Lighting and Repairing Port Trust Wharves.*—Under this head of accounts were expended Rs. 25,460 against Rs. 32,224, being Rs. 6,764 less expended than in 1888-89. The decrease of expenditure was owing to the charges for lighting of Prince's and Victoria Docks having been transferred from this head to the head of lighting accounts in 1889-90.

Amended Budget Grant, Rs. 26,180.

67. *Drainage.*—Rs. 1,22,171-13-3 were expended in 1889-90 against Rs.1,05,859-12-7, being Rs. 16,312-0-8 more expended than in 1888-89. The increase is explained under the following details :—

* Amended Budget Grant, Rs. 1,40,526-13-7.

Particulars.	Years.	Expenditure. Rs. a. p.	Increase. Rs. a. p.	Decrease. Rs. a. p.
1. Miscellaneous Drainage and Staff.	1889-90	34,086 0 7		
	1888-89	28,507 3 1

	1888-89	.....	882 1 8	.....
X. Purchase of a Centrifugal Pump (18").	1889-90	2,354 3 1		
	1888-89	.....	2,354 3 1	.....
		Total... Rs.	19,975 13 4	8,993 14 9
		Deduct—Decrease... ,,	8,993 14 9	
		Net Increase... Rs.	10,981 14 7	

70. Besides the increase of expenditure on the Love Grove Pumping Station, as shown in the above particulars, the following excesses of expenditure have been incurred by the Executive Engineer without the sanction of the Corporation or of the Standing Committee :—

Excess of Rs. 3,200 on the Contingencies and Stores Grant (Love Grove Pumping Station).
" " " 12,384 on Miscellaneous Drainage.
" " " 20,000 on Repairs to Machinery.
" " " 7,500 over the Grant of Rs. 5,000 allowed for Supplemental Machinery.

Rs. 43,084 Total excess of expenditure.

71. It should, however, be observed that the Executive Engineer was authorized by the Municipal Commissioner to execute some special repairs and several other important and urgent repairs to machinery at Love Grove, so far back as February 1890, subject to reporting the result and cost forthwith. No report has yet

been submitted relating to these excesses. It is, therefore, necessary, as we observed in our former report, that some stringent rules be introduced in all departments of the Municipality never to incur any excess of expenditure without first submitting at least an approximate estimate of the excess of expenditure and obtaining sanction of the Standing Committee thereon.

72. The decrease of Rs. 248-11-5 in the maintenance of Worli and Dharavi sluices was chiefly due to less expenditure in the purchase of materials and in repairs and contingencies.

73. *Maintenance of Public Gardens.*—Expenditure under the head of Public Gardens amounted to Rs. 65,152-10-8 in 1889-90, against Rs. 48,938-12-3, being Rs. 16,213-14-5 more expended than in 1888-89, under the following sub-heads :—

Amended Budget Grant, Rs. 72,472-5-9.

	1888-89	8,359 4 7	141 5 0	.....
III. Seeds & New Plants.	1888-89	1,855 6 7		
	1889-90	1,704 2 10	.....	151 3 9
IV. Repairs and New Works.	1889-90	22,434 0 0		
	1888-89	9,070 0 1	13,364 4 2	.....
V. Water-supply ...	1889-90	11,224 12 3		
	1888-89	9,791 8 2	1,433 4 1	.....
		Total...Rs.	16,024 5 9	151 3 9
		Deduct—Decrease... „	151 3 9	
		Net Increase...Rs.	15,873 2 0	

75. *Interest on Loan* (*Municipal Debt*).—Payments under this head of account amounted to Rs. 3,45,477-0-8 in 1889-90 against Rs. 3,26,391-1-0 being Rs. 19,085-15-8 more paid than in 1888-89.

Amended Budget Grant, Rs. 4,39,715.

76. *Charges on account of Loans* amounted to Rs. 6,039-5-7 in 1889-90 against Rs. 18,952-10-0, being Rs. 12,913-4-5 less than the charges in 1888-89.

Amended Budget Grant, Rs. 12,200-11-2.

77. *Joint Schools' Committee Establishment.*—This Committee was formed in the beginning of the year 1889-90.

Budget Grant, Rs. 6,150.

78. The Municipal Council, on the recommendation of the Standing Committee, sanctioned the full annual grant of Rs. 6,150 for the year 1889-90 by their Resolution No. 214 of 25th April 1889, and the amount was handed over to the Bank of Bombay on the 11th May 1889, to be credited to a separate account, and to be operated upon by the Joint Schools' Committee.

79. The handing over of the full grant to the Joint Schools' Committee by the Standing Committee was a departure from the ordinary practice, and did not seem to be contemplated by Section 39 (6) of the New Municipal Act. This Section 39 (6) clearly defines that the Corporation shall provide for the Joint Schools' Committee a competent Secretary and such clerks and messengers as shall be necessary, &c., but it does not empower the Corporation to hand over the whole of the annual grant to be expended by the Joint

Schools' Committee. The usual course hitherto followed by the Corporation is to pass the amount of annual grant for each department, and the money is paid regularly every month according to Abstracts submitted by the Head of each Department.

80. As required by the provision of Section 137 (1) of the New Act, we reported this irregularity at once to the Standing Committee on the 15th May 1889, by a letter addressed to the Municipal Secretary. This letter was submitted to the Standing Committee at their meeting held on the 22nd May 1889, when the following Resolution was passed by the Committee on the subject :—

"That, with reference to the Auditors' letter, dated the 15th May "1889, they be instructed to pass the payment made by the Com- "missioner to the Joint Schools' Committee of Rs. 6,150, being "the full amount of the annual grant for their establishment, made "by the Corporation under the terms of Section 39 (6) of the "Municipal Act.

"That the accounts of the Joint Schools' Committee for the "expenditure of the above grant be audited by the Auditors in the "same way that the accounts of all establishments under the "Commissioner are audited, the Joint Schools' Committee keeping "and furnishing monthly, or as may be otherwise required, a "tabulated Statement showing the expenditure to date under each "head of the grant in the same way that tabulated statements are "kept by the Chief Accountant of the expenditure or other branches "of the Municipality."

81. Accordingly we have audited the accounts of the Joint Schools' Committee for the year 1889-90, and we give a brief summary showing how the grant of Rs. 6,150 has been appropriated and the unexpended balance of Rs. 1,326-6-4 returned to the Municipality at the end of the official year.

Summary of Expenditure of the Joint Schools' Committee for 1889-90, *from 26th April* 1889 *to 28th February* 1890.

					6,150	0	0

82. *Primary Education.*—A sum of Rs. 31,374 was contributed towards Primary Education by the Municipality in 1889-90, the same amount having been contributed in 1888-89.

Budget Grant, Rs. 31,374.

83. *Medical Female Scholarship.*—A further grant of Rs. 1,000 was given by the Municipality for awarding a Medical Female Scholarship, as approved of by the Corporation in their Resolution No. 998, dated 7th May 1888, for the year 1889-90, but the amount remained undrawn as no Female Candidate presented herself for the scholarship.

84. *School for Deaf and Dumb Mutes.*—Full grant of Rs. 1,800 was paid to this school in 1889-90, as was given in 1888-89.

Budget Grant, Rs. 1,800.

85. *Veterinary College.*—Full grant of Rs. 2,500 was paid to this institution in 1889-90, as was given in 1888-89.

Budget Grant, Rs. 2,500.

86. *Victoria and Albert Museum.*—Rs. 9,860-9-2 were contributed to this institution in 1889-90 against Rs. 10,307-8-1 being Rs. 446-14-11 less than contributed last year.

Budget Grant, Rs. 10,000.

87. *Gokuldas Tejpal Hospital.*—Rs. 29,213-2-1 were paid towards the expenses of this hospital in 1889-90 against Rs. 30,798-0-2, being Rs. 1,584-14-1 less paid than in 1888-89.

Budget Grant, Rs. 36,000.

88. *Jaffer Suleman Dispensary for Women and Children.*—The whole grant of Rs. 6,000 was paid in 1889-90, same as was paid in 1888-89.

Budget Grant, Rs. 6,000.

89. *Pensions, Gratuities and Compassionate Allowances.*—Pensions amounted to Rs. 24,150-9-6 and Gratuity and Compassionate Allowances to Rs. 4,988-11-0 in 1889-90 against Rs. 19,000-3-9, and Rs. 469-5-11, respectively, in 1888-89, being Rs. 5,150-5-9 more on account of Pensions and Rs. 4,519-5-1 on account of Gratuity, &c., than paid in 1888-89.

Budget Grant, Rs. 30,188-6-4.

90. *Discretional Contingencies.*—Rs. 6,957-1-2 were expended under this head in 1889-90 against Rs. 4,952-15-11, being Rs. 2,004-1-3 more than paid in 1888-89.

Budget Grant, Rs. 9,160.

91. We give details of charges paid out of the Discretional Contingent Grant which was placed at the disposal of the Commissioner for the purpose of meeting unforeseen charges.

Details of charges paid out of the Discretional Contingent Grant for 1889-90.

Do.	Municipal Workshop charges on account of seven benches supplied for the Northbrook Garden	216	8	0
	Total ...	6,957	1	2

92. *Auditors' Allowance.*—Rs. 7,250 were expended in payment to Auditors as their audit fee for 1889-90, being Rs. 750 less than the Budget amount of Rs. 8,000. This difference was due to their having been paid for the last quarter of 1888-89 in the beginning of the year 1889-90 at the rate of Rs. 5,000 per annum.

Budget Grant, Rs. 8,000.

93. The Auditors think it proper again to observe that their work has, year after year, greatly increased, and they therefore respectfully repeat, what they have so frequently asked in the former reports, that they should be provided with a clerk to help them in going through certain clerical work.

94. *Rent of Municipal Office.*—The whole of the grant was expended in payment of rent of the Municipal Office, at Rs. 1,400 per mensem, for the year 1889-90.

Budget Grant, Rs. 16,800.

95. *Nesbit Road Bridge.*—A final sum of Rs. 12,714-13-0 was paid to the G. I. P. Railway Company towards the expenses on this bridge in 1889-90, raising the total of payment on this account to Rs. 2,26,333-12-9 up to 31st March 1890.

Budget Grant, Rs. 13,096-0-3.

96. The following sundry Expenditure was incurred during the year 1889-90 :—

		Rs.	a.	p.
Election expenses		3,080	15	4
Cost of illuminating the addresses presented to H. R. H. Prince Albert Victor and of the casket to contain the same		1,965	0	0
	Carried over... Rs.	5,045	15	4

	Rs.	a.	p.
Brought forward... Rs.	5,045	15	4
Contribution towards the cost of entertainment on the occasion of the return visit of H. R. H. Prince Albert Victor	22,500	0	0
Remuneration and travelling and other expenses paid to Mr. Baldwin Latham, while engaged in advising and reporting on the question of the Drainage of Bombay.	31,608	13	4
Rs.	59,154	12	8

97. *New Works.*—Rs. 45,997-4-6 were expended on new works in 1889-90 against Rs. 65,177-14-3, being Rs. 19,180-9-9 less expended under this head than in 1888-89.

Out of Rs. 45,997-4-6 expended on new works :—

Rs.	23,075	12	8	were spent on works under the Health Department.
„	19,277	6	6	on Road Department.
„	3,644	1	4	on Drainage.
Rs.	45,997	4	6	

98. *Lighting Account.*—Cost of lighting the Town and the Island of Bombay, amounted to Rs. 3,01,930-0-0 in 1889-90 against Rs. 2,91,554-10-1, being Rs. 10,375-5-11 more than expended in 1888-89.

Amended Budget Grant, Rs. 3,13,725-8-8.

99. The increase is explained as per particulars given below :—

Particulars.	Years.	Expenditure. Rs.	a.	p.	Increase. Rs.	a.	p.	Decrease. Rs.	a.	p.

104. *Loan Works, Water Works.*—During the year under report, the following further expenditure was incurred, with the sanction of the Municipal Council, in connection with Water Works, out of the various loans. They amount in all to Rs. 37,74,598-3-4 against Rs. 26,09,743-13-1, being Rs. 11,64,854-6-3 more expended than in 1888-89 :—

		Rs.	a.	p.
1.	On Tansa Works from Tansa Loan	34,47,137	5	3
2.	On Malabar Hill Reservoir from 7 Lakhs Sanitary Works Loan	1,13,946	7	2
3.	On Pawai Water Works from Rs. 6,82,000	76,488	1	0
4.	On Bhandarwada Reservoir from 7 Lakhs Sanitary Works Loan	45,093	4	0
5.	Cost of New Water Mains from Nesbit Road to Babula Tank	15,000	0	0
6.	Portion of excess cost on Vehar Out-let Tower from 44 Lakhs Sanitary Works Loan	23,684	11	9
7.	Extension of Catch-water Channels at Tulsi	13,491	1	3
8.	Concrete trench, Waste Weir, Vehar Lake from Loan of Rs. 6,82,000	12,072	15	11
		Rs. 37,46,913	14	4
9.	Sundry other Works	27,684	5	0
	Total...Rs.	37,74,598	3	4

105. *Surface Drainage Works.*—A further sum, expended on these works during the year, amounted to Rs. 2,995-5-9, which, when added

to the total of the previous year, Rs. 13,12,778-3-11, makes a total of Rs. 13,15,773-9-8 up to 31st March 1890.

106. *New Drainage Works.*—A further sum, expended on these works during the year, amounted to Rs. 3,05,698-7-0, which, when added to the total of last year, Rs. 30,19,060-11-0, makes a total of Rs. 33,24,759-2-0 up to 31st March 1890.

107. *New Roads from Bellasis Road across the old Race Course, at Matoonga and Agripada and Cross Road at Mahaluxmi Station from Clerk Road to Haines Road.*—A further sum of Rs. 46,021-6-3, was expended on these roads during the year, which when added to the total of last year, Rs. 1,41,282-7-9, makes a total of Rs. 1,87,303-14-0 up to 31st March 1890.

108. *Extension of Markets.*—Further sums of Rs. 783-1-10 on the extension of Erskine Road Market, of Rs. 231-12-0 on Arthur Crawford Market, and of Rs. 2,13,638-0-2 on Bhuleshwar Market were expended during the year, making a total of Rs. 2,14,652-14-0.

109. *Municipal Building Fund.*—A further sum of Rs. 96,299-15-10, was expended on the construction of the New Municipal Building, which, when added to Rs. 90,088 expended in last year, makes a total of Rs. 1,86,387-15-10 up to 31st March 1890.

110. *Liabilities and Assets.*—In accordance with the provision of the Municipal Act, the accounts of the Vehar Water Works Fund are kept entirely separate and distinct from other accounts of the Municipal Fund; hence the Assets and Liabilities of the Municipal Fund are shown separately in Schedules Nos. 4 and 5 and of the Water Works Fund in Schedule No. 7.

111. From Schedules Nos. 4 and 5, it will appear that the total Liabilities of the Municipal Fund amounted to Rs. 92,47,127-0-0 in 1889-90 against Rs. 85,60,677-12-3, being Rs. 6,86,449-3-9 more than the Liabilities in 1888-89.

112. The *Assets* of the Municipal Fund amounted to Rs. 2,14,95,708-14-9 in 1889-90 against Rs. 2,02,67,044-7-10, *including* Rs. 8,62,245-5-4, being the balance due by the Water Works Fund to the Municipal Fund, showing an increase of *Assets* amounting to Rs. 12,28,664-6-11 over the *Assets* in 1888-89 and a decrease of Rs. 6,02,407-13-4 in the balance due by the Water Works Fund last year.

113. From Schedule No. 7 it will appear that the total Liabilities of the Water Works Fund, amounted to Rs. 1,98,43,947-6-4 in 1889-90, including debt due to Municipal Fund, against Rs. 1,80,39,708-3-1, being Rs. 18,04,239-3-3 more than the Liabilities in 1888-89.

114. The Assets of the Water Works Fund amounted to Rs. 2,19,76,632-12-1 in 1889-90 against Rs. 1,99,61,050-0-5, being Rs. 20,15,582-11-8 more than the Assets in 1888-89.

115. *Scrutiny of Collections and Outstanding Bills of Rates and Taxes for the year* 1889-90 *and of previous years.*

Collections.—During the year under report, there were issued, by the Assessor and Collector, 89,233 net demand assessment bills, amounting in value to Rs. 32,43,765-6-5.

116. To the abovementioned number of bills, were added 234 additional bills for the year 1888-89 and for previous years up to 1882 inclusive, of the value of Rs. 95,330-0-11, making the total of all collection to 89,467, amounting to Rs. 33,39,095-7-4. Adding to this the amount of Government and Port Trust Bills of the value of Rs. 2,23,177 and the amount of Rs. 1,74,829-3-1, being the outstandings of the last year, 1888-89, the total value of collection bills for the year 1889-90, amounted to Rs. 37,37,101-10-5.

117. Out of the abovementioned Rs.37,37,101-10-5, Rs. 31,19,154-15-9 were collected by the Assessor and Collector, and Rs. 2,12,990 were paid by Government and Port Trust *direct* to the Municipality, making a total of collections received to Rs. 33,32,144-15-9, which left a balance of Rs. 4,04,956-10-8.

118. From this balance of outstandings, bills for the year 1888-89 were reduced in value to Rs. 97,246-4-9 ; there remained, therefore, Rs. 3,07,710-5-11 as outstandings for the year 1889-90 against Rs. 1,74,829-3-1 in 1888-89.

119. We give in detail, in the annexed form of Appendices, marked A, B, C and D, the result of our scrutiny of the outstanding balances for the year 1889-90 and of previous years up to 1882.

Appendix A shows outstandings for the year 1889-90, amounting to 5,413 bills of the value of Rs. 2,78,559-15-6.

Appendix B shows outstandings for the year 1888-89 and of previous years up to 1882, inclusive, amounting to 593 bills of the value of Rs. 17,622-7-2.

Appendix C shows outstandings of disputed and law-suit bills, amounting to 27 of the value of Rs. 11,527-15-3, including increased assessment on Port Trust Property for the year 1889-90, amounting to Rs. 10,187.

Appendix D is a summary of the abovementioned three Appendices A, B and C, and shows the grand total of all outstandings on the 31st day of March 1890, amounting to 6,033 bills of the value of Rs. 3,07,710-5-11, being Rs. 1,32,881-2-10 more than the outstandings of 1888-89.

120. We give below a *resumé* of the above in the following figures :—

			Rs. a. p.	Rs. a. p.

ARDASEER FRAMJEE MOOS,
NANABHAI RASTAMJI RANINA, } *Municipal Auditors.*

Bombay, 19th July 1890.

To

H. W. BARROW, Esq.,

Municipal Secretary,

BOMBAY.

SIR,

In continuation of our Report on Municipal Accounts, forwarded to you on 9th September last, we have the honor to state, for the information of the Standing Committee, that we have examined the adjusting and cross entries and compared them with the books of the Municipality and Appendices 6, 7, 8 and 9, and find they have been correctly extracted from the books.

We have the honor to be,

Sir,

Your most obedient servants,

ARDASEER FRAMJEE MOOS,

NANABHAI RASTAMJI RANINA,

Municipal Auditors.
